Here's How It Works

1 Wiral LITE Cable Cam Unit

This is **Wiral LITE** – it sets your camera in motion and takes it places it's never been before. You can **control the movement** of Wiral LITE along the line with the **remote** or set it to **move automatically** on its own.

Your Camera

Wiral LITE comes with a standard 1/4 **camera mount**. All you need to do is mount **your favorite camera** to Wiral LITE and you're ready to film. You can use any camera up to 1.5kg/3.3lbs in weight.

Rope System

Set up our patent-pending **Quick Reel™** rope system and place Wiral LITE on it – it takes **less than 3 minutes!**

Get Professional Results

Wiral LITE is packed with features that help you make professional looking videos. Want Hollywood-style videos without the Hollywood-style production budget? We got you.

Easy setup and intuitive controls let you focus on what matters most: getting an awesome shot. And here's the best part – you'll need no prior training or piloting license to film.

QUICK SETUP STANDARD MOUNT LIGHT & PORTABLE

Shot On Wiral LITE

See what people are making

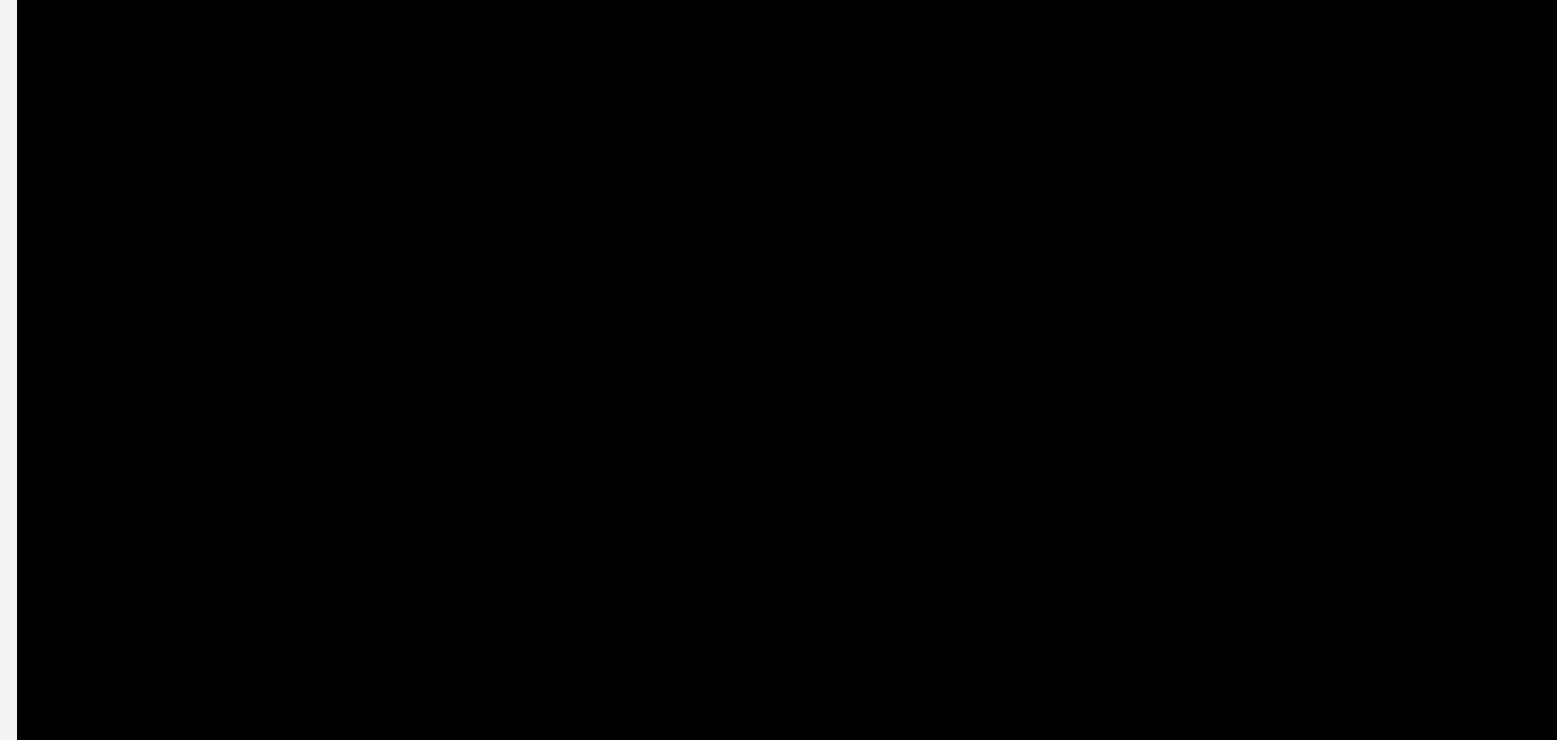

Get inspired by the unique shots creators all around the world capture on Wiral LITE every day.

Capture Better Motion Timelapses

Add **movement** to your **timelapses** to make them more engaging. And to make sure you're fully in control, we've made the motion timelapse **speed of movement adjustable**.

