UNDENIABLY THE BEST

tom's guide

Editor's Choice

"If you want unbeatable performance throughout your home, Orbi RBK852 [is] the WiFi 6 mesh system to beat."

Brian Nadel, February 2021

c|net

"The Orbi RBK852 is the fastest and most impressive mesh router I've ever tested."

Ry Crist, January 2020

Forbes

"The Orbi RBK852 is the fastest mesh system I've ever used [with the] widest and highest quality coverage I've seen."

Gordon Kelly, April 2020

MORE OF EVERYTHING, EVERYWHERE.

More Coverage

Choose 5,000, 7,500 or 10,000 square feet of always-strong WiFi in every corner of your home.

More Devices

Stream, game and video call on up to 100 connected devices simultaneously — with zero buffering.

More Speed

Stream multiple 8K/4K videos at up to 6Gbps, all at the same time with WiFi 6, the fastest WiFi ever.

ENGINEERED FOR BLAZING FAST WIFI

Orbi is engineered for more efficient data transmission through our exclusive Tri-Band Mesh technology. The result is faster WiFi performance that doesn't degrade across the house.

UNSTOPPABLE STREAMING

Orbi keeps everyone in your house streaming Netflix shows, video calls, and gaming, all at the same time with no buffering or drop offs.

THE BEST COVERAGE. PERIOD.

Orbi's unique shape and height encase ultra-premium, high-power components to deliver significantly better coverage and overall performance than the competition.

Typical mini router
