LUNA MOBILE

Our unique slogan says it all: Smart Phone. Smart Price.

\$700 to \$1,000 is just too much to pay for a phone. LUNA is proud to offer the best smartphone value available today. In addition to market disruptive pricing, our key differentiators include:

- All ROX smartphones are "unlocked," meaning anyone can easily change carriers by just inserting a new SIM card. Unlocked smartphones allow you to say goodbye to expensive contracts.
- Dual SIM slots are a standard feature on all models. You can have one number for work and another for personal use. Or pop in a local SIM while traveling abroad, save big money, and still be available for calls from home. All on the same device.
- Expandable SD Card Memory is available on all models from 128GB on the ROX M4 MAX to a whopping 1TB on the ROX PHENOM. 1TB can hold an incredible 1,000 hours of video.
- The hardest working processors on the planet including the powerful Mediatek 8-core Helio P25 System on a Chip featured in our ROX P10 and the incredible Snapdragon 660 featured in the ROX PHENOM.

- Quick Charge™ technology in the ROX PHENOM charges the battery from zero to 70 percent in just 20 minutes. That's nearly five times faster than conventional charging. LUNA Mobile is one of the very first companies to bring this game-changing breakthrough to the Western world.

All LUNA Mobile products are backed by a one-year factory warranty. For additional information on this or any LUNA Mobile product, please visit our website at LunaHQ.com.
