

# Danielle Hawthorn

Early Years Practitioner

## About Me

I have been a part of the St Agnes team/family now for 3 years. I started off as a student volunteering as part of my collage course.

My interests are spending time with my family going on walks and reading in my spare time.

I love to see children succeed and thrive through play. I especially enjoy seeing children fully engaged in a story during group times. My favourite thing about being a practitioner is seeing the children happy and enjoying their time at nursery.

In my spare time I enjoy spending time with my two children, going for walks, going to the beach and reading.

Danielle is a truly wonderful part of our team. Her enthusiasm and dedication shine through. It is fantastic how she engages in any training opportunities as she is always eager to be on top of the latest developments in early education, which really benefits the children. Danielle brings a fun and friendly energy to the team, making her a truly lovely colleague to work alongside. You can always count on her reliability and it is clear how passionate she is about providing a nurturing and stimulating environment for the children. Danielle is a lovely person to have around, her dedication, her thoughtfulness and her genuine care create a positive and enriching atmosphere for everyone.
