RC: 1486983

United Family of Taleb, UFT is a Taleb family owned company with its headquarter in Port Harcourt, Rivers State, Nigeria.

UFT International Nigeria Limited is an offshot of Abmole Technical Construction Company which was incorporated in Nigeria in 1977. Ambole TCC made a big mark in the steel construction industry in Nigeria, leaving in its trail a lot of master pieces that are still standing today. These includes - Ugheli Glass Factory, Delta State, Nembe Crude Oil Flow Station and Oguta 02 Crude Oil Flow Station. All these flow stations were built under Shell BP - Engineering 13

Abmole Technical Construction Company workers on site during the construction of the Fuel Line for Muritala Mohammed International Airport, Lagos - 1979

#### OUR CORE COMPETENCE AREAS INCLUDES BUT NOT LIMITED TO:

- Onshore & Offshore constructions
- Offshore Manpower & Equipment Rentals
- Construction of Storage Tanks
- Manufacturing of DVN containers, skids, baskets and services
- Prefabricated Steel Structure
- Armory System: Bullet Proof

**AVEON OFFSHORE - Fabrication Workshop-Rivers**

**SCHLUMBERGER - Subsea Sentree7 Tower**

The strength of our reputation and client base speaks for itself. All our projects regardless of size, are managed by qualified and experienced Personnel who have direct access to other significant technical and engineering resources and facilities available within the UFT International solutions.

## Blasting and Painting

### •SAND / GRIT BLASTING

The Fast, Easy, Reliable, Solution for Surface Prep and Coating Removal

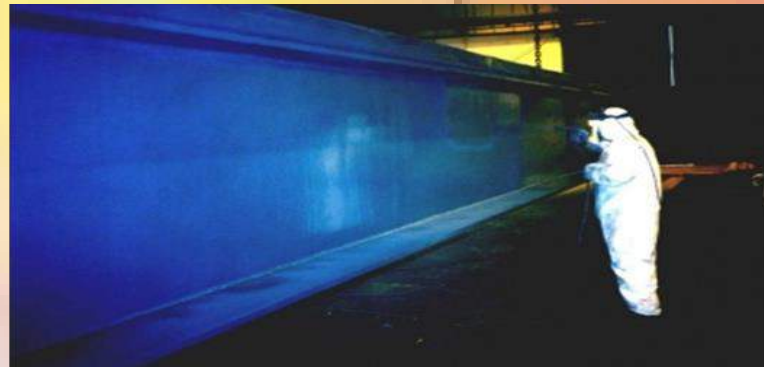

UFT is specialized in Blasting and Applying Protective Coatings to ensure your Products Survive Under tough Conditions without Corrosion. We handle large objects as well as small metal pieces. Our Metal corrosion control includes abrasive blast cleaning methods: Sand / Grit Blast customized to meet your requirements and standards. We offer a variety of protective coatings to suit your particular project. All taking into consideration the Environmental Precautions.

### •HYDRO BLASTING

Where Abrasive Blasting is not Possible, UFT has the Alternative: Hydro Blasting; a technique for cleaning surfaces, which relies entirely on the energy of water striking a surface to achieve its cleaning effect. Abrasives are NOT used in hydro blasting systems. Consequently the problems caused by dust pollution and by the disposal of spent abrasives are eliminated.

### •PAINTING

Nobody has the steel fabrication industry covered quite like UFT. Products that offer superior performance. Products you can trust to Last. Our Steel Fabrication Coatings incorporate in our revolutionary technology to maximize productivity to save your Time and Money. Many of the Products meet environmental concerns, our renowned specification services ensure you get the durable coating solutions you need wherever you are.

**SCHLUMBERGER - D&M Storage Racks**

## TURNAROUNDS

Employing our own labor, we are flexible in our approach offering assistance with mechanical plant overhauls and shutdowns on either a tailored or turnkey basis.

We can either augment a client's existing team, providing additional expertise and resources, or assume complete responsibility for the unit or area in question.
