

Wisdom Intelligence

A Complete Suite of Services by The Wisdom Company

In an era defined by rapid AI advancement, human wisdom has never been more essential. The Wisdom Company's Wisdom Intelligence umbrella brings together ten integrated service areas—assessments, coaching, advisory, and certification—designed to strengthen the human capabilities that no algorithm can replace.

The Portfolio at a Glance

Ten Service Areas. One Unifying Purpose.

Every Wisdom Intelligence service is designed to answer a single strategic question: *How do we develop the human judgment, values, and wisdom that allow people and organizations to thrive alongside AI?*

Assessments

Diagnostic tools for individuals, leaders, and teams

Personal Development

Coaching, workshops, and guided self-discovery

Decision-Making

Balanced thinking beyond polarized choices

Human-AI Collaboration

Keeping human judgment central in AI workflows

Leadership & Org

Executive development and culture transformation

Wisdom Intelligence Assessments

Before growth can happen, leaders and organizations must understand where they stand. The Wisdom Intelligence Assessment suite provides rigorous diagnostic services that reveal current wisdom capabilities, decision-making patterns, and development opportunities with precision and depth.

- 1

Human Wisdom Index

A foundational measure of an individual's wisdom capabilities and developmental profile
- 2

AI Decision-Making Style

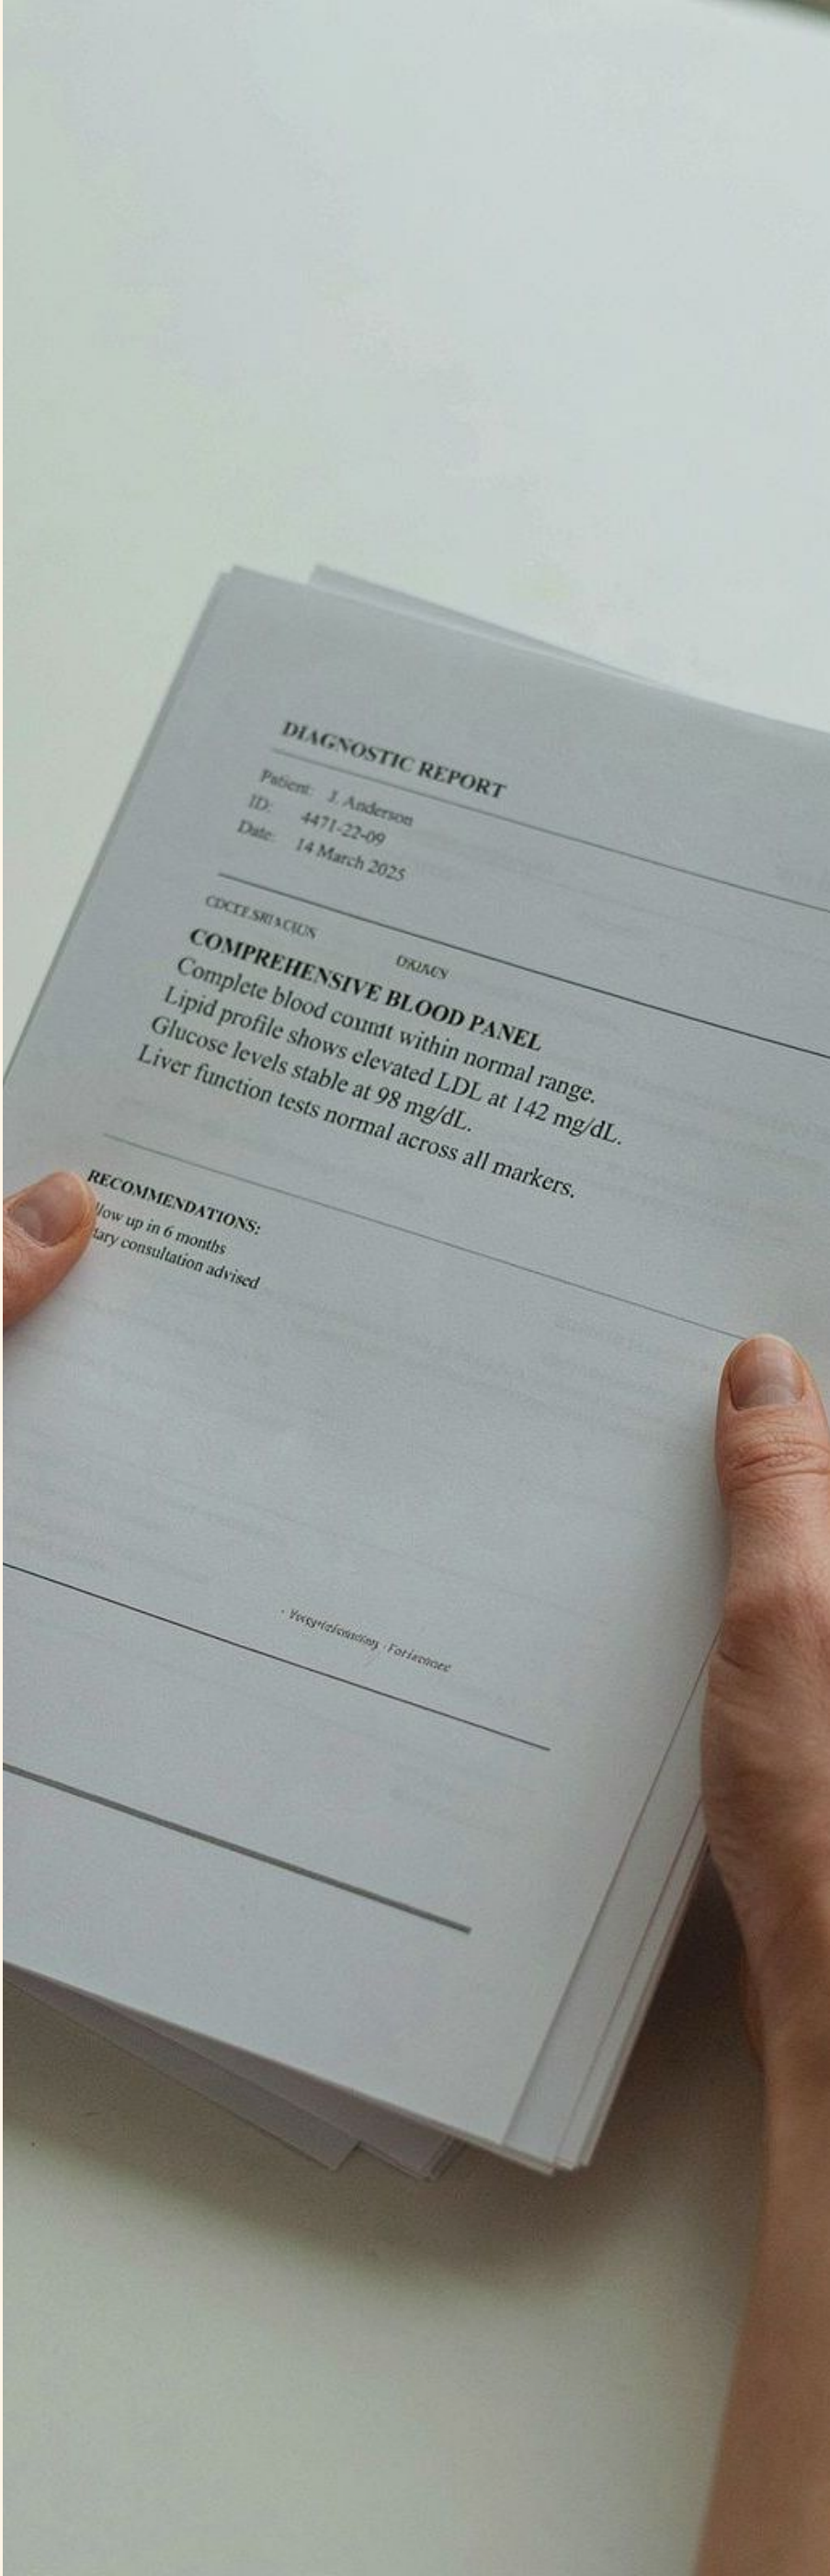

Reveals how an individual navigates choices when working alongside AI systems
- 3

Leadership Wisdom Assessment

Evaluates the judgment, ethical grounding, and systems-thinking of senior leaders
- 4

Personalized Growth Roadmap

Identifies AI blind spots, strengths, and a clear path forward for every client

Personal Wisdom Intelligence

The most effective leaders are those who know themselves deeply. Personal Wisdom Intelligence services are designed to help individuals cultivate self-awareness, strengthen moral judgment, and build a life guided by meaning and purpose—not merely performance metrics.

What Clients Experience

