- Please take this opportunity to meet in the private “one-on-one” sessions to confidentially discuss personal health care needs. Members are encouraged to bring lists of medications, doctors, procedures, ailments, conditions and any other questions and concerns to their one-on-one meeting so that the CDPHP representative can be most helpful.
- If you are interested in taking part in these private “one-on-one” sessions, make an appointment based on the schedule above. Those interested in scheduling an appointment should contact Fonda Chronis, Assistant to the County Administrator, by email, phone, or in person: Fonda Chronis

- Insurance representatives providing “one-on-one” support will be happy to take walk-in employees when no appointments are scheduled, but we cannot guarantee walk-in hours for private meetings. However, there will be representatives in the group sessions who will also be able to answer your specific questions in a “one-on-one” format (just not in a private room).
- Members and any interested family members are welcome at any of these meetings.
- Please note that Non-Union Employees may be present at the Group meetings and may also be scheduling private meetings.
