

☀️ 2 Positions for 4 Week Summer **Research Volunteering Op** at 'homefolk' ☀️

'homefolk' is a community interest company (CIC) working to install a pilot tinyhouse community within London and integrate our affordable housing model within urban spaces. Note: homefolk are most active through our website at homefolk.org.uk. To apply, see details below.

- Are you a Master's student in Global Conservation Science, Sustainability and Consultancy or Climate Futures: Science, Society, and Politics or Sustainable Cities at Leeds University?

homefolk are hosting a 4 weeks summer volunteering op in research. We're looking for **two** passionate individuals to:

- Explore Novel Sustainable Housing Models: Conduct in-depth research on cutting-edge housing solutions related to sustainability, affordability, health, and alternative dwelling types.
- Interview a Network of Experts: Engage with doctors, professors, activists, and eco-living enthusiasts to gather valuable insights on housing solutions and future preparedness of the housing market.
- Collaborate with Our Volunteer Team: Work alongside our diverse team of experts and volunteers ranging from doctors to students, professors, architects, and eco-housing enthusiasts!
- Create Informational Packets and Graphics: Develop engaging content for *homefolk's* social media channels and our partners.
- Involvement in our **Summer Campaign**: Learn valuable insights about how start-ups and the social enterprise (SE) field function and generate growth *post-concept* using unique and artistic digital communications

Gain hands-on research experience, contribute to impactful projects, and help us shape the future of sustainable housing. Apply now to make a difference!

- 📅 **Duration:** 4 Weeks in Summer 2024, *ideal start dates within the first week of July.*
- 📍 **Location:** Remote with occasional meet-ups in London, Leeds, Sheffield and Newcastle
- ✉️ **Apply:** Send your CV and a brief cover letter to admin@homefolk.org by June 21st, 2024.
