## OPTI

SMART PHONE. SMART PRICE.

**Big. Bold. Beautiful.** Smartphone lovers can stay connected to the world with the ROX OPTI, LUNA's latest smarty that features a 6.3" full HD+ notched display with a 19.5:9 aspect ratio, dual SIMS, and a 4150mAh battery. It also comes equipped with MediaTek's Helio P23 processor with speeds up to 2.0GHz. Coupled with 4GB RAM and 128GB storage, the OPTI can easily run demanding 3D games. It's not just faster, it's also more efficient due to an octa-core architecture that handles different types of workloads by allocating tasks to different cores. That means the chip can provide faster processing when you need it, and the ability to use even less power when you do not.

**A Photographer's Dream Come True.** The ROX OPTI has camera features that rival the best in the premium smartphone segment. Its four rear cameras feature a 16MP primary camera for detailed pictures. Other cameras include a 16MP ultra-wide with a 120-degree view, a 5MP macro camera, and a 5MP depth camera. It can capture high-quality photos even in a low light environment using AI scene recognition. There's also a 16MP selfie camera on the front. Users can "click" away as much as they want since the OPTI's 256GB expansion memory can store up to 130,000 hi-def pictures or 50 full-length HD movies.

Last, but not least, the OPTI features 22 LTE bands for the world globetrotter plus dual 4G VoLTE capability. Try finding that in a smartphone at this price point.

LUNA Mobile, Inc.

### PREMIUM FEATURES

## SMART PHONE. SMART PRICE.

### LUNA MOBILE

**Our unique slogan says it all: Smart Phone. Smart Price.**

\$600 to \$1,000 is just too much to pay for a phone. LUNA is proud to offer the best smartphone value available today. In addition to market disruptive pricing, our key differentiators include:

- All ROX smartphones are “unlocked,” meaning anyone can easily change carriers by just inserting a new SIM card. Unlocked smartphones allow you to say goodbye to expensive contracts.
- Dual SIM slots are a standard feature on all models. You can have one number for work and another for personal use. Or pop in a local SIM while traveling abroad, save big money, and still be available for calls from home. All on the same device.
- Best-in-class Tri- and Quad-camera systems deliver stunning quality and versatility using the latest cutting-edge A.I. technology.
- The hardest working processors on the planet including the powerful Mediatek 8-core Helio P90 System on a Chip featured in our ROX G-FORCE and the G90T Gamer in the ROX PHENOM.

- Fast charge technology charges the battery from zero to 70 percent in just 20 minutes. That’s nearly five times faster than conventional charging. LUNA Mobile is one of the very first companies to bring this game-changing breakthrough to the Western world.

All LUNA Mobile products are backed by a one-year factory warranty.
