

Before Starting the CoC Application

You must submit all three of the following parts in order for us to consider your Consolidated Application complete:

1. the CoC Application,
2. the CoC Priority Listing, and
3. all the CoC's project applications that were either approved and ranked, or rejected.

As the Collaborative Applicant, you are responsible for reviewing the following:

1. The FY 2021 CoC Program Competition Notice of Funding Opportunity (NOFO) for specific application and program requirements.
2. The FY 2021 CoC Application Detailed Instructions which provide additional information and guidance for completing the application.
3. All information provided to ensure it is correct and current.
4. Responses provided by project applicants in their Project Applications.
5. The application to ensure all documentation, including attachment are provided.

Your CoC Must Approve the Consolidated Application before You Submit It

- 24 CFR 578.9 requires you to compile and submit the CoC Consolidated Application for the FY 2021 CoC Program Competition on behalf of your CoC.

- 24 CFR 578.9(b) requires you to obtain approval from your CoC before you submit the Consolidated Application into e-snaps.

Answering Multi-Part Narrative Questions

Many questions require you to address multiple elements in a single text box. Number your responses to correspond with multi-element questions using the same numbers in the question. This will help you organize your responses to ensure they are complete and help us to review and score your responses.

Attachments

Questions requiring attachments to receive points state, "You Must Upload an Attachment to the 4B. Attachments Screen." Only upload documents responsive to the questions posed—including other material slows down the review process, which ultimately slows down the funding process. Include a cover page with the attachment name.

- Attachments must match the questions they are associated with—if we do not award points for evidence you upload and associate with the wrong question, this is not a valid reason for you to appeal HUD's funding determination.

- We must be able to read the date and time on attachments requiring system-generated dates and times, (e.g., a screenshot displaying the time and date of the public posting using your desktop calendar; screenshot of a webpage that indicates date and time).

1A. Continuum of Care (CoC) Identification

To help you complete the CoC Application, HUD published resources at https://www.hud.gov/program_offices/comm_planning/coc/competition, including:

| 1B-2. | Open Invitation for New Members. | |
| | NOFO Section VII.B.1.a.(2) | |

| | |
|----|--|
| | Describe in the field below how your CoC: |
| 1. | communicated the invitation process annually to solicit new members to join the CoC; |
| 2. | ensured effective communication with individuals with disabilities, including the availability of accessible electronic formats; |
| 3. | conducted outreach to ensure persons experiencing homelessness or formerly homeless persons are encouraged to join your CoC; and |
| 4. | invited organizations serving culturally specific communities experiencing homelessness in the geographic area to address equity (e.g., Black, Latino, Indigenous, persons with disabilities). |

(limit 2,000 characters)

1. The CoC membership is always open and issues invitation to participate in the meetings through targeted and open invitation. Recruitment and outreach occur when a potential new person/entity is identified by a Homeless Services Coalition (HSC) member as community member sharing the same interest of serving the homeless and near homeless population. Additionally, as new employees are added to existing community organizations, supervisors are asked to notify the HSC so that we can add the new employee to the email distribution list. Members are also welcome to extend the invitation to interested partners to attend the next meeting. The CoC invites new organizations and programs to attend meetings and educate CoC members about their programs. Special outreach is conducted when a specific representation is needed for a topic/need. Meeting information is also posted in advance on our delcophomelesservices.org website.

2. The CoC provides meeting information via email, holds meetings virtually, and will provide interpretation services upon request. Materials can be provided via pdf so they can be interpreted by visually impaired individuals. The virtual meeting uses the TEAMS forum and subtitles can be activated by hearing

impaired individuals.

3. The CoC communicates the invitation to the "open-public" meetings in email notices, the Delaware County Homeless Website, and to partnering organizations for sharing with their email list serves. Horizon House and Mental Health Partnership employ Peer Specialists to engage with participants. These Peer Specialists provide impactful insight in best practices to serving our homeless and near homeless person.

4. Persons of color lead important aspects of the CoC such as Outreach Team, Point in Time Counts and HMIS. The County has employed the Multicultural Family Center to educate County staff about cultural diversity, review existing hiring and promotion policies and procedures and subsequently make revisions to meet the needs of all staff and community.

| 1B-3. | CoC's Strategy to Solicit/Consider Opinions on Preventing and Ending Homelessness. | |
| | NOFO Section VII.B.1.a.(3) | |

Describe in the field below how your CoC:

| | |
|----|--|
| 1. | solicited and considered opinions from a broad array of organizations and individuals that have knowledge of homelessness, or an interest in preventing and ending homelessness; |
| 2. | communicated information during public meetings or other forums your CoC uses to solicit public information; and |
| 3. | took into consideration information gathered in public meetings or forums to address improvements or new approaches to preventing and ending homelessness. |

(limit 2,000 characters)

1. The COC solicits opinions at the Homeless Services Coalition (HSC) quarterly meetings and HSC subcommittees. HSC meetings are open-to-the public and include a broad array of stakeholders who are concerned with ending homelessness. Organizations such as the Foundation of Delaware County, the Lead Coalition, Delaware County Memorial Hospital Substance Abuse Program, Emergency Rent Assistance Program, Voice and Vision, Domestic Abuse Project and Human Trafficking are some of the presentations providing information to the HSC.

2. Each HSC meeting is planned and conducted by the Governing Board (GB), has a standard agenda that includes CoC updates about funding, needs, gaps, trends, mainstream resources, etc. Educational speakers are planned for each meeting.

3. The HSC regularly polls the GB and the HSC to gauge areas service in need of improvement and to identify new approaches to preventing and ending homelessness. GB and HSC participants are asked what tools they feel are needed to best serve their participants. Guest presenters are suggested by the GB and the HSC. Improvements and changes regarding the HMIS are also discussed at GB and HSC. Discussion following the presentation by Voice and Vision's review of the Coordinated Entry (CE) system resulted in a shortened more focused assessment.

| 1B-4. | Public Notification for Proposals from Organizations Not Previously Funded. | |
| | NOFO Section VII.B.1.a.(4) | |

| | |
|----|--|
| | Describe in the field below how your CoC notified the public: |
| 1. | that your CoC's local competition was open and accepting project applications; |
| 2. | that your CoC will consider project applications from organizations that have not previously received CoC Program funding; |
| 3. | about how project applicants must submit their project applications; |
| 4. | about how your CoC would determine which project applications it would submit to HUD for funding; and |
| 5. | how your CoC effectively communicated with individuals with disabilities, including making information accessible in electronic formats. |

(limit 2,000 characters)

1. Our CoC's local competition notice was distributed community-wide to the Homeless Services Coalition via the email distribution list and was posted to the public on our Delaware County Homeless Service's website and the Delaware County Website. The two websites were public and open to all interested parties.
2. The new project Request for Proposals was directed toward projects who have not previously applied; the notice included the language "additional consideration will be given to agencies who have not previously received CoC funding". The notice of available funding and request for proposals was issued to the HSC on 10/4/2021. This distribution list includes approximately 200 persons from non-profits, local government and community organizations.
3. The notice of available funds and request for proposals included direction to submit new project proposals through Alchemer, an online survey/application platform. Direction on how to submit new project proposals was posted on the Homeless Services website as well as the County website.
4. A standardized scoring tool was developed to ensure consistency in the scoring and selection of new projects. A non-conflicted group of persons, who do not receive CoC funding, was created from the Governing Board for the purpose of funding decisions such as reviewing new applications and project ranking.
5. Public notification of the availability of funding was posted in electronic format on the delcohsa.org and delcohomelesssservices.org.

(limit 2,000 characters)

1. The Delaware County Office of Housing and Community Development (OHCD) is the only HUD entitlement jurisdiction in the CoC that is a recipient of ESG funds. OHCD is a Homeless Services Coalition (HSC) founder, serves on the GB, the CoC Advisory Team (CoCAT) and other HSC committees. Adult and Family Services (AFS), the HMIS lead and Collaborative Applicant, has a long-standing relationship with OHCD and meets bi-weekly to discuss all aspects of homeless services planning including ESG funded activities. At least annually, OHCD consults with the GB and the HSC regarding the allocation of ESG funds. The proposed use of ESG-CV funds were discussed at multiple CoCAT meetings. ESG-CV funds were targeted to the priorities identified by the CoC.
2. The CoCAT, includes staff from OHCD and AFS, evaluates the performance of ESG Program sub-recipients at CoCAT meetings. OHCD is responsible for reporting to HUD both ESG and CDBG accomplishments including the performance of our homeless service provider sub-recipients.
3. HIC, PIT, Performance Measures are shared with the HSC distribution list that includes persons in CP Jurisdictions.
4. The CoC HMIS provides data for all reports which OHCD uses to review performance and evaluate programs. This includes the PIT, HIC, Performance Measures and CAPER data. OHCD monitors ESG programs and consults with the CoCAT on findings, concerns and improvement of project performance. The CoC provides OHCD with all info regarding the homeless population, system gaps and priorities that are then incorporated into the CP including HIC and PIT data. The CP homeless strategies were developed in conjunction with the CoC GB, the HSC and the CoCAT and thus are aligned with the CoC Collaborative Plan to End Homelessness.

1. The CoC collaborates with the Office of Early Intervention (OEI) and has implemented a procedure to capture homeless children under the age of 3 and refer to OEI for an EI evaluation. OEI provides evidence-based supports and services to infants/toddlers and their families when children are experiencing a developmental delay or have a diagnosis that results in a developmental delay.

