**Presentation is attached to the minutes for the record.*

2. RCMA – Immokalee Community Academy (ICA)

Ms. Juana Brown introduced herself and gave a brief background on RCMA's impact in the community. She is asking the CRA board for approval to replace existing fence along ICA 5th Street playground's border with a taller and safer fence. An 8 foot aesthetically and visually attractive fence would replace the current 4-foot fence.

The Collier County Sheriff's Department did a security review at ICA and determined that a higher fence would provide more safety for the school. Hardening the campus and provide a secure barrier to intruder's intent on entering the campus will provide safety for the school. This is currently possible by jumping the fence and has been attempted on two previous occasions.

After much discussion board agreed to provide a letter of support for an 8-foot decorative fence to replace the current 4-foot fence.

The advisory board passed a motion to support the Immokalee Community Academy proposed decorative fence enhancements to the school located at 123 North 4th Street with a vote of 7-0 with one abstention by Mike Facundo. This improvement will enhance public safety while maintaining a high level of architectural standards.

CRA Action:

Action: Mr. Ski Olesky made a motion to provide a letter of support for RCMA PUD to allow for an 8ft decorative fence. Mr. Estil Null seconded the motion and it passed by unanimous vote. 7-0 with one abstention.

Staff provided Enclosure 10 which is A&M maintenance reports, incidental invoice, and upcoming schedule for work in the MSTU area.

ii. Container at South Immokalee Park – Status update (Enclosure 5)

Staff reviewed Enclosure 5 which is background information for improvements to South Park located at 418 School Drive. The project includes survey, fencing, concrete access apron, site work, container relocation and painting of the container. They will relocate and extend existing 6’ chain link fence south to the property boundary line as shown on the site plan.

On January 10, 2022, emergency repairs were completed on the storage container to replace the floor. After discussion, the MSTU board instructed Staff look into raising the container 6” off the ground and add additional venting to decrease the condensation being created with the vent already in the container. On February 11, 2022, Staff was advised of P&R’s plans to utilize the space and the need to relocate the container. P&R and Staff coordinated their efforts for site improvements.

P&R posted a request for quotes in May 2022 for their fencing needs and incorporated the steps needed to relocate and raise the container. The description of work needed to relocate the container (8’ X 40’) to the SE corner of the property are to pour minimum 6” concrete slab and place container on new slab, pour an approach ramp to be flush with the container floor, add two solar powered exhaust fans and two louvers with insect protection, prime and paint (2 coats) container exterior with oil base paint, and the roof of container to be coated with waterproof material.

The lowest bid was \$48,765 for the combination of P&R and container work. This work is something that needs to be completed. Staff seeking support for MSTU’s contribution up to \$35,000 for the container portion of the improvements. Project to be funded under fund 162-162524.

After much discussion MSTU board agreed to fund \$35,000 for the improvements.

MSTU Action:

5. Main Street Corridor Streetscape Project
 - i. Johnson Engineering – Public Meeting #1 (Enclosure 13)
Mr. Jeffrey Nagle, RLA introduced himself, the Johnson Engineering team and gave an overview of the project parameters as well as the process of the streetscape plan including conceptual design, construction plans, permitting, bidding, construction implementation and oversight. The project area consists of the back of sidewalk to curb line and the roadway median. Jeff also stated that the goal of the project was to create a pedestrian friendly streetscape.

The following statements and questions were provided by Board members and public audience.

- Will trees be shown on the final streetscape plan?
- There is a service station across from the Friendship House that has a dip in the road as well as a steep drive up across the street, which makes it dangerous for bicyclists and tricyclists.
- Board expressed preference for bicyclists to share the sidewalks with pedestrians instead of sharing the road.
- The areas of 9th and Main have a problem with high accident rates with bike/pedestrians and that there is not enough room for bicyclists in this area.
- Parallel parking is allowed in the Right of Way.
- Preference to use landscape to reduce blight and crime and promote safety.
- The community wants wider sidewalks, even if in intervals and to consider large families and different users such as bikes, trikes, wheelchairs and canes. Currently sidewalks are not wide enough for motorized wheelchairs.
- The bump-outs, benches and doorways tend to cause loitering and congregation among the homeless population.
- Phase the addition of benches in the Streetscape Plan.
- Suggestion to screen blighted buildings by connecting lines to light poles to encourage vegetation/vine growth.
- Safety was a concern previously addressed by FDOT. Preference to focus on aesthetics, such as how to keep dirt from empty lots from blowing onto the sidewalks.
- Gum is frequently on the sidewalks and litter overflows the trashcans.
- 3rd Street has a litter/box issue. The large boxes do not fit in the trash cans.
- No recycling receptacles now but do consider for future design.

