Shy Giants

Directions: Read about the giant panda. Then, answer the questions.

Giant pandas are among the world's favorite animals. They look like big, cuddly stuffed toys. There are not very many pandas left in the world. You may have to travel a long way to see one.

The only place on Earth where pandas live in the wild is in the bamboo forests of the mountains of China. It is hard to see pandas in the forest because they are very shy. They hide among the many bamboo trees. It also is hard to see pandas because there are so few of them. Scientists think there may be about 1,600 pandas living in the mountains of China.

1. Write a sentence that tells the main idea of this story:

Pandas are shy and cuddly.

2. What are two reasons that it is hard to see pandas in the wild?

a) they hide

b) few of them

3. How many pandas are believed to be living in the mountains of China?

1,600

WE ARE Avoiding today Did You Hear the News?

Many people learn about the day's news by reading a newspaper. Some people read a printed version. Others prefer to read a newspaper online.

A newspaper has many parts. Some of the parts of a newspaper are listed below. The parts of a paper may look different online, but the content is mostly the same.

- banner — the name of the paper
- lead story — the top news item
- caption — sentences under the picture that give information about the picture
- sports — scores and information on current sports events
- comics — drawings that tell funny stories
- editorial — an article by the editor expressing an opinion about something
- ads — paid advertisements
- weather — information about the weather
- advice column — letters from readers asking for help with a problem
- obituaries — information about people who have died

Directions: Match the newspaper sections below with their definitions.

Panda Life

Directions: Read the story. Then, answer the questions.

Giant pandas do not live in families like people do. The only pandas that live together are mothers and their babies. Newborn pandas are very tiny and helpless. They weigh only five ounces when they are born—about the weight of a stick of butter! They are born with their eyes closed, and they have no teeth.

It takes about three years for a panda to grow up. When full grown, a giant panda weighs about 300 pounds and is five to six feet tall. Once a panda is grown up, it leaves its mother and goes off to live by itself.

1. What pandas live together? MOM's and babies
2. How much do pandas weigh when they are born? 5 ounces
3. Why do newborn pandas live with their mothers? they take care
4. When is a panda full grown? 3 years old
