

Procedure - Video Cameras on Buses

Placement of Cameras:

- A. Cameras will be authorized for use in buses by the supervisor of transportation. The bus driver will be notified of the placement in his/her bus;
- B. Drivers may request that a camera be placed in their buses. The supervisor of transportation will discuss the reason for the request with the driver and will decide if and when a camera will be placed in the bus by special request;
- C. Building principals may request the supervisor of transportation to authorize placement of a video camera in a bus when they have reason to believe that a problem exists; and
- D. All buses where cameras may be utilized will have signs notifying riders that video cameras may be in use.
