To All CSEA members:

Please be reminded that the Reallocation Committee will be meeting in May. Any CSEA employees that wish to have their position reviewed for reallocation on the pay scale, this is your opportunity to make your case and be heard.

To facilitate this process, please let Barb Schaffer and I know with a written request to have their position heard on the issue of reallocation. Your request should include your name, title, time in title, time in service to the county, and the current and requested pay grade. Requests can be made by email or paper form, but must be received by 4/30. Once your request is received, and after 4/30, we will set a date/time/location for the committee meeting based on member availability and quantity of employee requests.

Please also be reminded that reallocation of titles has primarily to do with a change in job responsibilities or requirements within the same title. Requests having the best chance of success for reallocation would include requests where the title responsibilities or requirements have been significantly increased, and are required of you by your supervisor, department head, or a regulatory agency.

Thank you

Richard Cain
