EXECUTIVE SUMMARY

ABOUT US

City Energy Solar Co. is a trading company based in Baghdad, Iraq. Specializing in the wholesale of photovoltaic (PV) panels, inverters, batteries, and other solar-related accessories. Our unique value proposition lies in making affordable and sustainable solar energy solutions accessible to distributors and installers in the region, capitalizing on the growing demand for renewable energy sources.

EXPERIENCE

Our experience spans over 13 years in the solar energy sector, with a team deeply rooted in both local and international markets across the Middle East. Specializing in sourcing high-quality solar components exclusively from the most reputable and globally recognized manufacturers in the solar industry.

OUR MISSION IN IRAQ

To empower the Iraqi energy sector with reliable solar and storage solutions, tailored to local needs and conditions. We aim to support the country's transition toward sustainable energy by partnering with trusted professionals and delivering high-quality, future ready technologies.

WHY US?

ECONOMIC VALUE

Delivering high-quality energy solutions at competitive prices, ensuring our partners maximize their return on investment.

OPERATIONAL EFFICIENCY

Our systems and components are carefully selected to ensure stable, long-lasting performance across all projects.

SUSTAINABLE GROWTH

We focus on driving market development through strategic partnerships and cutting-edge clean energy technologies.

RESULTS-DRIVEN APPROACH

We are committed to achieving our clients' goals with precision by understanding their needs and delivering comprehensive support.

SUPPORT

We aim to develop the local market by supplying it with globally leading products in terms of efficiency and sustainability. To reinforce our confidence in the products we supply, we offer the longest warranty in the local market. Through us, or through the technical support centers available throughout Iraq, we would be able to cover all areas our products may reach.
