

ROX

PHENOM

SMART PHONE. SMART PRICE.

It takes a lot of guts to use the word "Phenom" in a product name, but LUNA's flagship smartphone lives up to the hype. Ever heard of a smartphone that has four rear cameras totaling 74MP? How about an AI enabled 16MP pop-up selfie camera with drop detection retraction? This beauty can host an extra SIM card or a 256GB MicroSD card that can hold 50 full-length HD movies. The PHENOM also features a 2K AMOLED Display and a speedy Helio G90T gaming processor with an AnTuTu benchmark speed of 283,333. Best of all, this stunner competes with the best in the premium smartphone class at half the cost.

Bold is its Middle Name. The ROX PHENOM features an amazing 6.39" FHD+ AMOLED Ultra Fullview Display combined with a curved glass design to deliver the ultimate viewing experience. This provides for a stunning immersive effect through its rich colors and vivid images. The PHENOM also packs an Octa-Core CPU with 256GB flash storage and 6GB of LPDDR4x dual channel RAM.

The phone comes with 48MP + 16MP + 5MP + 5MP quad rear cameras for epic detail featuring Super Night Mode, extreme closeups from as little 2 cm, and ultra wide angle. The PHENOM carries a 4680mAh battery which supports 18W fast charging. Last, but not least, the world traveler will love the PHENOM's 24 LTE bands and dual 4G VoLTE capability. Truly PHENOM-enal.

SMART PHONE. SMART PRICE.

LUNA MOBILE

Our unique slogan says it all: Smart Phone. Smart Price.

\$600 to \$1,000 is just too much to pay for a phone. LUNA is proud to offer the best smartphone value available today. In addition to market disruptive pricing, our key differentiators include:

- All ROX smartphones are “unlocked,” meaning anyone can easily change carriers by just inserting a new SIM card. Unlocked smartphones allow you to say goodbye to expensive contracts.
- Dual SIM slots are a standard feature on all models. You can have one number for work and another for personal use. Or pop in a local SIM while traveling abroad, save big money, and still be available for calls from home. All on the same device.
- Best-in-class Tri- and Quad-camera systems deliver stunning quality and versatility using the latest cutting-edge A.I. technology.
- The hardest working processors on the planet including the powerful Mediatek 8-core Helio P90 System on a Chip featured in our ROX G-FORCE and the G90T Gamer in the ROX PHENOM.

- Fast charge technology charges the battery from zero to 70 percent in just 20 minutes. That’s nearly five times faster than conventional charging. LUNA Mobile is one of the very first companies to bring this game-changing breakthrough to the Western world.

All LUNA Mobile products are backed by a one-year factory warranty.
