

ROX

G-FORCE

SMART PHONE. SMART PRICE.

Dual 5G Rugged Smartphone that takes Photography to the Next Level. The ROX G-FORCE is a head-turner that's ready for extreme action. Its IP68/IP69K and MIL-STD-810G certifications make it one of the few smartphones in the world eligible for use by Special Forces, as well as those who just need a smartphone that can take a punch. The G-FORCE is able to handle drops from 1.5 meters onto concrete, submersion into 1.5 meters of water for 30 minutes, thermal shocks, extreme temperatures, and corrosive environments.

Dimensity 700 Delivers Lightning Speeds. The G-FORCE's 7nm Dimensity 700 SOC (System-On-a-Chip) is an AI (Artificial Intelligence) processing powerhouse that can handle the most complex AI apps and tasks while running multiple AI functions simultaneously. The Samsung 6.43-inch Full HD+ 1080 x 2400 Gorilla Glass 2K AMOLED screen delivers a stunning, immersive visual experience.

Rugged, but beautiful, the G-FORCE packs 8GB of RAM to maximize buffer space and performance, allowing multi-tasking, video streaming, and gaming without missing a beat. And the 256GB of onboard storage (plus a MicroSD slot up to 512GB) will definitely meet every need, from running games and apps to housing a full library of photos and videos. It also features an unheard-of 6000mAh battery, dual 5G SIMs, 23 Global LTE and 13 5G bands, an AI triple camera (64MP Main + 20MP Night Vision + 8MP Wide Angle), and a 16MP selfie camera. NFC, 33W PD Fast Charge (Adapter included), and 15W wireless charging are standard.

PREMIUM FEATURES

Dimensions	170.5 x 81.2 x 14 mm

IN THE BOX

Smartphone • AC Adapter • USB Charging Cable • Pre-Applied Screen Protector • SIM Tray Tool • Activation Guide

SMART PHONE. SMART PRICE.

LUNA MOBILE

Our unique slogan says it all: Smart Phone. Smart Price.

\$600 to \$1,000 is just too much to pay for a phone. LUNA is proud to offer the best smartphone value available today. In addition to market disruptive pricing, our key differentiators include:

- All ROX smartphones are “unlocked,” meaning anyone can easily change carriers by just inserting a new SIM card. Unlocked smartphones allow you to say goodbye to expensive contracts.
- Dual SIM slots are a standard feature on all models. You can have one number for work and another for personal use. Or pop in a local SIM while traveling abroad, save big money, and still be available for calls from home. All on the same device.
- All models accept a minimum 256GB of expandable SD Card Memory. That's enough to hold more than 20 full-length HD movies.
- Best-in-class Trimple and Quad-camera systems deliver stunning quality and versatility using the latest cutting-edge A.I. technology.

- The hardest working processors on the planet including the powerful Mediatek 8-core Dimensity 700 System on a Chip featured in our ROX G-FORCE and the G90T Gamer in the ROX PHENOM.
- Fast charge technology charges the battery from zero to 70 percent in just 20 minutes. That's nearly five times faster than conventional charging. LUNA Mobile is one of the very first companies to bring this game-changing breakthrough to the Western world.

Designed in the USA. Made in China. All LUNA Mobile products are backed by a one-year factory warranty. For additional information on this or any LUNA Mobile product, please visit our website at LunaHQ.com.
