Sharon, stop the bs please, let me tell you this, I didn't do anything to stay in this country, I do not give a shit about living in this country, you can go ahead and put a complain about me anywhere you like also please use this email too, it will help you more, I am here only one reason and that reason is supporting my son and your lazy ass otherwise I would not be in this shit country, I would be in my country and believe me I would rather to live in Africa then here, go ahead use this email, it will help you, send it to Biden. From now on I'm not replying your emails back unless if you will send me a email that's make sense, send me a email about your plans, I may reply to that if your email will make any sense, till then good bye.

Murat
