

MAINTAINING PROFESSIONAL STAFF/STUDENT BOUNDARIES

Purpose

The policy provides all staff, students, volunteers and community members about their role in protecting children from inappropriate conduct by adults. This policy applies to all district staff and volunteers. For purposes of this policy and its procedure, the terms "district staff," "staff member(s)," and "staff" also include volunteers.

General Standards

The Nespelem Board of Directors expects all staff members to maintain the highest professional, moral and ethical standards in their interaction with students. Staff members are required to maintain an atmosphere conducive to learning, through consistently and fairly applied discipline and established and maintained professional boundaries.

Professional staff/student boundaries are consistent with the legal and ethical duty of care that district employees have for students.

The interactions and relationships between staff members and students should be based upon mutual respect and trust, and commitment to the professional boundaries between staff and students in and outside of the educational setting, and consistency with the educational mission of the schools.

Staff members will not intrude on a student's physical and emotional boundaries unless the intrusion is necessary to serve a demonstrated educational purpose. An educational purpose is one that relates to the staff member's duties in the district. Inappropriate boundary invasions can take various forms. Any type of sexual conduct with a student is an inappropriate boundary invasion.

Additionally, staff members are expected to be sensitive to the appearance of impropriety in their own conduct and the conduct of other staff when interacting with students. Staff members will notify and discuss issues with their building administrator or supervisor whenever they suspect or are unsure whether conduct is inappropriate or constitutes a violation of this policy.

The board recognizes that staff may have familial and pre-existing social relationships with parents or guardians and students. Staff members should use appropriate professional judgment when they have a dual relationship to students to avoid violating this policy, the appearance of impropriety, and the appearance of favoritism. Staff members shall pro-actively discuss these circumstances with their building administrator or supervisor.

Use of Technology

The Nespelem Board of Directors supports the use of technology to communicate for educational purposes. However, when the communication

is unrelated to school work or other legitimate school business district staff are prohibited from communicating with students by phone, e-mail, text, instant messenger, or other forms of electronic or written communication. District staff members are prohibited from engaging in any conduct on social networking websites that violates the law, district policies or procedures, or other generally recognized professional standards. This prohibition includes prohibiting staff from “friending” and/or “following” students on social media.

Staff whose conduct violates this policy may face discipline and/or termination, consistent with the district’s policies and procedure, acceptable use agreement, and collective bargaining agreements, as applicable.

The superintendent or designee will develop staff protocols for reporting and investigating allegations and develop procedures and training to accompany this policy.
