VA Disability Claims Process

<p>Step 1) Claim Received</p>	<p>▶ Your claim has been received by the VA. If you applied online with VONAPP Direct Connect, you should see receipt in your list of Open Claims within one hour. If you applied through the U.S. mail, please allow mailing time plus one week for us to process and record receipt of your claim.</p>
<p>Step 2) Under Review</p>	<p>▶ Your claim has been assigned to a Veterans Service Representative and is being reviewed to determine if additional evidence is needed. If we do not need any additional information, your claim will move directly to the Preparation for Decision phase.</p>
<p>Step 3) Gathering of Evidence</p>	<p>▶ The Veterans Service Representative will request evidence from the required sources. Requests for evidence may be made of you, a medical professional you identify, a government agency, or another authority.</p>
<p>Step 4) Review of Evidence</p>	<p>▶ We have received all needed evidence. If, upon review, it is determined that more evidence is required, the claim will be sent back to the Gathering of Evidence phase. Such a situation can occur when a benefits claim for an additional disability is made.</p>
<p>Step 5) Preparation for Decision</p>	<p>▶ The (Rating) Veterans Service Representative has recommended a decision, and is preparing required documents detailing that decision. If more evidence is required, the claim will be returned to the Gathering of Evidence phase.</p>
<p>Step 6) Pending Decision Approval</p>	<p>▶ The recommended decision is reviewed, and, as applicable, a final award approval is made. If it is determined that more evidence or information is required, the claim will be returned to the Gathering of Evidence phase.</p>
<p>Step 7) Preparation for Notification</p>	<p>▶ Your entire claim decision packet is prepared for mailing.</p>
<p>Step 8) Complete</p>	<p>▶ The VA sends you a decision packet by U.S. mail. The packet includes details of the decision and, as applicable, is awarded to the applicant.</p>

How Long Will This Process Take?

VA's open-ended duty to assist Veterans and Survivors in developing their claim, established in law, prevents VA from deciding all claims within 125 days. VA will always consider additional evidence or new medical conditions added – no matter how late in the claims process. VA's legal duty to assist Veterans in fully developing their claims is an obligation we take seriously.

Examples of claims that could take longer than 125 days to process include:

- Veterans who add a new disability to their claim or identify additional evidence well into VA's processing of their claim.
- Veterans who are unable to make scheduled medical exams for personal reasons, such as travel, living overseas, etc.
- Complex disability claims, such as radiation claims that require the collection of scientific and medical data and opinions from radiation experts.
- Difficulty in obtaining National Guard and Reserve records for still-serving members.

Fully Developed Claims (FDCs)

The Fully Developed Claims (FDC) program is an optional initiative that offers Veterans and survivors faster decisions from VA on compensation, pension, and survivor benefit claims. Veterans and survivors simply submit all relevant records in their possession, and those records which are easily obtainable, such as private medical records, at the time they make their claim and certify that they have no further evidence to submit. VA can then review and process the claim more quickly; it also places a priority on processing FDCs.

For more information on the FDC Program, visit us at www.benefits.va.gov/fdc/ or contact VA at (800) 827-1000 (toll free), between the hours of 7 a.m. - 7 p.m., Eastern Standard Time.

Financial Hardship, Homelessness and Terminal Illness

VA prioritizes benefits claims of Veteran's experiencing an extreme financial hardship, homelessness, or a terminal illness. If such a situation applies to you, and you have a pending claim with VA, please notify, (800) 827-1000 (toll free), between the hours of 7 a.m. - 7 p.m., Eastern Standard Time.

Managing Stress

Stress Management: How to Reduce, Prevent, and Cope with Stress

Look at how you currently cope with stress.

Unhealthy ways of coping with stress:

- Smoking
- Drinking too much
- Overeating or undereating
- Zoning out for hours in front of the TV or computer
- Withdrawing from friends, family and activities
- Using pills or drugs to relax
- Sleeping too much
- Procrastinating
- Filling up every minute of the day to avoid facing problems
- Taking out your stress on others (lashing out, angry outbursts, physical violence)

Stress Management Strategy #1

Avoid unnecessary stress – Not all the stress can be avoided and it's not healthy to avoid situation that needs to be addressed. You may be surprised by the number of stressors in your life that you can eliminate.

