

Joanne Jeavens

Nursery Manager

About Me

Nursery Manager
Level 3 Early Years
Level 5 Leadership and Management
Early Years

I have been part of the St Agnes Nursery team for 15 years. I am a highly motivated and experienced manager who strives to create a nurturing and stimulating environment for children. I am passionate about early childhood education and I am committed to providing the highest quality care and support for our children and their families.

In my spare time I enjoy spending time with my family, my husband and 3 beautiful children. We love to spend time at our caravan.

I spend lots of time taking my son to football training and matches.

I just love being a mammy!

As nursery manager I believe we have a nursery brimming with laughter and curiosity, where every child feels seen, loved and excited to learn. With the help of my amazing team we have created a warm, playful space where little ones explore the world through hands-on fun, build lasting friendships and discover their unique talents.

We nurture social and emotional growth, fostering kindness and confidence, so they blossom into happy, lifelong learners.

Individually we bring different talents and strengths

*but when we come together,
that's when the magic happens!*
