

# Katie Webster

Deputy Manager

## About Me

I have been working at St Agnes Day nursery since May 2022. I have 17 years experience working in childcare settings in a number of different roles. I have a BTEC national diploma in childcare level 3.

Whilst at nursery I enjoy dancing with the children and playing outside. You can often find me playing on the slide and having fun with the children.

At home I enjoy spending time with my family taking my 3 children on adventures and reading my books.

Katie brings a wealth of experience to the nursery and provides a solid foundation for the entire team. Her deep understanding of early childhood education and her unwavering focus on children's best interests are evident in all she does. She prioritises the wellbeing and development of the children ensuring every activity planned is in their best interest. This dedication fosters an environment where children feel safe, nurtured and secure. Within the staff team Katie is a calming and supportive presence. Her experience provides valuable guidance and reassurance. Katie is a deeply valued member of the team.