2. The CoC also has a partnership agreement with the Early Learning Resource Center (ELRC) that implements subsidized childcare programs under a homeless preference. The ELRC provides financial assistance to qualified families, caretakers, guardians or foster parents for childcare for their children from birth up to 13 years of age. A CoC provider has an agreement with the Delaware County Intermediate Unit (DCIU) for Head Start and Home Start to prioritize homeless children for enrollment through a homeless preference when there are classroom openings.

3 & 4. The CoC has a data sharing agreement and collaborates with the PA Department of Education's Region 8 Site Coordinator (R8-SC) for the Children and Youth Experiencing Homelessness Program. The R8-SC is required by the State Plan to inform school districts (SDs) of their responsibility to homeless children/youth to provide assurances that homeless students have equal access to education. The R8-SC coordinates the local network of SD homeless liaisons, is a voting member of the CoC Governing Board and attends quarterly HSC meetings. The R8-SC also provides trainings at the HSC meetings.

5 & 6. The HSC maintains a distribution list that includes all the SD homeless liaisons in the County and so they are made aware of all CoC happenings and often attend HSC meetings. While there is no formal partnership with the school districts, they are aware of how our CoC works and the homeless liaisons contact us when there is a homeless youth in need so that we can brainstorm

and work towards a resolution of their current issue.

| 1C-4a. | CoC Collaboration Related to Children and Youth–Educational Services–Informing Individuals and Families Experiencing Homelessness about Eligibility. | |
| | NOFO Section VII.B.1.d. | |

Describe in the field below written policies and procedures your CoC adopted to inform individuals and families who become homeless of their eligibility for educational services.

(limit 2,000 characters)

The CoC Education Act for Homeless Children Policy was adopted in October of 2014 and updated in January of 2020. The Policy states that COC Homeless Services Coalition (HSC) providers will publicly display the Educational Rights posters at their organizations and will distribute the summary of rights for homeless children to all families upon intake into the CoC. The policy includes the role of Coordinated Entry and the distribution of an educational pamphlet. The Policy states that CoC Coordinated Entry staff will complete an initial assessment of the educational needs of children utilizing the Homeless Management Information System (HMIS) and then inform the clients of their rights to receive education. CE staff provides the pamphlet to the Head of Household and reviews the content. The CoC Case Manager (CM) assesses all homeless children entering the CoC to ensure children are enrolled in school or EI programs (Head Start). The right to remain in their home school district is explained and transportation is arranged. The CM works collaboratively with parents, psychologists, early child education programs and schools to ensure the needs of the children are being met. Children under the age of 3 will be evaluated by the by the Office of Early Intervention or their designee. Children 3 – 5 will be evaluated by the Delaware County Intermediate Unit or their designee. The coordinated assessment system provides an opportunity to ensure that all children coming into Delaware County's CoC have up-to-date developmental and behavioral screenings. In addition, the CoC provides posters, pamphlets and educational materials to providers to distribute to families.

| 1. | Project staff that addresses safety and best practices (e.g., trauma-informed, victim-centered) on safety and planning protocols in serving survivors of domestic violence and indicate the frequency of the training in your response (e.g., monthly, semi-annually); and |
| 2. | Coordinated Entry staff that addresses safety and best practices (e.g., trauma informed care) on safety and planning protocols in serving survivors of domestic violence and indicate the frequency of the training in your response (e.g., monthly, semi-annually). |

(limit 2,000 characters)

1. CoC coordinates with the Domestic Abuse Project(DAP) to provide annual training to the HSC. DAP staff present information to all levels of staff CE, CM and management on March 17, 2021. Discussion includes the victim-centered safety planning that is very necessary for the dv survivor. Staff are instructed to discuss with dv survivors how to keep their location confidential, how to file for a protection from abuse order when they are ready. Staff safety, both physical and emotional is also discussed. Best practices include the most appropriate approach when working with all persons, since it is not always evident who might be a dv survivor. The CoC regularly shares trauma-informed training opportunity information to HSC members.

2. CE staff are encouraged to participate in trauma-informed and motivational interview trainings. Safety planning is an important aspect of CE. CE staff inquire about the DV survivors safety and offer shelter according to the need. DV survivors are encouraged to not contact friends and family members that may share their location with the abuser. CE inquires if the abuser is in prison, if the abuser is not in prison, the person is asked if they would prefer to not have their name entered into the system and if the emergency shelter room should be listed with a pseudonym. They are provided DAP's contact information for more intense DV resources. Our CE could be strengthened by the addition of a DV CE program to be part of the initial engagement with persons leaving a dv situation. Subsequently, DAP submitted an application for a new project through the DV Bonus to enhance safety planning within a CE context.

| 1C-5a. | Addressing Needs of Domestic Violence, Dating Violence, Sexual Assault, and Stalking Survivors--Using De-identified Aggregate Data. | |
| | NOFO Section VII.B.1.e. | |

Describe in the field below how your CoC uses de-identified aggregate data from a comparable database to assess the special needs related to domestic violence, dating violence, sexual assault, and stalking survivors.

(limit 2,000 characters)

The Domestic Abuse Project(DAP) provides de-identified data to Adult and Family Services monthly as part of their contract requirements. In addition, DAP provides de-identified data for the PIT. The CoC previously utilized this data to identify the need for application for the DAP RRH program funded in 2019 and the DV CE application in 2021. DAP utilizes the Efforts to Outcome (ETO) Information Management System and Empower Data Base. ETO collects de-identified data (using numbers) to collect PPI on persons served in the safe house, persons who access their legal services (Protection orders); hotline calls; DV RRH Program and relocation assistance programs. DAP provides an annual summary report on all services (client access to hotline, counseling, etc) provided and this report is compared to prior year reports to study changes in numbers served and trends. The Collaborative Applicant, via a contractual agreement for funding, requires DAP to submit monthly census data for the safe house which includes the universal and program level required data fields. This DAP data is de-identified by using code numbers and only DAP knows the real ID of the persons. DAP provides data for the PIT count each year. The CoC continues to promote and build a data driven system and has enhanced data evaluation for victim service providers. The CoC analyzed Safe House exit destinations in an effort to measure positive housing outcomes. The CoC tracks annual calls into the DAP hotline and requests for emergency housing annually gauge the incidence of DV in the CoC. Data is used to identify emerging trends, housing and service needs, system gaps so that the CoC can strategically target resources. Examples include: the number of DV survivors accessing CE; rate of ES admissions; the exit destinations from ES; the numbers of survivors with disabilities; survivors within priority populations such as chronic, veterans and/or TAY.

| 1C-5b. | Addressing Needs of Domestic Violence, Dating Violence, Sexual Assault, and Stalking Survivors—Coordinated Assessment—Safety, Planning, and Confidentiality Protocols. | |
| | NOFO Section VII.B.1.e. | |

Describe in the field below how your CoC's coordinated entry system protocols incorporate trauma-informed, victim-centered approaches while maximizing client choice for housing and services that:

| | |
|----|----------------------------------|
| 1. | prioritize safety; |
| 2. | use emergency transfer plan; and |
| 3. | ensure confidentiality. |

(limit 2,000 characters)

1. DAP currently conducts non CoC funded CE. Additionally, Community Action Agency of Delaware County (CAADC) conducts CE. As soon as DV is identified, DAP is notified for shelter services. If nothing is available, the dv survivors safety is prioritized and mainstream resources such as shelter are offered. DV survivors are referred to DAP for support services such as additional safety planning and legal services. Once sheltered, CAADC and DAP collaborate to provide cm, shelter, support services and housing opportunities. All CoC resources are available to DV survivors.

2. The CoC has an Emergency Transfer Plan signed March 29, 2019, and each HUD participating housing program created, signed and submitted their Emergency Transfer Plan to the CoC. Each housing partner provides annual training to their staff and ensure that in the event a participant is the victim of dv, the participant's safety and housing are protected.

(limit 2,000 characters)

The CoC has very a strong relationship with the two PHA's located in the geographic area. The DCHA has been a CoC partner since 1994 when they were awarded the first S+C program in the County. CoC have partnered with DCHA and CHA the FUP, FYI, Mainstream and EHV vouchers. There are

MOU's in place for the EHV, FYI and FUP vouchers. DCHA continues to partner with the CoC and is the CoC grantee for two additional PSH programs. MOU's are in place with the additional two PSH grants for the County to assist in obtaining in kind match from the County contracted Managed Care Organization.

DCHA's Administrative Plan includes a "move on" strategy to graduate households from PSH to HCV who no longer need such a high level of supportive services. DCHA has committed up to 15 graduate vouchers per year. DCHA also has an admission preference for Mainstream non-elderly persons with disabilities transitioning out of institutional and other segregate settings for persons at risk of institutionalization, homeless or at risk of homelessness. The CHA Administrative Plan establishes a local set aside to support local homeless service providers in obtaining permanent housing for their clients. One voucher is set aside for every seventh turnover in the tenant-based voucher program. When vouchers become available the CoC Lead agency submits homeless applications directly to CHA for final eligibility determinations. Local service providers are responsible for case management and supportive services to ensure successful tenancies.

Coordination within the CoC with the Veterans Administration and DCHA enables Delaware County residents to access VASH vouchers to best serve our veterans.

Our CoC also coordinated with DCHA to utilize 46 EHV. A MOU was established between DAP, COC and DCHA to ensure all parties were aware of their roles in the assignment and execution of the vouchers.