- Consider a road diet for angled parking.
- Past improvements have not benefited Main Street and pedestrians.
- Request for examples of Streetscape Plans in places like Immokalee.
- Tractor Trailers have destroyed turn areas near 3rd & 4th. Even if the area is not designed for a larger turning radius, vehicles still use it and destroy signs, etc.
- Preference for the area to be designed with pedestrians and users in mind, not vehicles.
- Landscaping generally increases business revenue.
- FDOT makes the decision for on-street parallel parking. If on-street parking is removed, it is hard to get back later.
- Include “NO TRUCKS” signs to manage large truck traffic.
- The off-street parking is not used currently.
- Preference for more benches and areas for larger families to sit and eat in areas such as near Subway but avoiding areas such as the laundromat or gas stations.
- Add shade to seating areas.
- Decorative arms on light poles are used as pull-bars or exercise equipment.
- Grassy landscape shrubbery looks nice even when pedestrians walk through them.
- Main Street and 3rd area is maintained or mowed.
- Encourage business owners to create agreements for County maintenance on landscape improved areas on private property.
- Immokalee is a working population, and the sidewalks are active during later hours of the day/night.
- Feral chicken issues include scratching, eggs attract rodents, and destruction of landscape and soil.

The majority in attendance would like to focus on areas listed below. Listed below is in priority order with #1 being the top priority.

- 1. Promote Downtown Revitalization**
2. Emphasize Safety for Walking and Biking (ADA)
3. Provide Litter Abatement
4. Discourage Loitering
5. Suppress Existing Feral Chicken Population

The Three Basic Requirements of the Sunshine Law, § 286.011, Florida Statutes

- Meetings of public boards, commissions or committees ("boards") must be open to the public.
- Reasonable notice of such meetings must be given.
- Minutes of the meeting must be taken.

7

Meetings Must be Open to the Public

The public must be allowed to attend meetings, and the location:

- Must be accessible
- Sufficient size for turnout
- Facility cannot discriminate based on age, race, etc.
- Public access not unreasonably restricted
- Be within Collier County with few exceptions
- The public shall be given a reasonable opportunity to be heard on a proposition before a board or commission. Board may establish policies to maintain orderly conduct and decorum. May establish time limits.

8

Reasonable notice of such meetings must be given.

The public must be given reasonable and timely notice so they can decide whether to attend. What is "reasonable" or "timely" depends on the circumstance. It does not necessarily require a newspaper advertisement; contact the County Attorney's Office for guidance.

9

Minutes of the meeting are required. Written minutes must be taken and made available promptly.

- Sound recordings may also be used, but only in addition to written minutes.
- Minutes may be a brief summary of meeting's events.
- Minutes are public records.
- Minutes must record the votes.

10

Subcommittee Issues

A subcommittee is a subordinate committee chosen from among the members of a main committee to carry out special assignments. All members of a subcommittee must be members of the Advisory Board. All subcommittees are Sunshine Committees, and must adhere to all of the requirements of the Sunshine Law.

11

Advisory Board Members

Must strictly adhere to all aspects of the Sunshine Law.

- No pre or post meeting discussions;
- No private conversations on the dais;
- Avoid texting on the dais;
- May not use non-members as liaisons between board members;
- Avoid the appearance of impropriety.

12

**The Sunshine Law applies to
Written Correspondence**

A board member may send documents on matters coming before the board for official action to other board members, PROVIDED there are no responses from, or interaction related to documents among, the board members prior to the public meeting. The written correspondence becomes a public record.

- Recommend use of staff liaison.
- Two way communication must be done in the Sunshine.

13

Inspection Trips

Members of an advisory board may conduct inspection trips (limited basis).

