Certificate for Appreciation

On behalf of the our school, we extend our heartfelt appreciation to the **Sabka Doctor Foundation & Mrs. Anshu Garg** for their impactful training on CPR and use of **AED** conducted for the students of Sardar Vallabhbhai Patel Senior Secondary School, Delhi Cantt.

Your insights, energy, and genuine dedication truly resonated with the students, as reflected in the overwhelmingly positive feedback we received during a follow-up session. It is no small feat to engage, inspire and train young minds, and yet, your session did exactly that—leaving a lasting impression on more than 60 students who now feel more guided and confident about their CPR Skills.

Your collaboration with us not only enriched our initiative but also contributed meaningfully to the lives of students who often lack access to such Training. The clarity and motivation you instilled have sparked conversations and aspirations among the youth—something that we are deeply grateful for.

We look forward to future opportunities to work with you in bringing positive change through education and awareness.

Once again, thank you for your time, expertise, and inspiring presence.
