

RISK MANAGEMENT

The board believes the district must identify and measure risks of loss due to the damage or destruction of district property or to claims against the district by others claiming to have been harmed by the action or inaction of the district, its officers or employees. A risk management program will be implemented to reduce or eliminate risks where possible, to determine the risks the district can afford to assume and to transfer to an insurance company those risks that the district does not wish to assume or cannot economically afford to assume.

Such a program will consider the benefits, if any, of joining with other units of local government for joint purchasing of insurance, joint self-funding, joint self-insuring or joint employment of a risk manager. The superintendent may assign the primary responsibility for the administration and supervision of the risk management program to a single person.