- All requirements of the Sunshine Law must be met, as fact finding exemption does not apply to a board with "ultimate decision-making authority." See Finch v. Seminole County School Board, 995 So. 2d 1068 (Fla. 5th DCA 2003).
- To avoid Sunshine issues, if you wish to conduct an inspection, do so outside the company of a fellow board member.

14

15

FAQs

- Are two members of the same Advisory Board or Board of County Commissioners allowed to attend the same social event or civic function, like a Chamber of Commerce meeting?
- Social events and other community events are of course permissible. Advisory Board members must be aware not to discuss any matter that may be discussed at their advisory board meetings.

16

- Does the Sunshine Law apply to a meeting between one County Commissioner and a private citizen?
- No, the Sunshine Law only applies to certain discussions between two members of the same board.

17

Validity of Action Taken in Violation of The Sunshine Law/Subsequent Corrective Action

- Section 286.011, F.S., provides that no resolution, rule, regulation or formal action shall be considered binding except as taken or made at an open meeting.
- Recognizing that the Sunshine Law should be construed so as to frustrate all evasive devices, the courts have held that action taken in violation of the law is void *ab initio* (from the beginning).
- *Within limitations*, some case law exists holding that Sunshine Law violations can be cured by independent, final action taken completely in the Sunshine.

18

What are the Consequences if a Public Board or Commission Fails to Comply with the Sunshine Law?

Criminal Penalties:

- It is a second degree misdemeanor to knowingly violate the Sunshine law.
- Punishable with a fine of up to \$500 and/or up to 60 days imprisonment.

Other Penalties Include:

- Removal from position.
- Payment of attorney's fees incurred by the challenging party, as well as declaratory and injunctive relief.

PUBLIC RECORDS

Office of the County Attorney
Jeffrey A. Klatzkow, County Attorney

21

The Definition of Public Records Open to Inspection to Any Person is Very Broad.

A public record encompasses all materials made or received by an agency in connection with official business which are used to perpetuate, communicate or formalize knowledge, regardless of whether such materials are in final form.

22

Public Records Law

Public Records include:

All documents, paper, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of physical form or means of transmission made or received pursuant to law in connection with transaction of official business by the agency. *(Chapter 119, Florida Statutes)*

23

Public Records Law applies to:

Records developed by the Board, Board-Appointed Committees, and employees

All Types of records including written communications, letters, notes and e-mails

Numerous exemptions are identified in §119.07, Florida Statutes, and other statutes

24

ADVISORY BOARD GUIDELINES FOR PUBLIC RECORDS AND EMAILS

- While you are serving on an advisory board, correspondence and emails to or from anyone, on any computer (private or government owned), relating to County business is a public record.
- Public records must be maintained pursuant to State guidelines. You may save them on the computer, a disk, or as a hard copy. If leaving your position on an advisory board, please provide a copy of all public records in your possession to the County Staff Liaison.
- One-way communications by email should be directed to the County Staff Liaison. Pursuant to the Sunshine Law, no two-way communications between members (except during publicly noticed meetings) is permitted.
- If you choose to communicate with members of the public concerning County business via email, please be aware that your name and email address, as well as the name and email address of the public person, becomes a public record.

25

What Public Records are Exempt From Disclosure?

Common exemptions are:

- Records prepared for litigation proceedings or in anticipation of legal proceedings
- Social Security numbers of employees and former employees
- Sealed bids or proposals
- Home addresses of current and former law enforcement officers including Code Enforcement Officers

26

Public Records Requests

Can be made verbally or in writing by any person

The Board, Committee, or Staff:

- Has a "reasonable" time to respond
- Can charge for the cost of retrieving records if the amount requested is voluminous
- Can charge 15 cents per page

The Public Records Law does not require:

- The retention of records (this is covered by the State's records retention policy)
- The creation of records or the provision of records in the format requested
- An explanation of the records

* Collier County Resolution No. 2007-327

27

PENALTIES

A violation of the Public Records Act carries both civil and criminal penalties!

28

FAQs

1. How does someone make a public records request?
A public records request may be as formal as a written request or as informal as a telephone call with everything in between.
2. Is the person making a public records request required to fill out an application or some other form?