1. The CoC has coordinated and supported the application of Mainstream vouchers with the DCHA. In addition, the CoC supported and assisted in the application process with DCHA for Family Unification vouchers. In addition, the CoC applied jointly with CHA for mainstream vouchers.

2. In conjunction with DCHA, we were awarded 45 Mainstream vouchers for homeless or at risk of homeless disabled persons as well as 42 FUP vouchers, 30 vouchers for homeless or at risk of homeless families and 12 youth aging out of foster care. CHA was awarded 25 Mainstream Vouchers for homeless or at risk of homelessness disabled head of household.

3. These housing opportunities provided 112 households stable permanent housing. FUP vouchers reduced out of home placement by housing twenty-eight housing insecure families. Five youth avoided homelessness upon discharge from foster care. Mainstream vouchers enabled the CoC to utilize the "Move On" strategy by graduating fourteen households, increasing turnover in PSH units allowing for system flow and reducing chronic homelessness.

(limit 2,000 characters)

Our CoC monitors to ensure that projects operate on a Housing First model from the initial housing assignment. All assignments into housing programs are made through our Permanent Housing Clearing House (PHC). Once the assignment is received by a housing provider, they are expected to accept the

referral within 48 hours and complete an intake with the client within seven (7) days. A program cannot deny a person due to their mental health or drug and alcohol concerns. If they attempt to deny housing to a client, the CoC has put a review procedure in place. The provider must notify Adult and Family Services (AFS) within 48 hours of the denial, and state the reason that they feel they cannot accept the client into their program. Then the provider must contact the client within 24 hours to schedule a meeting to discuss the concerns. This meeting needs to include the provider, a representative from AFS, the client and if the client has another case manager, they are welcome to attend as well. The goal of this meeting is to determine what extra supports need to be put in place to ensure the client is able to be successful in the program. The CoC also automatically assigns a housing locator to everyone who is in a housing program. There is no expectation that the client needs to accept treatment to be enrolled in the housing program. However, the goal is that the program will engage the client, and eventually the client will accept services or at least work on harm reduction with the client.

1 & 3. The Delaware County CoC Outreach Team (OT) operates three shifts with two staff each. The shifts are 8 am-4 pm, 4 pm-12 am and 12 am-8 am, 5 days a week. The OT also has a 24 Hour on-call phone which has been distributed throughout our CoC. The OT has created working relationships with SEPTA Police, Philadelphia (PHL) Airport officials, Township Police Officers, and Community Stakeholders who know or have relationships with our unsheltered homeless population to assist with the identification of individuals that may be unknown or hard to engage. The OT meets with the stakeholders to identify individuals that are vulnerable and possibly resistant to engagement. This has been an asset in ensuring that all persons experiencing unsheltered homelessness are identified and engaged as quickly as possible. Each engaged person is entered in our HMIS system under outreach to assist with creating a history and timeline. Persons not willing to engage are documented for future follow-up. The OT provides food and transportation to a shelter (or treatment center for additional support). The OT provides available services to

participants via brochures and verbally. Services are open to all eligible persons regardless of race, color, national origin, religion, sex, gender identity, sexual orientation, age, familial status or disability.

2 & 4. The OT covers 100% of the CoC's geographic area including the PHL Airport which encompasses part of Delaware County. Each shift focuses heavily where our most vulnerable and difficult to engage homeless population congregate. Our OT is staffed with experienced staff with knowledge of mental health, D&A, and other disabilities. Persons willing to engage with the OT are advised of resources to assist with obtaining and maintaining housing. The OT continues to engage persons who are not initially interested in services for possible future acceptance of services. All homeless persons are provided resources, resources are also available in Spanish.

1. Information on mainstream resources is shared through an email distribution list and the Delaware County Homeless Website. Representatives from shelters, Rapid Re Housing, Transitional Housing and Permanent Housing receive up to date job postings and provide them to the program participants. Recently, job opportunities provided by Careerlink and EDSI have also been added to a section on the website; postings are removed after scheduled job fair events have occurred. Programs such as WIC, the Family Center and SSVF have also been added. A SNAPs coordinator is available in person and by phone to assist with enrollment.
2. Information on mainstream resources is shared at quarterly HSC meetings and updated through email distribution lists. New participants to HSC are asked to share the services their agency provides to further encourage collaboration and coordination. They are further invited to provide any handouts that can be provided to CM and to persons at Coordinated Entry. Since the inception of the website, this information is available anytime and is updated as available.
3. Persons identified at Coordinated Entry as lacking adequate healthcare are encouraged to apply for medical assistance; persons in shelter or housing programs are assisted with enrollment by their CM as part of their service planning goals.
4. Participants are encouraged to secure treatment for all untreated medical, mental health and drug and alcohol needs. CMs are available to assist with navigating these services through assisting with phone calls, advocacy and transportation.

1. This CoC has a decentralized Coordinated Entry (CE) system. We have two sites where anyone needing assistance homeless or non homeless can walk in and complete a CE. The CoC has a site at Salvation Army in Chester and Community Action Agency in Boothwyn. We also have Horizon House that completes mobile CE's. Horizon House previously completed CE's at MHP and the Upper Darby area. Domestic Abuse Project (DAP) also completes a CE process on persons entering directly into their system. The CE process is not a CoC funded activity; DAP has applied for DV CE through the DV Bonus this competition.

2. We also have a CE team that is mobile and can complete an assessment anywhere in the CoC. Horizon House conducts the mobile assessments. The CoC distributes survival guides and business size cards with Coordinated Entry information to Municipalities, school districts, Libraries, Food Pantries, and Congressional Offices.

3. Our Coordinated Entry has a vulnerability scoring tool that indicates the person's vulnerability and the individuals with the most need. This tool scores a person on a vulnerability basis. The participant completes a questionnaire which is what is entered into the CE. Persons will get a higher score for reasons such as: they have been homeless previously, they do not have benefits, they have CYS involvement, they have or need mental health or drug and alcohol treatment. A copy of the scoring tool is attached to the CE scoring tool in this application.

4. Community Action Agency also provides diversion, prevention, rental assistance, security deposits, and utility assistance to prevent homelessness. Community Action Agency staff assist in landlord negotiations, as well as negotiations with PECO and AQUA. A payment commitment letter is often provided by CAADC to resolve the issue immediately until the check is issued. If necessary, a shelter referral is made from any of these CE sites.

| | NOFO Section VII.B.1.o. | |

Describe in the field below the steps your CoC and homeless providers have taken to improve racial equity in the provision and outcomes of assistance beyond just those areas identified in the racial disparity assessment.

(limit 2,000 characters)

Steps taken to improve racial equity in the provision and outcome of assistance beyond just those areas identified in the racial disparity assessment include providers training their staff on issues of racial equity according to their agency training plans. Curricula for such training is varied and designed to the particular needs of the agency. Further, curricula is designed based on community assessment results done through County government and/or independent sources of information. Such training methods include: online webinars, online courses, lectures, attendance at training events, study of reference materials and research from both governmental and private agencies. As for the CoC itself, training staff on issues of racial equity, the CoC has an e-mail distribution list of over 200 people who have participated or expressed an interest in homeless services in the County. When the CoC is made aware of any training or events on the topic, the information is forwarded through a e-mail distribution list which is often re-forwarded to others which informs literally hundreds of people of the training opportunity. These training opportunities are often offered free of charge or have a minimal cost. The CoC also holds quarterly meetings through the Delaware County Homeless Services Coalition (HSC) which is another venue to offer Countywide trainings on a variety of subject matter. Past HSC meetings have also included presentations of data research regarding racial inequities. To address these findings of racial inequities, recommendations were suggested to providers on how to address these inequities based on the data presented.

1. The unsheltered population was moved into a depopulated shelter or program funded motel for temporary emergency shelter. Street outreach was increased to identify unsheltered persons. As part of the outreach, masks were distributed to all homeless persons. Identified persons received a brief CE and were transported to motel in vans spacing persons by positioning them diagonally in the vehicle; no more than two persons could be transported at any given time. At our peak, we doubled our normal population in motel from 20 to 40 households daily. Street outreach was coordinated with Emergency Management Services to vaccinate the street homeless population.

2. Congregate shelter capacity was reduced by moving persons into singularly occupied motel rooms to allow for safe distancing. As COVID 19 numbers began to decrease, participants returned to reduced occupancy and spaced shelter beds, unbunked beds with plastic curtains, sleeping head to foot to provide safe distancing. Temperature and wellness checks were instituted into daily activity, onsite vaccinations were offered, literature was provided for display in the congregate shelters. ESG funds were utilized to perform regular site cleanings and to provide equipment such as PPEs (masks, gloves), cleaning supplies and where needed, cots to raise persons off the floor for sleeping. Due to the increased need, additional shelter space continued to be funded at nearby motels. People were funneled into shelters as space became available.

3. The CoC TH-RRH created policy that instituted an initial quarantine time, testing for all new applicants and face masks. Social distancing was easily accomplished as participants have their own rooms. Mealtimes were staggered. As changes occurred with quarantining times, updated literature was

shared across the CoC through the HSC email distribution list. All sites were regularly urged to engage participants in getting the vaccine to prevent further spread of the disease.

| 1D-2. | Improving Readiness for Future Public Health Emergencies. | |
| | NOFO Section VII.B.1.q. | |

Describe in the field below how your CoC improved readiness for future public health emergencies.

