

Your Centres/ Preschools and Pollinators

Kids Love bugs! Your centre and preschools are a living laboratory where

children learn through observations and hands-on learning. These skills are developed through Bowral Bee Co. Pty Ltd. Each lesson contains The Early Years Learning Framework, which emphasise language, arts and maths including science.

A bit about us

At Bowral Bee Co. Pty Ltd we are a small family run business which makes and sells Personal Care and Beeswax Products all handmade by us. Our

products contain our own honey and beeswax from our own hives on our premises. We wanted to do our part for the environment and for the next generation without leaving carbon footprint. Our business aims to use packaging that can be reused or recycled.

In the last few years David and Nisha have been educating and mentoring people young and old around NSW about bee keeping and the importance of bees in our environment.

Buzzy Bees

We at Bowral Bee Co. Pty Ltd will explore how our fruit and vegetables are produced by these amazing insects. We have a discussion with the group about different fruits and vegetables they like and dislike. And how they are important to our environment.

In the beehive

Our preschool incursions consist of an observation hive where the kids observe the inner workings of a beehive colony. We talk about the bees and what each one's role is inside the colony. Its an interactive experience for the children as they actively see what the bees do from the observation hive.

How do we get honey from the hive? We dress up in beekeeper outfits and actively engage the children in the art of miniature beekeeping where they get to

exercise the experience of a real beekeeper minus the stings.

We remove honey for tasting and enjoy the experience of honeycomb. What it smells and feels like.

The Early Years Learning Framework

Learning Outcomes: (EYLF)

Outcome 1: Children have a strong sense of identity

Outcome 2: Children are connected with and contribute to their world

Outcome 3: Children have a strong sense of wellbeing

Outcome 4: Children are confident and involved learners

Outcome 5: Children are effective communicators