29

No. The important thing is to find out what records are being asked for, and to get a copy of those records to the requestor within a reasonable time.

3. Who does this?
If the request is simple and can easily be handled by your department, such as a copy of a permit that the requestor had filed, then it should be handled then and there. Any substantial requests should be forwarded to the Customer Relations Division. Your supervisor should assist you in this.

30

Social Media and Florida's Sunshine and Public Records Laws

31

Tools for Social Networking:

- Facebook
- Twitter
- Instant Messaging
- YouTube
- Instagram

32

Social Media Challenges

Increased risk of running afoul of Florida's Government in the Sunshine and Public Records Laws.

33

Florida's Public Records Laws Broad Definition

- Florida Supreme Court (1980)
- "All materials made or received by a city in connection with official business which are used to perpetuate, communicate or formalize knowledge."

34

Social Media Activity is a Public Record...

Regardless of the platform, if the post/tweet/image or other material otherwise meets the standards for a public record,

- It *is* a public record,
- It *must* be retained, and
- It *must* be producible for inspection or copying if requested.

35

36

Social Media and Sunshine

Advisory board members *must not* engage on social media in an exchange or discussion of any matter that might foreseeably come before the board for action...
Period.

(To engage in such an exchange is to violate the Sunshine Law.)

The courts frown upon any communication activity between board members that appears to be an attempt to evade Sunshine Requirements.

37

The Comment Trap

Advisory board members must be wary of commenting on *any* social media platform about matters that foreseeably may come before the board for action.

(The danger arises from the potential for two or more board members to exchange comments, intentionally or inadvertently.)

38

FAQs

- Should I ever use my personal Social Media for County Business?
- Never. There is a reason that the County gives you an email account. Use your County email or use the telephone. And never use your personal computer for County business unless you have logged onto the County network. The last thing you want is someone to subpoena your hard drive to search for public records.

FAQs

- What are the most common violations of the County Ethics Ordinance?
- Every year we get questions involving Christmas or holiday gifts. Gifts from the public, or those whom you do County business with, may not be accepted and must be returned.
- Another common question asked is whether vendors may provide lunch or other snacks for a working meeting.

60

- Under the County Ordinance, vendors may not provide anything of value to County employees or Advisory Board members and this would include lunch or snacks provided at a meeting.
- Another question often asked is whether a citizen may bake a cake or bring a case of water to Advisory Board members. Pursuant to the County Ordinance, this is not allowed.

61

- The County's Ethics Ordinance is very strict. If anyone tries to pay for your lunch, in connection with your County advisory board service, please say no thank you and pay for lunch!
- With all that said, if you ever have any questions involving an Ethics issue please call us. We are not the "Ethics Police." We are here to help, and we will keep your question confidential (remember that emails are public records).

62

- If you want, we will gladly give you a written legal opinion on what you can or cannot do. We cannot help you after-the-fact; when in doubt call us.

SECURITY INFORMATION EXEMPTED FROM PUBLIC RECORDS DISCLOSURE

FLORIDA STATUTE 281.301 - Security systems; records and meetings exempt from public access or disclosure: Information relating to the security systems for any property owned or leased to the state or any of its political subdivisions, and information relating to the security systems for any privately owned or leased property which is in the possession of any agency as defined in F.S. 119.01(2), including all records, information, photographic, audio and visual presentations, schematic diagrams, surveys, recommendations, or consultations or portions thereof relating directly to or revealing such systems or information, and all meetings relating directly to or that would reveal such systems or information are confidential and exempt from F.S. 119.07(1) and 286.13 and other laws and rules requiring public access or disclosure.

SECURITY REVIEW DISCLAIMER

The purpose of this security review is to provide security options for consideration. This review is only advisory and is not intended to identify all security weaknesses, or to warrant the adequacy of all present and future security measures, whether or not recommended.