Stress Management Strategy #2

Alter the situation – If you can't avoid a stressful situation, try to alter it. Figure out what you can do to change things so the problem doesn't present itself in the future. Often, this involves changing the way you communicate and operate in your daily life.

Stress Management Strategy #3

Adapt to the stressor – If you can't change the stressor, change yourself. You can adapt to stressful situations and regain your sense of control by changing your expectations and attitude.

Adjusting your attitude: How you think can have a profound effect on your emotional and physical well-being. Each time you think negative thoughts about yourself, your body reacts as if it were in the throes of a tension-filled situation. If you see good things about yourself, you are more likely to feel good; the reverse is also true. Eliminate words such as "always," "never," "should" and "must." These are telltale marks of self-defeating thoughts.

Healthy ways to relax and recharge:

- Go for a walk.
- Spend time in nature.
- Call a good friend.
- Sweat out tension with a good workout.
- Write in your journal.
- Take a long bath.
- Light scented candles.
- Savor a warm cup of coffee or tea.
- Play with a pet.
- Work in your garden.
- Get a massage.
- Read a good book.
- Listen to music.
- Watch a comedy.

Stress Management Strategy #4

Accept the things you can't change - Some sources of stress are unavoidable. You can't prevent or change stressors such as the death of a loved one, a serious illness, or a national recession. In such cases, the best way to cope with stress is to accept things as they are. Acceptance may be difficult, but in the long run, it's easier than railing against a situation you can't change.

Stress Management Strategy #5

Make time for fun and relaxation - Beyond a take-charge approach and a positive attitude, you can reduce stress in your life by nurturing yourself. If you regularly make time for fun and relaxation, you'll be in a better place to handle life's stressors when they inevitably come.

Stress Management Strategy #6

Adopt a healthy lifestyle - You can increase your resistance to stress by strengthening your physical health.

myVA311

VA at your fingertips 1-844-698-2311

When the VA Secretary first started evaluating business and customer service practices across VA to improve the Veteran experience, the need for a revamped phone system was clear. Instead of navigating dozens of automated phone trees with no guarantee of success, Veterans needed one place to call to get connected to the right place quickly.

VA is introducing **1-844-MyVA311** (1-844-698-2311) as a go-to source for Veterans and their families who don't know what number to call. This new national toll-free number will help eliminate the feeling of frustration and confusion that Veterans and their families expressed when navigating the 1000-plus phone numbers that currently exist.

With **1-844-MyVA311**, Veterans, families, and caregivers can access information about VA services like disability, pension, healthcare eligibility, enrollment, and burial benefits, in addition to a self-service locator to find the nearest VA facility. And if they're looking for immediate assistance with housing or are having a mental health crisis, MyVA311 will route callers to the Homeless Veteran Help Line and the Veterans Crisis Line.

If you know what number you're calling – keep calling it. None of the existing VA numbers will go away. The future vision is that **1-844-MyVA311** will become a 24/7 one-stop information service platform for all VA services.

Veteran feedback has been instrumental in helping us streamline the way we get callers routed to the right place at VA. VA is also making improvements to the overall Veteran experience eliminating blocked calls and hiring more people to reduce wait times. We will continue to gather feedback from our Veterans to ensure VA is meeting their needs.

The new **MyVA311** phone number is just one step in a larger effort to modernize VA contact centers so Veterans have a seamless, positive experience when reaching out VA. In the coming months, we will be sharing more on additional steps as we continue to improve the Veterans experience.

How to Access Urgent Care

VA offers urgent care services to eligible Veterans at VA or at in-network urgent care clinics closer to home. Use VA's urgent care benefit to treat minor injuries and illnesses that are not life-threatening, such as colds, strep throat, sprained muscles, skin infections, ear infections, and more. Follow these steps to receive urgent care services.