(limit 2,000 characters)

The Delaware County CoC coordinated with the contracted local health department to develop an Infectious Disease policy and procedure to be implemented at the Delaware County shelters, in collaboration with the Delaware County CoC. This policy served as a uniform guide to effectively prepare the shelter staff and homeless individuals on the steps to take to provide the best response in a public health emergency. The Delaware County CoC also coordinated with local healthcare providers to provide resources to the homeless services providers including shelters and street outreach team that continue to provide services within the Delaware County CoC.

The CoC will have improved readiness for future public health emergencies through a newly created Delaware County Health Department which is expected to be in operation January 2022. Through this department the CoC will have accessibility to receive education instruction on how to increase its readiness of any future public health emergencies.

Also expected spring 2022, a new initiative funded outside the CoC will provide medical services in the five shelters as well as provide additional support to outreach activities. DOCGO has been contracted to provide onsite medical assessments to all new participants for primary care as well as behavioral and mental health needs. DOCGO will provide care directly and work with community resources to provide holistic care. In the event of another public health emergency, DOCGO is equipped to do onsite testing, the administration of vaccinations and education. Additionally, DOCGO will provide health education on topics such as nutrition, stress reduction, HIV prevention, oral health, reproductive health, aging, disease prevent and the importance of physical activity to reduce the likelihood of medical conditions familiar to our homeless population.

These new and strengthened partnerships will allow the CoC to respond more effectively to public health emergencies.

| 1D-3. | CoC Coordination to Distribute ESG Cares Act (ESG-CV) Funds. | |
| | NOFO Section VII.B.1.q | |

Describe in the field below how your CoC coordinated with ESG-CV recipients to distribute funds to address:

| | |
|----|--------------------------|
| 1. | safety measures; |
| 2. | housing assistance; |
| 3. | eviction prevention; |
| 4. | healthcare supplies; and |

| | |
|----|--------------------|
| 5. | sanitary supplies. |
|----|--------------------|

(limit 2,000 characters)

The CoC Lead Agency coordinated with and provided input to the ESG-CV recipient regarding gaps and the best activities to target ESG-CV funds. Both the CoC Lead Agency and the ESG-CV recipient are part of the CoCAT that meets every other week to ensure coordination of activities and strategies.

1. Safety measures were established via policies and procedures. This included temperature checks, wearing of masks, maintaining 6-foot distances and the depopulation of congregate shelters through the provision of motel stays. All clients were encouraged but not required to get tested for COVID-19.

Vaccinations were provided onsite but not required.

2. ESG-CV funds have been allocated to the development of a day center café/shelter for those homeless on the street. The hope is to provide a safe and sanitary place for the street homeless to go, engage them, connect them to resources and rapidly rehouse them into housing utilizing the Coordinated Entry and the Permanent Housing Clearing House process. The Day Center/Shelter was a priority for the CoC due to the significant street homeless population in the CoC geographic area.

3. ESG-CV funds are also used for homeless prevention for people impacted by COVID-19. Many have lost jobs or fallen ill and fell behind in paying their rent. We have been able to pay arrears for many households which have enabled them to remain in their housing. The head of household must enter the CE process to determine eligibility for prevention resources. \$379,000 of ESG-CV funds were allocated to homeless prevention activities. It is anticipated that we will serve 100 households with these funds.

4. & 5. ESG-CV funds have been used to provide PPE such as gloves, sanitizer and masks to the shelters. Additional items provided include plexiglass and other dividers, cleaning supplies, thermometers, deep cleanings at the shelters. In addition, cots were provided to raise persons off the floor for sleeping.

(limit 2,000 characters)

Representatives from the CoCAT participated in regular calls with representatives from the contracted local health department as well as participated in the statewide sheltering task force calls.

1. Best practice information from the contracted local health department and statewide sheltering task force calls regarding decreasing the spread of COVID-19, this information was regularly shared with the outreach team, congregate shelters and transitional housing programs. Representatives from different statewide communities were able to communicate their protocols, recommendations or suggestions to help mitigate the spread of COVID-19. Coordination with local hospitals was established to ensure shelter resources were available. Street outreach was coordinated with Emergency Management Services to vaccinate the street homeless population. Vaccine education was

provided at the shelters and through the outreach team.

2.The Delaware County CoC coordinated with the contracted local health department to develop an Infectious Disease Policy and Procedure to be implemented at the Delaware County CoC shelters in collaboration with the Delaware County CoC. Information from the contracted local health department sparked changes in the policies and procedures such as safety measures including social distancing, shelter depopulation, mask mandates, and daily health screenings.

| 1D-5. | Communicating Information to Homeless Service Providers. | |
| | NOFO Section VII.B.1.q. | |

Describe in the field below how your CoC communicated information to homeless service providers during the COVID-19 pandemic on:

| | |
|----|----------------------------------|
| 1. | safety measures; |
| 2. | changing local restrictions; and |
| 3. | vaccine implementation. |

(limit 2,000 characters)

At the start of the pandemic, an email distribution list of shelters and direct service providers was created to distribute information as it was updated.

1.The CoC used guidance from the CDC to create a COVID policy. The policy was distributed at our Governing Board Meeting. All COVID Information, updated policies, and general information were disseminated by the CoC via email for posting in common homeless service areas.

2. Additionally, a weekly call was established with the shelters and outreach team to discuss trends and updated approaches to address COVID-19. Providers were encouraged to contact the contracted local health department with any unresolved concerns. As the state changed its guidance about masking, and as additional populations became eligible for vaccines the CoC worked with Shelters and the Outreach Team to establish updated protocol. Masks have remained but for most shelters, occupancy has returned with a cleaning protocol in place.

3. Information regarding availability of vaccinations within the community was regularly shared with providers. Also, a local paramedic outreach team coordinated with our Emergency Services to provide vaccinations to our street homeless. Interested persons could present at the ambulance stationed near where the street homeless congregate, and vaccinations would be distributed. Participants were asked to return on a suggested date for the second dose. Initially the Johnson and Johnson vaccine was earmarked for the street homeless, however, it had been removed from use due to health concerns. Shelters and transitional housing programs were notified of available vaccinations. Staff gathered a list interested persons. Specific distribution was conducted on site at the shelters by Emergency Services staff. CoC Transitional Housing participants also permitted to participate in the distribution. CAADC coordinated with a local pharmacy to access vaccinations for anyone who was interested which included staff.

| 1D-6. | Identifying Eligible Persons Experiencing Homelessness for COVID-19 Vaccination. | |
|-------|--|--|

NOFO Section VII.B.1.q.

Describe in the field below how your CoC identified eligible individuals and families experiencing homelessness for COVID-19 vaccination based on local protocol.

(limit 2,000 characters)

The CoC is identifying individuals and families experiencing homelessness for COVID-19 vaccination by implementing specific COVID-19 related questions within the Coordinated Entry (CE) assessment. Among those questions asked are if a person has received the vaccination, has had COVID-19, and other COVID-19 related questions. Positive and negative responses are recorded within our HMIS and results are available to program staff which are used in coordination with local health agencies to determine when and where an assessed person or family members can receive the COVID vaccination. Vaccination distribution is now widely available in the community offering a variety of locations and times to receive the initial vaccine as well as the follow-up booster. Multiple opportunities are taken by programs to encourage individuals to get vaccinated through direct conversation, posters and discussion groups when appropriate. Additionally, a local paramedic outreach team coordinated with our Emergency Services to provide vaccinations to our street homeless during their normal street outreach. Interested persons could present at the ambulance stationed near where the street homeless congregate, and vaccinations would be distributed. Participants were instructed to return on a suggested date if they received the two-shot vaccination. Initially, the Johnson and Johnson vaccine was earmarked for the street homeless, however, it had been removed from use due to health concerns. Shelters and transitional housing programs were notified of available vaccinations. Staff were asked to gather a count of interested persons. Specific distribution was conducted on-site at the shelters by Emergency Services staff. CoC Transitional Housing participants were also permitted to participate in the distribution. CAADC coordinated with a local pharmacy to access vaccinations for anyone who was interested, staff as well as participants.

1D-7. Addressing Possible Increases in Domestic Violence.

NOFO Section VII.B.1.e.

Describe in the field below how your CoC addressed possible increases in domestic violence calls for assistance due to requirements to stay at home, increased unemployment, etc. during the COVID-19 pandemic.

(limit 2,000 characters)

The Homeless Services Coalition (HSC) hosted a training opportunity with Joy Medori, Director of Delaware County's Anti-Trafficking Group, on June 16, 2021 provided an update on how domestic violence was affected by the pandemic. She provided information of the increased number of child abuse cases, the increased severity of child and domestic violence, the creative nature of sexual predators. She provided valuable information to coordinated entry operators on what to look for, and how to approach, when interviewing a person believed to be a domestic violence victim. Additionally, she encouraged shelters, when possible, to provide extra support with the care of children, to alleviate stress due to quarantining. She further noted to encourage participants to seek

outside treatment for the increased occurrence of mental health and drug and alcohol needs.

Our current CE assessment includes questions to address: if a person's housing crisis is due to domestic violence, when was the last occurrence, if a person wants services geared to domestic violence survivors, if a person is currently fleeing and if a person has a current PFA. These questions help to determine if the person is a dv survivor and eligible for additional services. DAP, the County's domestic violence provider, to establish a safer environment regarding COVID 19, moved their shelter services to motel and coordinated with community services to ensure households had adequate food.

| 1D-8. | Adjusting Centralized or Coordinated Entry System. | |
| | NOFO Section VII.B.1.n. | |

Describe in the field below how your CoC adjusted its coordinated entry system to account for rapid changes related to the onset and continuation of the COVID-19 pandemic.

