

Y: If you don't know how grand dad died I think I know.

E: How could you know?

Y: When I think deeply I could almost visualize it.

E: Are you sure you not been influenced by TV programs you've been watching lately or heard too much a day at all of what was discussed?

Y: Absolutely not, that has nothing to do with it, it's just that I'm thinking about it and that comes easily to my mind.

E: OK since you seem sure about that, tell me how it happened.

Y: Grand dad was driving to work and not too long after in an irritated mood found himself stuck in a ditch, within the parking lot.

E: Why did his car go in the ditch? was the road slippery or what exactly happened?

Y: No the road wasn't slippery it's just grand dad couldn't get the brakes on the car working, it seems that they failed to work for a while and then came back on again after he went in the ditch, yes he had difficulty using those brakes, old feet I guess.

E: What did grand dad do after?

Y: He got out of his car, took the shovel out of the trunk and went ahead of the car and started shoveling.

E: What colour was the shovel?

Y: The shovel was grey, with wooden handle & red grip.

E: How much shoveling did grand dad do?

Y: Only one shovel full, only one.

E: Why didn't he carry on?

Y: Because he wasn't feeling too well, he stopped for a little while, he was feeling dizzy, he fell on his back, (some snow covered his face) he stayed on the ground for a little while then after partly coming back to his senses managed to half crawl his way back to the rest of the car.

E: Before we go any further let me ask you this question! why was grand dad, in the first place heading towards H.Q. parking lot?

Y: Because I he didn't know what he was doing.

E: O.K. now let's carry on. tell me exactly what happened after grand dad got on the car seat?

Y: He sat there unconscious, he knew he was dying, then he said my god I'm dying, then slowly fell on the side.

E: What time grand dad died, could you tell me?

Y: 6:20

E: What time the police looked after him, do you know?

Y: Yes, two hours after

E: Could you tell me what the police did as soon as they arrived at the scene? did they try anything to revive him or give him any sort of first aid treatment?

Y: The only thing they did they've tried to wake him up, they screamed in his ear, he didn't answer, so they figured there was no time to waste, and carried him to the police ambulance vehicle.

E: Is that all they did to revive him, just scream in his ear?

Y: No, on the way to the hospital they made some fast checks on him: small cuts on his fingers, some sort of inflation reaction might have occurred.

E: Tell me son, do you know if grand dad did take any of his pills before or during his pains?

Y: Yes, I + remember they weren't suitable to cure him

- E: What if somebody was with him to give him a hand,
would this had helped to prevent him from quitting on us?
- C: No daddy no, not at all, that was the end.
- E: Tell me, what happened to the shovel, do you know?
- C: Oh yes, I bet you dad, ~~he~~ didn't find it in the car did you?
as that case it must be in a locker.