This document contains a summary of security options for consideration discussed during our review that took place on November 9, 2022:

- PERIMETER FENCING** - During the review it was noted that the facility lacks consistent territorial integrity. One of the foundations of good access control is a defined perimeter that discourages unpermitted access and directs lawful uses of the property to controlled points of entry. These sides of the school lack any kind of fence or adequate fencing is critical as it is the only available measure separating the school from public accessible space. Current fencing ranges anywhere from eight foot chain link to four foot CPED style fencing. The Facility has experienced situations in the past where homeless and/or persons "under the influence" have accessed the property or been able to enter on the perimeter. Perimeter fencing of a consistent style and height of at least eight feet is highly recommended. This would discourage attempts to climb or otherwise breach the perimeter and provided a greater level of security for the students and staff. While other perimeter concerns need to be addressed, the fencing issue is paramount and should be a priority.

- ★ Prioritize the focus of possible improvements

The Wish List will guide the development of
The Conceptual Plan.

Today's Meeting Goal: Develop "Wish List":

Create a Pedestrian Friendly Streetscape

★ Emphasize Safety for Walking and Biking:

- ➔ Provide a continuous and controlled accessible route within the project area
- ➔ Repair any damaged existing sidewalks & complete any accessibility gaps
- ➔ Encourage or discourage shared biking and walking networks. "Share the Road" bike signs may be appropriate
- ➔ Consider reducing the number of obstacles in the travel way of the sidewalk (trash receptacles, benches, light poles, street signs, etc.) that create accessibility conflicts
- ➔ Are the existing bicycle amenities (parking/storage) within or near the streetscape adequate and located properly?

Discussion:

Create a Pedestrian Friendly Streetscape

★ Promote Downtown Revitalization:

- ➔ Provide aesthetic continuity in terms of design features and materials used
- ➔ Support a clean and well-maintained streetscape
- ➔ Install visual cues in sidewalks or provide signage for wayfinding (local destinations)
- ➔ Consider offering incentives to local businesses for maintaining their building frontage streetscape

Discussion:

Create a Pedestrian Friendly Streetscape

★ Provide Litter Abatement:

- ➔ Identify sources of litter pollution (vehicular, pedestrian, both)
- ➔ Clearly identify appropriate litter receptacles for the location
- ➔ Provide an adequate quantity of litter receptacles
- ➔ Strategically locate the placement of litter receptacles
- ➔ Provide appropriately signed or demarcated litter or recycling receptacles (language, graphically, opening size, etc.)
- ➔ Consider alternative methods for litter control (compacting receptacles)

Discussion:

Create a Pedestrian Friendly Streetscape

★ Discourage Loitering:

- ➔ Identify problematic areas (businesses, uses, locations)
- ➔ Identify appropriate locations and methods for encouraging short-term resting areas (benches)
- ➔ Strategically locate the placement of public long-term resting areas (bus stops)
- ➔ Consider design elements to achieve desired results

Discussion:

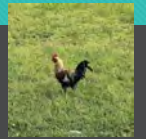

Create a Pedestrian Friendly Streetscape

★ Suppress Existing Feral Chicken Population:

- ➔ Identify problematic areas (routine gathering locations)
- ➔ Identify what creates favorable conditions for the feral chicken habitat (food source, diet, habits)

1) ***Carson Road Project-Eden Park Elementary Safe Routes to School***

- 6’ Sidewalk on the south and west side of the road.
 - Construction costs \$663,000.
 - Funded with Safe Routes to School funds in FY 21/22.

2) **Lake Trafford Road**

Design of bicycle and pedestrian features on Lake Trafford Road from Little League Road to Laurel Street. The project length is approximately 1.850 miles. Specifically, the design will provide for bicycle lanes on each side of the roadway within the project limits and design of a 6' sidewalk on the south side of the roadway from Carson Road to Krystal Lane and from North 18th Street to Laurel Street. Includes adjustment or relocation of the existing signalization at the intersection of Carson Road and 19th Street, if required. Constrained right-of-way at 19th Street intersection may require bike lane tapers to sidewalks and minor incidental intersection improvement at this location. Project 3 is discussed under Stormwater projects. No update

