SAINT-GOBAIN

Trust your home to NorthGate® ClimateFlex®

NorthGate® ClimateFlex® is designed specifically for the professional roofing contractor that takes pride in providing more to their customer.

NorthGate® ClimateFlex® and Landmark® ClimateFlex® give your home long-lasting curb appeal and protection from the elements.

We started by adding more weathering asphalt to the industry's toughest fiberglass mat to provide more protection. Then we incorporated our Maximum Definition color blend technology to give **NorthGate® ClimateFlex®** roofing shingles more vibrancy on the roof. **Landmark® ClimateFlex®** offers a more traditional palette, with the same protection.

Included is the proven performance of our **NailTrak®** feature, enabling faster installation.

NORTHGATE ClimateFlex STANDARD WARRANTY

- Lifetime Limited Warranty
- 10-years of SureStart™ protection
- 15-year 110 MPH wind warranty (Upgrade to 160 MPH available. CertainTeed starter and CertainTeed hip and ridge required.)
- 30-year **StreakFighter®** algae resistance warranty

Add it all up and what you get is the opportunity to offer a lot of additional value for the money... and today that means more than ever.

NorthGate® ClimateFlex®

Shown in Max Def Moiré Black

NorthGate® ClimateFlex® specifications:

- Premium Max Def color palette
- **NailTrak®** for faster installation
- Lifetime limited warranty
- 30-year **StreakFighter®** algae resistance

ClimateFlex[®]

Outstanding durability. Featuring the latest advances in polymer science, CertainTeed's ClimateFlex technology works at a molecular level to make shingles strong and pliable. The rubber-like qualities of the ClimateFlex asphalt formula provides each shingle with improved hail resistance, cold-weather flexibility, and granule adhesion.

With NorthGate ClimateFlex, you give your home the curb appeal of designer roofing and the protective resilience of polymer-modified asphalt, all backed by CertainTeed's manufacturer warranty - the most comprehensive and valued warranty in the industry.

 POLYMER-BLENDED ASPHALT Deeper-embedded granules with greater adhesion vs. standard asphalt, helping prevent UV damage	 ENHANCED PROTECTION Highest industry-rated impact protection against hail & other weather-related impacts	 EXTREME ENDURANCE Allows for easier cold-weather installation and greater weathering endurance than standard asphalt shingles	 INVESTING IN THE LONG-TERM Enhanced leak protection and peace of mind with a Lifetime Limited Warranty, which may qualify your home for insurance discounts

NailTrak[®]

Fast, Accurate, Visible

1-1/2" extra-wide nailing area improves efficiency and accuracy

QuadraBond[®]

Advanced Layering

An industry-leading four strips of our Quadra-Bond adhesive for durability

WIDER, SAFER, PROVEN

For more than fifteen years, contractors have used NailTrak to install shingles with speed, accuracy, and confidence. With a nailing area three times wider than that of a typical laminate shingle, NailTrak helps ensure each shingle is installed per manufacturer's specifications.

NorthGate ClimateFlex shingles also feature CertainTeed's specially formulated Quadra-Bond[®]

adhesive, which laminates shingle layers at an industry-leading four points for superior resistance to delamination.

Together, our NailTrak and Quadra-Bond technologies deliver the strength and durability that gives homeowners greater peace of mind that their home and possessions are protected.

StreakFighter[®]

Algae Resistance

HELP MAINTAIN THE NATURAL BEAUTY OF YOUR ROOF

Those streaks you see on other roofs in your neighborhood? That's algae, and it's a common eyesore on roofing throughout North America.

CertainTeed's StreakFighter technology uses the natural anti-algae properties of copper-containing surface granules to help prevent algae from forming on shingles, reducing the need for costly and time-consuming algae cleaning and maintenance while helping your roof maintain its curb appeal for years to come.

CertaSeal[®]

Uplift Protection

CertaSeal[®] is a fast-activating modified asphalt sealant with a 20-year record of proven performance. Designed to seal shingles together upon installation, it protects roofs from wind uplift and shingle blow-off so that homes stay safe and dry. It's also engineered to remain flexible after installation, unlike harder sealants that can dry out and crack over time.

Strength with Style

NORTHGATE® **ClimateFlex**®

SPECIFICATIONS

- Two-piece laminated fiberglass-based construction
- Classic shades and dimensionality of natural wood or slate

(For U.S. building code compliance, see product specification sheets.)

Add a Little Accent to Your Roof

CertainTeed offers Shadow Ridge® ClimateFlex, a Class 4 impact resistant accessory shingle used for capping hips and ridges of your roof. It is the perfect finishing touch, offering blended color and low-profile design.

Color Companion Products for Flat Roof Areas

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in colors that complement some of the most popular CertainTeed shingles.

Integrity Roof System®

PERFORMANCE ENGINEERED FOR COMPLETE PROTECTION,
STRONG RESILIENCE AND LASTING BEAUTY

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

1. Waterproofing Underlayment

The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. Water-Resistant Underlayment

Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. Shingle Starter

Shingle starter is the first course installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. Shingles

Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. Ventilation

A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.

6. Hip & Ridge

Available in numerous profiles, these accessories are used on the roof's hip and ridge lines for a distinctive finishing touch to your new roof.
