

## Callaway County Lagoon Fencing Requirements

All lagoons shall be enclosed with a fence conforming to the following requirements.

1. The fence shall be four (4) feet in height.
2. The fence shall be welded, woven or chain link material with no smaller than fourteen (14) gauge wire. Cattle or hog panels can be substituted with tee posts being used for line posts.
3. Fence posts shall be pressure-treated wood, galvanized and/or painted steel. Fence posts shall be driven, tamped or set in concrete. Line posts should be at least eighteen (18) inches deep and shall be spaced no more than ten (10) feet apart. Corner posts should be at least twenty-four (24) inches deep and shall be properly braced.
4. The fence shall be of sound construction with no gaps or openings along the bottom.
5. The fence shall be no closer than the center of the berm to the water's edge at the three (3) foot operating water level. Fence setbacks should not exceed thirty (30) feet from the water's edge.
6. A properly hinged four (4) foot high gate or comparable materials shall be installed and provided with an effective latching device. The gate should be thirty-six (36) to forty-eight (48) inches in width to accommodate maintenance and mowing equipment.
7. The fence must be completed prior to occupancy of the dwelling.
8. \* If the lagoon is placed where livestock is being held, the fence must be located at the bottom of the lagoon berm.\*