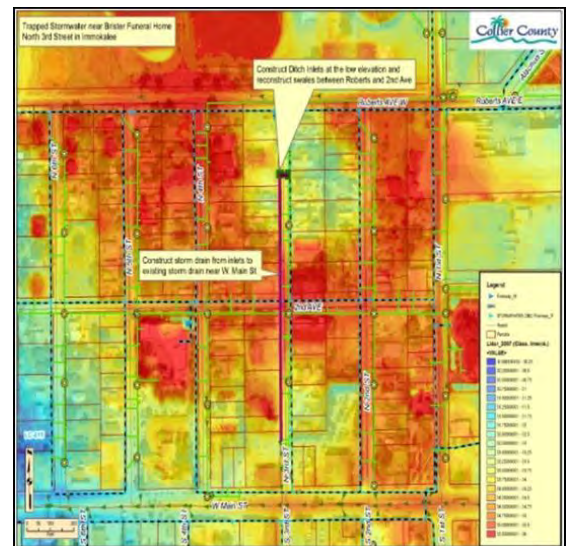

3) **Stormwater Improvements**

The original Immokalee Stormwater Master Plan (ISWMP) was prepared by H.W. Lochner (2005). Camp Dresser & McKee (CDM) was contracted in 2010 to prepare construction plans for the Downtown Immokalee and Immokalee Drive projects plus update the ISWMP. A draft update document was prepared but not finalized. On November 28, 2018, county staff presented the follow-up analysis.

Immokalee Stormwater Project updates:

North 3rd. Street Stormwater Improvements:

The North 3rd. Street Drainage proposed project is located on North 3rd. Street between 2nd Avenue and Roberts Avenue West. The project would include roadside swales, installation of inlets on 3rd. Street, construction of a storm drainpipe system to alleviate ponding and allow conveyance southward to the storm drain system on West Main Street. Cost for repairs is estimated at \$600,000. The grant funding contract is now finalized, and the project is entering the contractor bidding phase. The project manager is Brittany Lazo with Collier County Stormwater Management. No update.

Madison Avenue Channel project:

On the northeastern side of Immokalee, county staff obtained Board of County Commissioners approval to purchase a 6-acre parcel just to the east of the Immokalee Foundation Career Path Learning Lab site. That site will provide a pond site to improve stormwater quality from the outfalls along Madison Ave. Additionally, county staff is working with FDOT’s design firms to coordinate the alignment of the SR-29 bypass loop so they can avoid having to route the stormwater from the Madison Avenue channel all the way around the north and east sides of the airport.

Eden Gardens project:

The Eden Garden Bypass Drainage Improvement proposed project is located in the area south of Westclox St., east of Boxwood Dr., west of Carson Rd., and generally north and northeast of Eden Gardens. The project would construct a new ditch along the northern boundary of Eden Gardens, install a 24” pipe under Boxwood Dr. to tie into the existing ditch along the northwest boundary of Eden Gardens to convey flows further west. Cost for repairs is estimated at \$602,786.32. The county applied for CDBG-DR grant funding for this project.

Lake Trafford Road Area:

The single negotiated contract for designing both a stormwater treatment facility in the SE corner (Tract 3) of Arrowhead Reserve and drainage improvements along Lake Trafford Road from Little League Road to Tippins Terrace was applied for by the Board of County Commissioners in 2021. County staff is looking at phasing the construction, with Phase 1 being the Arrowhead Tract 3 site and Phase 2 being the pathway and drainage west of Little League Road. Design for Phase 1 was completed in 2021 and construction is tentatively scheduled to begin in the last quarter of 2022. Phase 2 design is anticipated to begin in 2022.

6. Commercial Façade Grant Program

In accordance with objective 1.2 in the Immokalee Area Master Plan, the CRA continues to provide financial incentives to business in Immokalee via the Commercial Façade Improvement grant program. The CRA implanted the Program in October 2008.

Since that time, 17 façade grants have been awarded to local businesses for a total of \$294,621.67.

Eligible applicants may receive grant funding up to \$20,000 as reimbursement, using a one-half (1/2) to 1 match with equal applicant funding for funding for façade improvements to commercial structures. Program is in place and being reviewed for revisions.

Collier County hopes to leverage Opportunity Zones as an important tool to support the development of jobs, affordable housing, and economic vitality in five areas in Golden Gate, Naples Manor and in and around Immokalee.

Low Tax Opportunity Zones, established by the federal Tax Cut and Jobs Act of 2017, encourage long-term investment and job creation in targeted communities by reducing taxes for many job creators.
