

Nicola Vasey

Early Years Practitioner

About Me

There have been many changes throughout the 12 years that I have been an Early Years Practitioner, but one thing that has remained the main focus within that time is making sure that young children are given the best start possible to their learning journey, which is something I am incredibly proud to be part of.

I love being able to care for and support children throughout their time at nursery and will always encourage them to be independent superstars!

Outside of nursery life, I enjoy spending time with my family and our sausage dog Ralph. We love holidays abroad and enjoy spending time at the coast; Amble being our favourite place to visit.

Nicola joins us with a wealth of experience and a calm confidence that instantly puts everyone at ease. After dedicating 12 years to her previous setting—where she excelled as a senior room leader—she brings with her not only deep knowledge of early years practice but also a genuine passion for helping children thrive.

From the moment you meet her, it's easy to see why she's so loved. Nicola has a natural warmth that draws people in, and her thoughtful, nurturing approach makes children and colleagues feel supported and valued. Her professionalism shines through in everything she does, yet it's paired with a kindness and gentle humour that make her a joy to work alongside. We feel incredibly fortunate to welcome Nicola into our nursery family. With her experience, her caring nature, and her ability to build strong, positive relationships, she is already becoming a much-loved and highly respected member of the team.
