**Absolutely NO Vendors Loading in/out outside of specified hours.
Please do not come early and remember to allow enough time to unload.**
You are expected to be present with your booth and open all three days of the event.

LIABILITY

The Festival, its organizers and committees do not accept any responsibility for any injury, loss or damage to goods, displays, equipment or persons.

EXHIBITORS PROVIDE

If accepted, you will be expected to bring your own tables and chairs, fire rated popup tent – canopy – tarp (if you plan to use one). As per Columbus Fire Code, ALL tents, canopies & tarps must be made of fire resistant material and you must have either a tag on the item or a certificate from the manufacturer stating such with you to show us - NOTE: any tents, canopies or tarps that do not meet Columbus Fire Code will be removed - no exceptions! You will be expected to provide your own displays and lights (ALL lights must be shielded or caged – no bare bulbs are allowed); heavyduty outdoor electrical cords and a trash can to keep your booth area cleaned up.

The festival provides no equipment for vendor use - no exceptions.

YOU MAY NOT BRING

If accepted you may NOT bring charcoal grills or cooking devices, glass bottles (this should be a no brainer but you would be surprised), leave that boom box, MP3, computer or radio at home unless you have earphones – the single largest complaint on the street fair is someone playing an amplified device and annoying the folks around them (imagine listening to your least favorite music or presentation all weekend long from the booth next door) - plus like it's a music and art festival folks there is enough noise!! Don't bring a computer presentation or a TV--no exceptions. NO sewing machines, polishing devices, grinders, VCRs, TVs, radios, electric fans, computer displays, soldering irons, wood burning irons – the event is on Generator units this year and the grid will not accommodate extra pull

Items Not Allowed For Sale or Distribution Include:

If accepted, you may not sell or distribute weapons or weaponlike novelties, items made from coral or ivory, bootlegged records, tapes or CDs, water, pop or food (unless you have been selected to sell food, pop or water), homemade baked goods (no homemade handouts – food for crowds has to be made in a commercial kitchen and comply with local health codes), any infringement on the Hot Times logo, any materials that advocate sexism, racism, violence or that are discriminatory or violent in content.

BOOTH SHARING

If accepted, you may NOT share your booth with anyone who as not participated in the selection process for 2024 and been accepted for the 2024 event. List everybody in your booth on the application.

ANIMALS

For the safety of the people and the animals, NO animals are allowed to accompany booth vendors (no animals in or around your booth – tied in the park behind your booth, left in your car or truck or in crates nearby), with the exception of working dogs for medical reasons, which must remain on a leash. This means every animal! Leave them at home.

They will thank you and so will the festival.

INCENSE, PERFUMES, OILS:

You may have ONE incense burning per tent per vendor at a time. The incense has become overwhelming in the past. If you are bringing perfume or oils - PLEASE BRING A WAY TO CLEAN THEM UP IF THEY BREAK ON THE PAVEMENT. We suggest vinegar and baking soda and a scrub brush/broom. Bring a small cleanup kit with you if you sell these type of products please. You will be responsible and expected to clean up it up immediately. There are many folks that get migraines and sensitive to this.

STAY IN YOUR BOOTH! THIS MEANS EVERYONE!

If accepted, ALL sales and distribution of materials must be conducted in your booth space. You are not allowed to roam the grounds and sell or hand out anything! You may NOT stand in the street in front of your booth. This means if you are collecting signatures for an organization, then you must be in your tent doing it.

TENT CONFIGURATION

All tents must be fire rated, must fit in your space and can have no overhangs or awnings sticking out into the street. You MUST anchor your tents, either with buckets of cement, cement blocks, water jugs, sand or other weights. Stakes that go directly through the legs may be used – stakes with ropes may not.

Keep in mind that everyone who is working at the event is a volunteer, no one is paid to be helping you or in too many cases listening to you complain.

Everyone is in this together and it is important you are part of the Team.

The Festival reserves the right to not accept vendors who have broken the rules!

Let's all work together.

Happy Hot Times!