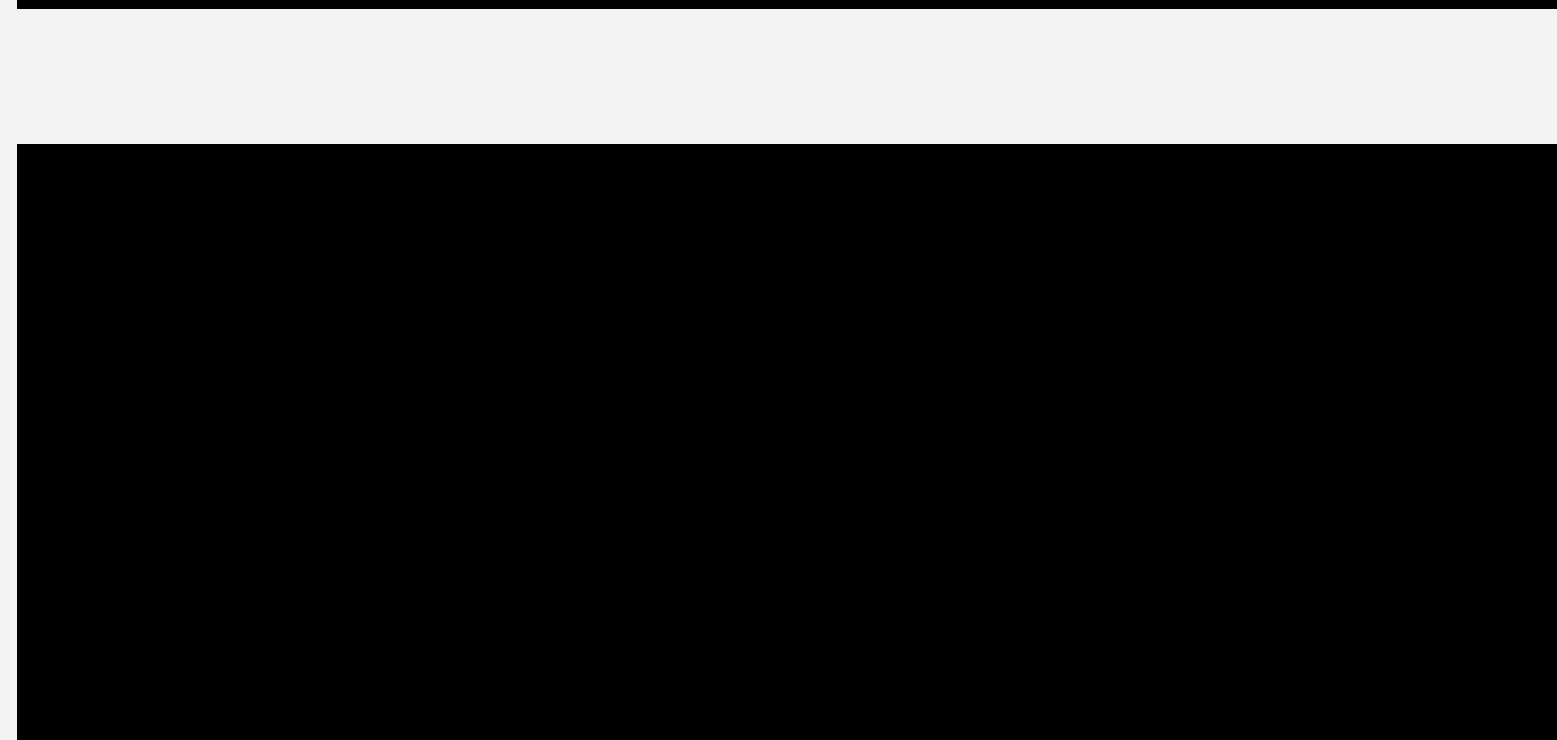

No heavy professional equipment, no sliders needed. Wiral LITE is super light and compact and you'll **cover greater distances** with the the Quickreel line.

Create Smooth Moving Shots

Want to make your favorite camera follow everything you film in sweeping motion?

With Wiral LITE, you can replicate professional **dolly shots** from all angles, follow people and objects in motion, or make settings come to life as you move your camera on the line. **Automatic movement** lets you film without the need to use the remote.

Film High Speed Action

If you move fast, Wiral LITE moves with you. **Take your camera where the action is** – follow and film high speed movement, fast moving subjects, or training videos with Wiral LITE.

Unlike with drones, you're safe to **get super close** to your subject. So whether parkour is your passion, or biking down a mountain trail does the trick, you'll show it off better than before

This is definitely something super-creative to add to your toolbox.

Refreshingly easy to set up and operate.

One of the most creative camera accessories on the market.

Wiral LITE

Fits Your Camera

We designed Wiral LITE to be **compatible with all cameras** up to 1.5kg/3.3lbs in weight.

Just grab an **action camera, smartphone, 360° camera or DSLR** of your choice then get out there and film.

With Wiral LITE, you'll get better moving shots and videos that stand out no matter your choice of camera.

| Smartphone | DSLR & Mirrorless | 360° Camera | Action Camera |
|---|---|---|--|
| Yes, smartphone videos can look good. If you don't want to carry around bulky gear, make pro-looking stories with your smartphone and Wiral LITE. | You've got the gear, now increase its potential. Don't compromise on versatility - use your DSLR to get creative slider or dolly shots on Wiral LITE. | Free your movement and make the most of your 360 camera with Wiral LITE. Cover more ground, and get shots that look great from every angle. | The right choice if you enjoy a bit of adrenaline. Just set up your action camera to move automatically on Wiral LITE and enjoy your activities. |
| Smartphone Footage | DSLR Footage | 360° Footage | Action Cam Footage |

Quick Setup

Easy as 1-2-3. Just set up the line, mount Wiral LITE and your favorite camera, and you're ready to film.

We designed the Quick Reel line and Wiral LITE for optimal setup speed, so you'll have more time to film and enjoy your adventures. It doesn't get simpler than this.
