## CONNECTING THE MAGNETIC LINERS

### STEP 1

Place the watch strap parts on a surface with the strap bottom side facing upward, as shown in figure 1.

### STEP 2

Next, place the magnetic liner parts next to the watch strap, as shown in figure 1. The liners' top side should be facing upward. Make certain the liner labels are pointing in the direction of the Apple Watch device.

(Figure 1)

### STEP 3

Flip over the magnetic liner parts so the bottom side faces upward. Then, place the appropriate liner part on top of its watch strap part. The magnetic force will self-align the liners roughly into position. Please refer to Figure 3, as shown.