(limit 2,000 characters)

We followed guidelines from our contracted health department to prioritize placement in motels for high-risk persons. Our congregate shelters (MHP, Life Center, and Salvation Army) were placed in motel rooms until our CoC could figure out how to keep participants safe in our shelters. All shelters had to reduce their capacity to socially distance and the providers were provided with PPE's. Once all adjustments had been made to the shelters the participants were moved back to their perspective residence. There continue to be precautions in place. If a participant tests positive or has an exposure they are quickly moved back to the motel. We had our Emergency Services come to each shelter and offer to vaccinate the shelter guests as well as the staff. The shelter case managers were continually providing precautionary information on COVID to all the guests. The Emergency Services also went to our unsheltered population and provided vaccinations to those that were interested. Education on COVID was also provided to that population as well. Our HMIS Team meets weekly to assess the system and make changes as needed. The HMIS system was quickly adjusted to address COVID-19. A COVID-19 screening assessment was added into the CE section that was applied to all clients accessing CE. Another screen was created to include data concerning vaccine information. Staff had the ability to enter all the vaccination information on the client as well as upload a copy of their vaccination card into the document management portion of HMIS. Individuals were screened daily and this information was also entered into the system. Each client has an icon on their intake screen that shows if and when they tested COVID-19 positive, as well as if they have received the vaccine. Screening is supposed to be completed at intake as the person moves throughout the CoC and enters different shelters and housing programs.

Select yes or no in the chart below to indicate how your CoC ranked and selected project applications during your local competition:

| | | |
|----|--|-----|
| 1. | Established total points available for each project application type. | Yes |
| 2. | At least 33 percent of the total points were based on objective criteria for the project application (e.g., cost effectiveness, timely draws, utilization rate, match, leverage), performance data, type of population served (e.g., DV, youth, Veterans, chronic homelessness), or type of housing proposed (e.g., PSH, RRH). | Yes |
| 3. | At least 20 percent of the total points were based on system performance criteria for the project application (e.g., exits to permanent housing destinations, retention of permanent housing, length of time homeless, returns to homelessness). | Yes |
| 4. | Used data from a comparable database to score projects submitted by victim service providers. | Yes |
| 5. | Used objective criteria to evaluate how projects submitted by victim service providers improved safety for the population they serve. | Yes |
| 6. | Used a specific method for evaluating projects based on the CoC's analysis of rapid returns to permanent housing. | Yes |

| | | |
|--------|--|--|
| 1E-2a. | Project Review and Ranking Process–Addressing Severity of Needs and Vulnerabilities. | |
|--------|--|--|

NOFO Section VII.B.2.d.

Describe in the field below how your CoC reviewed, scored, and selected projects based on:

| | |
|----|--|
| 1. | the specific severity of needs and vulnerabilities your CoC considered when ranking and selecting projects; and |
| 2. | considerations your CoC gave to projects that provide housing and services to the hardest to serve populations that could result in lower performance levels but are projects your CoC needs in its geographic area. |

(limit 2,000 characters)

(1) The specific severity of needs and vulnerabilities our CoC considers are detailed in our scorecard with the asking of the following questions: "Is the program serving any of these subpopulations?" This scorecard question provides an opportunity for the provider to select possible choices of the subpopulations in particular that they are serving. Those with: (A) severe behavioral health issues; (B) those fleeing domestic abuse; (C) LGBTQ+; (D) unaccompanied youth; (E) families with children; (F) people with disabilities; (G) people with a history of drug abuse; (H) those with a history of alcohol abuse; (I) criminal history; (J) veterans; (K) HIV/AIDS.

(2) This second question builds off the first question which asks what subpopulations they are serving. The considerations our CoC gave to projects that provide housing and services to the hardest to serve populations included the opportunity to earn points based upon the agency providing training in any of the following subpopulations: (A) those with severe behavioral health issues; (B) fleeing DV abuse; (C) LGBTQ+; (D) unaccompanied youth; (E) families with children; (F) people with disabilities; (G) history of drug abuse; (H) history of alcohol abuse; (I) criminal history; (J) veterans; (K) HIV/AIDS. Additional points can be earned by responding to the question: "Describe how the agency is particularly addressing the needs of those with:" (A) severe behavioral health issues; (B) fleeing DV abuse; (C) LGBTQ+; (D) unaccompanied youth; (E) families with children; (F) people with disabilities; (G) history of drug abuse; (H) history of alcohol abuse; (I) criminal history; (J) veterans; (K) HIV/AIDS.

| | | |
|-------|--|--|
| 1E-3. | Promoting Racial Equity in the Local Review and Ranking Process. | |
| | NOFO Section VII.B.2.e. | |

Describe in the field below how your CoC:

| | |
|----|--|
| 1. | obtained input and included persons of different races, particularly those over-represented in the local homelessness population, when determining the rating factors used to review project applications; |
| 2. | included persons of different races, particularly those over-represented in the local homelessness population, in the review, selection, and ranking process; |
| 3. | rated and ranked projects based on the degree to which their program participants mirror the homeless population demographics (e.g., considers how a project promotes racial equity where individuals and families of different races are over-represented). |

(limit 2,000 characters)

(1) Obtaining input from persons of different races, particularly of those over represented in the local homeless population when determining factors used to review project applications, is inherent in the rating process. The Governing Board (GB) has historically included members from various races within the. Within the GB is a sub-committee called the Non-conflicted group. A recent meeting of this group had a make up of 60% black representatives which is

near the percentage of our homeless population.

(2) Of note is one GB member, Jordan Casey, Director, Housing Opportunities Program for Equity of The Foundation for Delaware County. This foundation is a leader in the community and touches many lives in the County, of whom many have benefited from the direct work and efforts of Mr. Casey. Mr. Casey is also a participant in our Non-conflicted group and provides a valuable perspective from both a provider of services and as part of the black community.

(3) GB members offer input and recommendations during GB meetings to promote and discuss racial equity concerns and questions as needed. As the GB is made up of multiple races, the cross section of people offers varied and valuable perspectives concerning racial equity issues. One area regarding the promotion of racial equity was the distribution of housing vouchers. COC data revealed that whites received majority of housing vouchers while black people less so even though black people make up for a higher percentage of homeless people. Upon recently receiving 30+ housing vouchers, an effort was made and achieved to make the distribution percentages mirror the homeless population racial make-up, that is a higher percentage of black people received vouchers than white people.

| 1E-4. | Reallocation—Reviewing Performance of Existing Projects. We use the response to this question as a factor when determining your CoC's eligibility for bonus funds and for other NOFO criterion below. | |
| | NOFO Section VII.B.2.f. | |

Describe in the field below:

| | |
|----|---|
| 1. | your CoC's reallocation process, including how your CoC determined which projects are candidates for reallocation because they are low performing or less needed; |
| 2. | whether your CoC identified any projects through this process during your local competition this year; |
| 3. | whether your CoC reallocated any low performing or less needed projects during its local competition this year; |
| 4. | why your CoC did not reallocate low performing or less needed projects during its local competition this year, if applicable; and |
| 5. | how your CoC communicated the reallocation process to project applicants. |

(limit 2,000 characters)

1. Current projects are reviewed and considered for reallocation if they consistently are low performing, not cost effective or no longer viewed as a high priority to the CoC.

2. Due to the extreme circumstances with COVID-19, projects were not reallocated due to low performance. COVID 19 affected the ability for one shelter, MHP, to provide services nightly in churches. As a result the shelter temporarily sheltered in place on cots for 15 months. Churches were still not offering space, the township would not let them continue to shelter in place and the shelter ended up closing June 30, 2021. Since the CoC funded program was no longer in operation, the funds for the SSO program were reallocated to better meet the CoC needs.

3. This year we had one project who decided to discontinue the SSO service. We plan to look more closely at low performing projects, provide them a specified time period to raise performance and if at application next year their performance remains low, present them for potential reallocation.

4. Not Applicable

5. The CoC reallocation process was communicated in writing to project applicants prior to the review of the new projects.

| 1. | have a comparable database that collects the same data elements required in the HUD-published 2020 HMIS Data Standards; and |
| 2. | submit de-identified aggregated system performance measures data for each project in the comparable database to your CoC and HMIS lead. |

(limit 2,000 characters)

1. The DV provider uses the Efforts to Outcomes(ETO) Information Management System and Empower DB as comparable databases to collect the same data elements required in the HUD Data Standards.

