

ROX

M4 MAX

\$259 MSRP

SMART PHONE. SMART PRICE.

Ready for happiness? Stay connected to the world with the ROX M4 MAX, LUNA's latest 6" smarty that features a brilliant high-def screen, impeccable design, and dual SIMs. You'll love your selfies and vibrant pictures like no other smartphone that sells even close to LUNA's "Smart Price." Click away as much as you want since the M4 MAX's 128GB expansion memory can store up to 34,000 pictures. "Wow." If you want to give yourself a gift that keeps on giving, the M4 MAX should find its way onto your shopping list.

Two Cameras that Shoot as One. The big-screened 6" beauty was designed to impress. Yes, it has dual SIMs, a High-Def screen, and all the other bells and whistles. But the ROX M4 MAX also has two back cameras: one is a 13MP color camera for color capture—the other is a 5MP mono camera for shading. In Dual-cam Mode the two cameras work together to capture both rich colors and image clarity.

The M4 MAX has 2 independent Image Signal Processors (ISPs) built into the chip. When a photo is taken, the ISPs merge the two photos into one to boost the image quality. The ISPs also optimize photos by reducing noise reduction in low light, and auto-adjusting exposure, contrast, and saturation. In short, this means it is easy to get amazing photos with the ROX M4 MAX. The two cameras automatically create a depth-of-field effect that keeps faces sharp with a beautifully blurred background.

SMART PHONE. SMART PRICE.

LUNA MOBILE

Our unique slogan says it all: Smart Phone. Smart Price.

\$700 to \$1,000 is just too much to pay for a phone. LUNA is proud to offer the best smartphone value available today. In addition to market disruptive pricing, our key differentiators include:

- All ROX smartphones are "unlocked," meaning anyone can easily change carriers by just inserting a new SIM card. Unlocked smartphones allow you to say goodbye to expensive contracts.
- Dual SIM slots are a standard feature on all models. You can have one number for work and another for personal use. Or pop in a local SIM while traveling abroad, save big money, and still be available for calls from home. All on the same device. Standard feature on all models.
- Expandable SD Card Memory is available on all models from 128GB on the ROX M4 MAX to a whopping 1TB on the ROX PHENOM. 1TB can hold an incredible 1,000 hours of video.
- The hardest working processors on the planet including the powerful Mediatek 8-core Helio P25 System on a Chip featured in our ROX P10 and the incredible Snapdragon 660 featured in the ROX PHENOM.

- Quick Charge™ technology in the ROX PHENOM charges the battery from zero to 70 percent in just 20 minutes. That's nearly five times faster than conventional charging. LUNA Mobile is one of the very first companies to bring this game-changing breakthrough to the Western world.

All LUNA Mobile products are backed by a one-year factory warranty. For additional information on this or any LUNA Mobile product, please visit our website at LunaHQ.com.
