

*Bowral Bee  
Co. Pty Ltd*

**Bowral Bee Co. Pty Ltd School Incursion Form- (Long Day Care Centres/  
Preschools)**

**ABN: 546 726 912 71**

**ACN: 677 691 217**

**Beekeepers working with children check:**

**Nisha Imerman - WWC2554959E - exp 4/11/2027**

**David Imerman - WWC2554945E - exp 4/11/2027**

**\$200 per Centre/Preschool Visit- kids unlimited including honey samples**

For ages 2 -5 years and up we aim for a maximum length of 30 mins, so we engage them a bit more as their minds tend to wonder. We try and make the experience as practical and hands on as possible for their fine motor skills and peer to peer communication. During the incursion, we will talk where food comes from and have a small discussion of what food the children like and dislike. We then delve into the world of bees. From the early beginnings in the life cycle and then into honey production. We encourage the children to dress up in bee suits and practice the art of removing comb from a beehive.

We strongly encourage the centre to have discussions, investigations and activities for your children a couple of weeks ahead of time of us coming to your centre to anticipate our visit.

**Please Note: We will be bringing live bees which the children will be able to look at up closely. The bees will be in an observation hive. It is locked and sealed so the children and bees will not harm each other.** If you request us not to bring in the live bees, please let us know in advance. As part of the experience the children get

samples of honey to try. Before we hand out the samples David and Nisha will check with educators which children have allergies.

Name of Centre: \_\_\_\_\_

Address: \_\_\_\_\_

Contact Person: \_\_\_\_\_

Ph: \_\_\_\_\_

Email: \_\_\_\_\_

Number of children with allergies to Honey/Diabetic: \_\_\_\_\_

How many children will be attending age group: eg: 2-5yrs 20 children, including 2 staff \_\_\_\_\_

For educators, please let us know what the children have learnt or discovered already and what you would like us to cover during the incursion. This will give us something to start off with.