2. The Collaborative Applicant, via a contractual agreement for funding, requires DAP to submit monthly census data for the safe house which includes the universal and program level required data fields. Domestic Abuse Project (DAP), our DV provider, submits de-identified information for each project, their ES and their RRH program. Additionally, DAP provides de-identified data to the CoC upon request and for the annual PIT count. ETO collects de-identified data (using numbers) to collect PPI on persons served in the safe house, persons who access their legal services (Protection orders); hotline calls; and relocation assistance programs. DAP provides an annual summary report on all services (client access to hotline, counseling, etc) provided and this report is compared to prior year reports to study changes in numbers served and trends. This DAP data is de-identified by using code numbers and only DAP knows the real ID of the persons.

| | Describe in the field below: | |
| 1. | how your CoC determined which risk factors your CoC uses to identify persons becoming homeless for the first time; | |
| 2. | how your CoC addresses individuals and families at risk of becoming homeless; and | |
| 3. | provide the name of the organization or position title that is responsible for overseeing your CoC's strategy to reduce the number of individuals and families experiencing homelessness for the first time or to end homelessness for individuals and families. | |

(limit 2,000 characters)

- 1.HMIS driven data and information from CE staff is analyzed to determine trends in who is first time homeless.
- 2.Beyond connecting households to community supports or mainstream resources, the CoC has implemented strategies to prevent families at risk for the first time:
 - a. Diversion-CE system has built in diversion questions and requests all households provide the names of three support persons where alternative housing arrangements could be negotiated to prevent them from entering Emergency Shelter(ES).
 - b. Financial Support- The CE process connects households with financial assistance (ESG and other eviction prevention funds for first, last and security to relocate) to resolve their housing crisis whenever possible.
 - c. Landlord Mediation and Housing Counseling- For those who are ineligible for financial assistance . These activities include developing repayment plans to keep people housed when arrears are a factor.
 - d. CE Staff Training- The CoC continues to provide resources to the CE staff for a more effective CE experience. In addition, CoCAT is evaluating the continuing changing needs of the homeless population and developing a list of training programs pertinent to meeting the needs presented at CE. The training opportunities would be mandated and offered throughout the year for all staff.
3. The CoCAT is responsible for overseeing this strategy.

1. The CoC continues to strengthen the housing focused practiced through implementation of the following strategies in an effort to reduce the LOTH; previous reallocation of TH programs to create RRH; regular allocation of ESG funding for RRH activities; continuing to promote housing focused case management for ES programs resulting in immediate discharge planning and quicker exits from shelter; continuing to utilize the Permanent Housing Clearinghouse (PHC), a web based prioritization and assignment system, eliminating paper application and quicker program assignment. Housing Navigators play an integral part in locating housing and matching available housing to persons selected for housing programs. To increase landlord participation, the County continues to offer a Landlord Relief Fund to assist with past due rents and damages not covered by another resource, as well as funding to hold units for one month, while the CM navigates the housing quality inspection and any needed repairs.
2. A CoC staff person was tasked to identify and confirm all CH persons to ensure rapid placement into housing.
3. The Adult and Family Services is responsible for overseeing this strategy.

| 1. | emergency shelter, safe havens, transitional housing, and rapid rehousing exit to permanent housing destinations; and |
| 2. | permanent housing projects retain their permanent housing or exit to permanent housing destinations. |

(limit 2,000 characters)

1. Over the years, the CoC has strengthened housing focused practices by implementing the following strategies in an effort to reduce LOT; reallocated TH programs to create RRH; allocated ESG funding for RRH activities; promoted housing focused case management for ES programs resulting in immediate discharge planning and quicker exits from shelter; expanded RRH inventory and reallocated funding to create additional RRH capacity; and created PSH, a web-based housing prioritization and housing assignment system that streamlined housing program admissions and eliminated lengthy housing application processes. A CoC staff person was tasked to identify and confirm all CH persons. ES and RRH CMs continue to express that locating affordable, appropriate housing is a primary cause of long shelter stays. To address this concern, the CoC funded two FTE housing navigators to assist with the housing search. The CoC also developed a landlord relief fund in hopes of attracting more landlords to work with the CoC programs.
2. Regular case management is required to support persons in PH, encourage treatment when applicable and to ensure participants have applied and continue

to update application opportunities for mainstream housing. When needed a Landlord Relief Fund is available to assist provide financial assistance for excessive damage, one month move in costs to hold a unit or new landlord incentive. If a person in PSH or RRH is evicted, the CM is able to assist with locating a new unit and assist with move in costs.

| 1. | how your CoC identifies individuals and families who return to homelessness; |
| 2. | your CoC's strategy to reduce the rate of additional returns to homelessness; and |
| 3. | provide the name of the organization or position title that is responsible for overseeing your CoC's strategy to reduce the rate individuals and persons in families return to homelessness. |

(limit 2,000 characters)

1. The HMIS system identifies returning households at CE Intake. An Intake Questionnaire provides the intake worker the housing history to determine the best next steps for the household.
2. Analysis of SPM detailed data and CE data supported common characteristics among the households who returned to homelessness. The CoC found the households who returned were mainly single adults who exited ES or households who exited RRH and were evicted for non-payment of rent. Successful strategies to prevent homelessness include:
 - a. Initially identify affordable housing units to avoid households needing to relocate after the subsidy has ended.
 - b. Diversion training- CoC ES and RRH CMs have been trained to provide housing-focused services that promote housing stability through education. CMs were previously trained and have been provided the Prepared Renters Education Program, a curriculum that provides the tools to obtain rental housing, maintaining housing and instruction on how to avoid pitfalls that could cause eviction.
 - c. RRH CM utilize a Critical Time Intervention, an evidence-based model, that promotes housing stability to participants for the first nine months in housing.
 - d. At CE, prioritize returning households who present with rental arrears to receive financial assistance.
 - e. When needed, use housing counseling, landlord mediation and Landlord Relief Funds to keep people housed; develop repayment plans where arrears are a factor in impending homelessness.
 - f. Allocate prevention resources (CoC/ESG/State) to fund financial assistance to prevent reentries into homelessness.
 - g. CM conduct post-discharge follow-up contact at 3, 6, 9 and 12 mos. to check on housing stability and to ensure community supports are in place.
3. The Governing Board is responsible for overseeing this strategy to reduce returns to homelessness.

1. The CoC strategy is to maximize economic stability to the highest level possible by encouraging and supporting participants to engage in Careerlink's employment services.
2. Careerlink offers assessment, job placement and limited training dollars. Collaboration with Careerlink provides a monthly calendar of workshops and job preparation opportunities as well as current job opportunities. Educational Data Systems, Inc (EDSI) is also a Homeless Services Coalition (HSC) participant and regularly shares opportunities for persons with criminal histories, often impeding employment opportunities. Community expungement clinic information is shared with participants as the events occur. Information is subsequently provided to the HSC through an email distribution list and the delcophomelesservices.org website for sharing with participants in shelter and housing programs. Additionally, Community Action Agency of Delaware County (CAADC) previously coordinated a pharmacy technician program and currently a medical assistant program to encourage participants to engage in training leading to increased income.

(limit 2,000 characters)

1. The CoC partners with Careerlink to provide employment opportunities with employers. Careerlink provides information regarding employment opportunities that is subsequently shared with shelters and housing programs through email distribution and posting on our delcophomelesservices.org website.
2. CAADC is a provider in our system who is in charge of three of our largest shelters, and three RRH programs; manages both an Employment, Advancement and Retention Network (EARN) and a WorkReady program. Persons in shelter and RRH are invited, and encouraged, as part of their goals to increase income, to participate in these opportunities. Additionally CAADC has sponsored a pharmacy technician program that included an internship and on the job training and is currently sponsoring a medical assistant program to encourage participants to engage in training leading to an increased income.

| 1. | your CoC's strategy to increase non-employment cash income; |
| 2. | your CoC's strategy to increase access to non-employment cash sources; and |
| 3. | provide the organization name or position title that is responsible for overseeing your CoC's strategy to increase non-employment cash income. |

(limit 2,000 characters)

1. The CoC strategy is to maximize economic stability to the highest level possible by increasing all cash income including non-employment cash. To promote increases, CoC providers prioritize connecting people to mainstream cash resources such as; TANF, SSI/SSDI, VA benefits, pensions, child support, Pandemic Unemployment Compensation(PUC), Child Tax Credits, etc. The CoC implemented an HMIS eligibility assessment to determine what sources of non-employment cash income people are receiving, are under application for or should be referred to, and transfers that information in to the HMIS generated immediate needs plan.

2. Coordinated Entry assessments identify households with no or low income and CE specialists conduct initial referrals to County Assistance Offices for cash assistance application.

- requires ES, PSH and RRH CMs to follow-up and refer clients to eligible cash benefits immediately and or check the status of existing pending applications.

- CMs use the PA state COMPASS system to check for TANF eligibility.

- The CoC has a SNAP/Food Stamp Participation Project which assists families with enrollment for the SNAP and to TANF cash assistance.

- Provided information to shelters and housing programs regarding eligibility for PUC and Child Tax Credits and how to apply for these benefits.

- The CoC has 3 Volunteer Income Tax Assistance(VITA) programs to encourage participants to complete their taxes at sites that maximize their returns without exorbitant cost.

3. Adult and Family Services is responsible for implementing this strategy.

(limit 2,000 characters)

1. Data was extracted from our HMIS system for all persons who had received intake, shelter or housing services for the time period 9/1/2020 through 8/31/2021 and indicated they had experienced domestic violence (DV) or they were fleeing DV. The data identified 156 households who indicated DV as a factor in their homelessness. Thirty-two households of the 156 households were identified as being permanently housed in a HUD program. Additionally, non-HMIS data provided by our DV provider was reviewed to find that 36 households received DV shelter services for the same specified time period. Since non-HMIS information is de-identified, it is unclear if there is any duplication of households.

2. HMIS by Coehlo Consulting, Inc. (Cares) provided the HMIS information and Efforts to Outcomes and Empower DB assisted in providing the DV data.

