USE ONLY AS
DESCRIBED ON LABEL

E4257'b

INSECTICIDE FOR PROFESSIONAL USE AGAINST FLYING AND CRAWLING INSECTS INCLUDING SPIDERS, ANTS, COCKROACHES, FLIES, STABLE FLIES, HOUSE FLIES, LESSER HOUSEFLIES, MOSQUITOES, BEDBUGS, STORED PRODUCT MOTHS, FRUIT FLIES, MITES AND RED MITES FOR USE IN ENCLOSED INDOOR SITUATIONS, REFUSE DISPOSAL AND WASTE STORAGE AREAS. DOMESTIC PREMISES, FOOD PREPARATION PREMISES, KITCHENS, BAKERIES AND LIVESTOCK HOUSING. WHEN TREATING ANIMAL HOUSING THE APPLICATION MUST BE DONE IN EMPTY PREMISES ONTO SURFACES WHICH ARE OUT OF REACH OF ANIMALS (TO AVOID LICKING OR RUBBING AGAINST TREATED SURFACES).

INSTRUCTIONS FOR USE

Shake the bottle before use. Dilute 50ml of product in 5L of water per 100m².

SURFACE TREATMENT

We recommend regular maintenance and cleaning of your sprayers and filters, and to use a sprayer with a maximum pressure of 3 bar. Spray 1L of diluted solution over 20m². After treatment, the water evaporates leaving the microcapsules on the surface. Indoors, ventilate throughout the treatment and ventilate before re-occupying the premises (on average 30 minutes to 2 hours depending on the level of ventilation). Clean equipment after use. We recommended wearing gloves when handling the product and to wash hands thoroughly after each use.

ACTION

Fast knockdown and long-lasting residual. After treatment the treated surface is covered with thousands of microcapsules. PHOBI CAPS works in less than 15 minutes and protects treated surfaces up to 12 weeks. Only treat again if a new infestation occurs.

USE PRECAUTIONS

The COSHH (Control of Substances Hazardous to Health) Regulations 2002 (as amended) apply to the use of this product at work. Avoid excessive contamination of coveralls. Do not contaminate foodstuffs, eating utensils or food contact surfaces. This material and its container must be disposed of in a safe way. Do not apply directly to livestock and poultry. Exclude all persons and animals during treatment. Cover all water storage tanks before application. All bats are protected under the wildlife and countryside act 1981. Before treating any structure used by bats, consult natural England, Scottish natural heritage or the countryside council for Wales. Hazardous to bees. Protect milk machinery and milk containers from contamination. Treatment can be applied to walls inaccessible to the animals and onto cracks and crevices after animals have been removed. Remove all feed and drinking water prior to treatment cover all feeders, waterers prior to treatment. Do not spray on surfaces and facilities likely to be in contact with livestock, feed or drinking water. To avoid indirect contamination during nearby application, cover all surfaces and facilities likely to be in contact with feed, drinking water and livestock. Wash hands and exposed skin before meals and after use. Keep in a safe place. Collect eggs and remove feed, exposed water and milk before application. Remove all dead flies/litter beetles prior to re-entry of the poultry. Do not apply to clothing and bedding. For indoor use only.
