Bowral Bee Co. Pty Ltd Primary to High School Incursion Form

ABN: 546 726 912 71

ACN: 677 691 271

Beekeepers working with children check:

Nisha Imerman - WWC2554959E - exp 4/11/2027

David Imerman - WWC2554945E - exp 4/11/2027

\$200 per school visit – honey samples included

For ages 5-7 we aim for a maximum length of 30 minutes per session, so we engage them a bit more as their minds tend to wonder if we just talk and talk. We also make the experience as practical as possible and make it a more hands on experience for their fine motor development and peer to peer communication.

For older children a maximum length of 45 minutes to an hour. We strongly encourage the science aspect of teaching to show what devices and practices are in use as well as some practical activities to see how different honeys present themselves under light and crystal structures that make up the various sugars in honey.

Name of School: _____

Address: _____

Contact Person: _____

Ph: _____

Number of children with allergies to Honey: _____

We need the above before we arrive at your school, so you and your students get to experience our full incursion. There will be honey to try.

We would like some information about your students so we can provide curriculum that is catered to the age group we will be teaching:

- ☐ Stage 1
- ☐ Stage 2
- ☐ Stage 3
- ☐ Stage 4
- ☐ Stage 5
- ☐ Stage 6

For teachers: Please let us know what has already been covered in the curriculum so far and what would you like covered during the incursion. This will give us something to start with so we not repeating what they already know. _____

How many students will be attending each session: _____

Number of sessions: _____