3. The current CE System does not possess the knowledge and resources to address the unique safety and confidentiality needs of domestic violence (DV) and is limited on sheltering resources specifically available to this population. Additionally, as general homeless service agencies, they are not extended the same confidentiality privileges, akin to attorney/client privileges that DV agencies are guaranteed federally by VAWA ensuring the confidentiality and privacy of the DV survivor. The addition of a DV CE program would increase capacity of the CoC to address and support DV survivors; and ensure a trauma-informed approach for DV survivors prioritizing safety and connection to all services within the continuum. A DV CE program would more readily address physical and emotional safety, privacy and confidentiality of all DV survivors accessing CE.

Describe in the field below:

| | |
|----|---|
| 1. | how the current Coordinated Entry is inadequate to address the needs of survivors of domestic violence, dating violence, sexual assault, or stalking; and |
| 2. | how the proposed project addresses inadequacies identified in element 1. above. |

(limit 2,000 characters)

1. Delaware County's current Coordinated Entry (CE) System does not adequately address the unique safety and confidentiality needs of domestic violence (DV) survivors. Many DV victims are homeless due to the abuse they face at home; however, the existing CE system does not have a direct connection to essential DV services and housing opportunities. Regular CE staff do not have the intensive training to identify and address the unique needs of DV survivors. Traditional homeless service agencies are not extended the same confidentiality privileges that DV agencies are guaranteed federally by VAWA. As a result, DV survivors may be at risk of compromised confidentiality and privacy by entering the CE system through a non-dv agency. By housing CE within a DV dedicated agency, DV survivors can receive timely access to CE staff who are highly trained in responding to the needs of DV survivors (including safety planning, lethality assessment, and confidentiality).

2. The CE Specialist will bridge the gap for homeless DV survivors, increase capacity of the existing CE services to address and support DV victims; and ensure a trauma-informed approach for victims prioritizing safety and connection to the continuum. The CE Specialist will coordinate with the regular CE sites to ensure all entrances to service result in the needed supports. DAP's CE program will address physical and emotional safety, privacy and confidentiality of all survivors accessing CE. The CE Specialist will oversee both RRH and CE to ensure streamlined oversight of all of DAP's housing services. The CE Specialist will conduct the CE and create a Housing Stability Plan identifying housing barrier, mainstream resource needs and factors that cause high vulnerability (i.e., disabilities). The CE will ensure safe and confidential intake, confidential data collection emphasizing survivor safety and victim autonomy (using a HMIS comparable database); and provision of trauma-informed, victim centered services.

Housing Choice Voucher Program Administrative Plan Chester Housing Authority

This administrative plan has been prepared by the Chester Housing Authority (CHA) in conformance with the requirements of 24 CFR 982.54.

The plan sets forth CHA's discretionary policies for the administration of its Housing Choice Voucher program, in accordance with the requirements of the U. S. Department of Housing and Urban Development (HUD). Basic requirements for the administration of the program, as follows, are incorporated by reference:

- 24 CFR 5 Definition of Income, Income Limits, Rent and Reexamination of Family Income for the Section 8 Housing Assistance Payments Programs; Restrictions on Assistance to Non-Citizens; One Strike Screening and Eviction for Drug Abuse
- 24 CFR 888 Fair Market Rents and Contract Rent Annual Adjustment Factors
- 24 CFR 982 Housing Choice Voucher Program
- 24 CFR 984 Section 8 and Public Housing Family Self-Sufficiency Program

Additionally, all program activities are subject to the following civil rights laws and regulations:

- 24 CFR 1 Implementing Title VI of the Civil Rights Act of 1964
- 24 CFR 8 Nondiscrimination Based on Handicap in Federally Assisted programs and Activities
- 24 CFR 14 Equal Access to Justice in Administrative Proceedings

1. Applicant Outreach and Selection

Upon opening and reopening the waiting list, the CHA will place a notice in the Delaware County Daily Times, the Chester Spirit, and post notices in the CHA administrative and site offices. The waiting list opening will be for a period of not less than ten days. Prior to opening the waiting list, the CHA will hold information sessions on the application process for other community service providers to broaden outreach efforts thereby affirmatively furthering fair housing and expanding affordable housing opportunities.

Applicants must complete an online application form during the application period, and will be assigned a place on the waiting list based on preference and lottery ranking. Applicants without access to the internet may file an online application at the neighborhood network centers located at the Booker T. Washington Community Center, Ruth Bennett Homes, and William Penn Homes. Applicants requiring other accommodations in completing an online application may send a written request to the HCVP Compliance Department. Preferences are verified when the

Repayment of Amounts Due to CHA

CHA requires any applicant who owes money to CHA as a result of prior participation in the Public Housing or Section 8 program to enter into a repayment agreement before receiving a Housing Choice Voucher. The applicant will be required to pay 1/3 of the amount down, and the balance in agreed-upon monthly installments over a 12-24 month period. If the family leases a unit with voucher assistance, and subsequently fails to make three successive payments, the family's housing assistance will be subject to termination.

2. Special Purpose Funding

When HUD awards Housing Choice Voucher funding to CHA that is targeted to a specific purpose, specific families, or specific categories of families, CHA will modify its selection procedures to comply with the requirements of the program.

In keeping with national housing goals, the CHA has established a local set-aside to support local homeless service providers in obtaining permanent housing for their clients. Provided sustained funding levels, one voucher will be set aside for every seventh turnover in the tenant-based voucher program. When vouchers become available, the lead agency submits homeless applications directly to the CHA for final eligibility determinations. The local service provider is responsible for case management and supportive services to ensure successful tenancies.

3. Issuing or Denying Vouchers

Vouchers are issued for an initial term of 60 days.

If, at the end of 60 days, the voucher holder has not submitted a Request for Tenancy Approval, the voucher will expire unless the family has requested and received approval for an extension. Extensions will be approved for good cause, including, but not limited to

- Illness or hospitalization during the initial 60 days, or

- Difficulty in locating units suitable for large families, units that will accommodate special needs of the family, and units in areas with low concentrations of poverty and minorities.

Extensions are given for an additional 60 days. Further extensions may be given in instances of severe hardship.

CHA will provide a full 120 days for applicants with disabilities to utilize their vouchers to find suitable housing. Further extensions may be given in instances of severe hardship.

CHA suspends the term of the voucher upon receipt of the Request for Tenancy Approval (Tolling).

Applicants who were former housing program participants that have an unsatisfied judgement of more than \$2000 for misuse or neglect of a previously assisted property or for other money

DELAWARE COUNTY HOUSING AUTHORITY
ADMINISTRATIVE PLAN
FOR THE
HOUSING CHOICE VOUCHER PROGRAM
APRIL 1, 2021

Approved by DCHA Board of Commissioners

Revised

Special Admissions [24 CFR 982.203]

HUD may award funding for specifically-named families living in specified types of units (e.g., a family that is displaced by demolition of public housing; a non-purchasing family residing in a HOPE 1 or 2 projects). In these cases, DCHA will admit families that are not on the waiting list, or without considering the family's position on the waiting list. DCHA must maintain records showing that such families were admitted with special program funding.

Targeted Funding [24 CFR 982.204(e)]

HUD may award DCHA funding for a specified category of families on the waiting list. DCHA must use this funding only to assist the families within the specified category. Within this category of families, the order in which such families are assisted is determined according to the policies provided in Section 4-III.C.

DCHA Policy

DCHA administers the following types of targeted funding:

Non-Elderly Disabled (NED)
Mainstream
Shelter Plus Care
Family Unification Programs
Project Based Vouchers
Veterans Affairs Supportive Housing (VASH)
Tenant Based Rental Assistance (TBRA)

Regular HCV Funding

Regular HCV funding may be used to assist any eligible family on the waiting list. Families are selected from the waiting list according to the policies provided in Section 4-III.C.

DCHA has established site-based waiting lists for all public housing/affordable communities and limits choices to three public housing/affordable communities plus the Housing Choice Voucher Program.

4-III.C. SELECTION METHOD

DCHA must describe the method for selecting applicant families from the waiting list, including the system of admission preferences that the DCHA will use [982.202(d)].

Local Preferences [24 CFR 982.207; HCV p. 4-16]

DCHA is permitted to establish local preferences, and to give priority to serving families that meet those criteria. HUD specifically authorizes and places restrictions on certain types of local preferences. HUD also permits DCHA to establish other local preferences, at its discretion. Any local preferences established must be consistent with DCHA plan and the consolidated plan, and

must be based on local housing needs and priorities that can be documented by generally accepted data sources.

DCHA Policy

DCHA uses the following Local Preference system

Residency preferences for families who live, work, or have been hired to work in DCHA's jurisdiction.

Families who have at least one adult that is employed and has been employed for 3 months and works a minimum of 20 hours per week. This preference is extended equally to . The working preference shall also be available to a family if the head, spouse or sole member is 62 years old or disabled.

DCHA will provide admission preference (non-preference point) for (Mainstream)-non-elderly persons with disabilities transitioning out of instructional and other segregate settings, at serious risk of institutionalization, homeless, or at risk of becoming homeless.

A family that is a victim of domestic abuse that is referred to DCHA by a recognized Domestic Abuse Shelter. The victim must present to DCHA a documented Protection from Abuse Order and a written referral from the shelter.

A family whose head or spouse is a veteran.

Selection of a domestic abuse family or veteran family will be processed using a ration 1 selection for every 10th admission. This ratio is discretionary and will be reviewed at least annually to determine its effects on issuance of vouchers. Based on recommendations from staff, the Executive Director may authorize a change in this ratio or suspend the processing of this selection.

Delaware County Housing Authority (DCHA)– Moving Up Set Aside Strategy (Graduates) **Moving Up Strategy for Homeless Households in Permanent Supportive Housing Programs**

Purpose: Over time, many homeless households who are participants in a Permanent Supportive Housing Program (PSHP), find that they no longer need the level of supportive services that are provided under Permanent Supportive Housing programs (PSH), but they continue to need housing assistance.

A "Move-On" strategy allows CoC communities to free up existing PSHP inventory for individuals with the high service needs, those who have been homeless for the longest time, and/or those with the greatest vulnerabilities. By issuing HCV to participants in PSHP, the CoC can identify individuals and families that no longer need intensive support services and offer vouchers to these households allowing them to continue receiving assistance and freeing up new slots for newly homeless.

The DCHA commits up to 15 graduate vouchers/year, dependent upon available funding.

Goal: Over a 12 month period, the DCHA will “graduate” up to 15 PSHP participating households from the following programs:

| Program Name | Partner Agency | Grant Capacity |
|--|-------------------------------|--------------------|
| Shelter + Care 2345 | Adult and Family Services | 54 – 60 Households |
| PSH for Chronic Substance Abusers | Holcomb | 9 -15 Households |
| Delco PSH for Adults with Mental Illness | Horizon House | 7 -12 Households |
| Supportive Housing Program for homeless households with disabilities | Family and Community Services | 6 – 9 Households |

Process: The Division of Adult and Family Services, via the Homeless Permanent Housing Clearinghouse, will identify households who are ready to graduate from a program. At the same time, they will identify a new family to be placed in the “graduate” slots.

Conditions: All newly referred households must be on the DCHA waiting list.

HUD Strategic Goal: Ensure Equal Opportunity in Housing for all Americans.

In accordance with the annual plan DCHA ensures equal opportunity and affirmatively furthers fair housing. In order to accomplish this goal DCHA has executed a Memorandum of Understanding with county agencies that represent the “Special Needs” Consumers which will address the case management to be provided to their clients who are participating in assisted housing programs. The Memorandum of Understanding sets aside 25 vouchers to be used by families who are referred to the “special needs” program. 4 vouchers per year will be set aside for the Path Housing clients. This is in addition to the “special needs” program. Path Housing clients are chronic homeless individuals.

DCHA will identify Voucher eligible applicants and provide preference for issuance of Vouchers to Continuum of Care Program and Supportive Housing Program graduates.

Treatment of Single applicants: All families with children and families who include An elderly person or a person with disability shall be given a selection priority over all other applicants.

DCHA in collaboration with Pennsylvania Housing Finance Agency has executed a letter of agreement to assist persons transitioning from institutions the opportunity to participate in the Housing Choice Voucher Program.

Income Targeting Requirement [24 CFR 982.201(b)(2)]

HUD requires that extremely low-income (ELI) families make up at least 75% of the families admitted to the HCV program during DCHA’s fiscal year. ELI families are those with annual

Dear Delaware County Continuum of Care funded Grantees-

Please read this important message about submission of Renewal Project Applications for the FY2021 CoC NOFO Competition.

As part of the Delaware County CoC's Consolidated Application for the 2021 CoC Competition, on behalf of the CoC, DMA will review all renewal project applications prior to the submission of these applications into the e-snaps system by grantees. Instructions for submitting this information are provided below.

- **By October 13, 2021 at 5pm:** All agencies with renewal project applications are being asked to provide a PDF of your completed Renewal Project Application(s) exported from e-snaps.
- **The PDF of your Renewal Project Application should be submitted via Dropbox.** Attached to this email you will find a list of Dropbox links; each project will have its own unique link.

Please DO NOT SUBMIT your Renewal Project Application(s) in e-snaps. If you accidentally submit the application, please contact us at pa502coc@gmail.com and we will release the application back to you.

- **The PDF file name should be: 2021 Renewal App – Agency Name – Project Name**
- **Prior to submitting your application,** check the Submission Summary to make sure ALL sections have been completed.
- **By October 24:** You will receive a project review form with required corrections.
- **Within 5 working days of receipt of your review:** You must make corrections and submit your final application(s) in e-snaps.

DOCUMENTS ATTACHED TO THIS EMAIL - The following documents are attached to this email to assist with completing the above steps:

- Slides providing a brief overview of the 2021 CoC NOFO
- Instructions for accessing Dropbox and url links- You will use these links to upload your project application(s) to DMA.
- CoC Project Applications & e-snaps: 2021 Tips and Troubleshooting Guide
- Actual Rent amounts from HUD that the following listed projects will need to reference in order to manually enter the updated rent amounts in e-snaps. Projects impacted include:

| PA0763L3T022005 | Horizon House PSH CH |

CONSOLIDATION - If you are considering consolidating projects:

- Please let us know.
- Please follow the instructions above to submit the individual applications in e-snaps for each renewal project that you would like to consolidate. Be sure to make no substantive changes to the budget or units, beds or households served.

If you have questions regarding completing your renewal project application(s), **please first review the attached document “CoC Project Applications & e-snaps: 2021 Tips and Troubleshooting Guide”** and the HUD instructions/guides referenced within the document.

After reviewing these resources, if you are still unable to resolve your issue, send DMA an email at pa502coc@gmail.com. We will work to assist you as quickly as possible.

Thank you for your continued participation in the CoC application process and the work you and your agencies do to end homelessness every day!

**Delaware County CoC
Appeal Policy
Revised October 2021**

Renewal Scoring Process and Appeals

With the exception of CoC-level infrastructure projects (e.g., HMIS and Coordinated Entry grants), the CoC will follow the below process for scoring renewal projects:

- The CoC will request data and information from all CoC-funded renewal project applicants to assist with the renewal scoring process.
- Renewal scoring results will be circulated to all CoC-funded grantees.
- If a grantee identifies an issue or error with the renewal scoring, they may submit an appeal to the CoC within 3 business days of receiving the renewal scoring results. Grantees submitting an appeal should describe the specific situation, reference the relevant scoring criteria and provide compelling information and/or documentation for consideration.
- Upon receipt of an appeal, the CoC will work to resolve the issue or error when possible.
- If the CoC is not able to resolve the issue or error, the appeal will be reviewed by the non-Conflicted Governing Board. This group will evaluate any requests received and make a determination regarding the disposition of the appeal; grantees will be informed by email of the outcome of their appeal within 7 business days of the deadline for receiving appeals.
- Evaluation and scoring of CoC-funded renewal projects will inform project ranking and tiering for the CoC NOFA competition.

Reallocation Appeal

Projects that are underperforming, or that do not meet HUD and local priorities for the year, may be at risk of reallocation. Reallocation may be utilized for low priority and or poor performing projects or projects that can be funded elsewhere and was previously identified by the Governing Board as a project with low priority throughout the year. The non-conflicted Governing Board will determine reallocation.

Any project applicant subject to full or partial reallocation may appeal this decision. Upon receipt of notification of reallocation, grantees must submit an appeal within 3 business days of receiving a reallocation notification. To submit an appeal, grantees will follow instructions provided by the CoC.

Reallocation appeals will be reviewed by the non-Conflicted Governing Board. This group will review additional documentation submitted by the grantee along with the appeal request. This group will consider the supporting documentation and offer a decision within 2 business days after they meet to discuss the appeal.

New Project Selection Appeal

New project applicants not selected for inclusion in the CoC's Consolidated Application may appeal this decision. All appeals must be submitted within 1 business day of receiving project selection notification. To submit an appeal, grantees will follow instructions provided by the CoC.

Reallocation appeals will be reviewed by the non-Conflicted Governing Board. This group will review additional documentation submitted by the new project applicant along with the appeal request. This group will consider the supporting documentation and offer a decision within 2 business days after they meet to discuss the appeal.

Dear Dr. Adriana Torres-O'Connor,

We have been able to confirm with HUD that you executed your grant for Connect Street Outreach, grant number PA 0096L3T022013. Thank you for taking the time to execute the grant.

As mentioned in our previous correspondence, since Mental Health Partnership no longer conducts outreach, or provides case management to the sheltered population, the Delaware County Continuum of Care will look to reallocate these funds. Reallocation allows us to retain the funds to continue to provide this service within our Continuum of Care to assist the vulnerable street homeless population.

Thank you to Mental Health Partnership for their years of service to our homeless population.

Please feel free to contact me with any questions.

Sincerely,

Jessica Fink

Thank you for your response.

You had two grants for outreach, one was a HUD grant for \$164,351 and the other was a PATH grant for approximately \$43,000. According to Carolyn's email, MHP executed the HUD grant for outreach for \$164,351. Since MHP is no longer doing outreach, the CoC would like to reallocate the grant to an agency who is doing outreach.

Thank you for looking into this matter.

Hi Jessica,

I was on site visits all day, so sorry for the delay. I will coordinate with Suz on your question but I am unclear when you say outreach grant. Are you referring to the Path street outreach program or another outreach program? I will try my best to get a timely response.

Take care,
Adriana

Jessica;

Good morning;

Yes, MHP did execute their grant agreement for the FY 2020 renewal CoC grants. Grant numbers are:
PA0096L3T022013—Connect Street Outreach and PA0097L3T022013—Connect to Permanency . Please see attached copy of fully executed agreement.

Good morning

Are you able to confirm if MHP executed their new grant for the Connect? The old number was PA0096L3T021912. I see there was an award for 2020 in the amount of \$164,351. I left a message for Adriana and have not been able to confirm with her.

Thank you.