- One-on-one wisdom coaching
- Self-discovery workshops
- Seven Living Principles training
- Guided reflection exercises
- Personal development planning
- Wisdom Intelligence guidebooks

What Clients Gain

Participants develop a clearer sense of identity, values, and purpose. They learn to make decisions aligned with what matters most—not just what is expedient. The result is leaders who are more grounded, more resilient, and more trusted by the people they serve.

- Anchored by the Personal Wisdom Intelligence Assessment for a fully personalized experience.

Balanced Generative Thinking

Most consequential decisions are lost not in the execution, but in the framing. Balanced Generative Thinking helps clients move beyond binary, polarized, or either-or thinking—developing the cognitive range to see options, consequences, and systems that others miss.

Decision-Style Profiling

Understand your default thinking patterns before high-stakes decisions are made

Stakeholder & Systems Mapping

See the full landscape of relationships and second-order consequences

Option & Scenario Development

Generate richer choices before committing to a course of action

Human-AI Decision Reviews

Evaluate AI-generated recommendations through a rigorous human lens

Humans First, AI Second

AI is a powerful tool—but only when humans remain in command of the judgment, values, and accountability behind its use. The Humans First, AI Second service line ensures that organizations integrate AI without surrendering the human wisdom that responsible decisions require.

→ Responsible AI Decision-Making Training

Equip teams with the frameworks to evaluate, question, and responsibly act on AI outputs

→ Bias & Assumption Reviews

Identify where AI outputs reflect flawed data, hidden assumptions, or values misalignment

→ Human-AI Workflow Design

Redesign processes so that human judgment is structurally embedded at every critical decision point

→ Human-AI Learning Loop

A continuous improvement system that captures human insight to improve AI interactions over time

Wisdom Intelligence for Leadership & Organizations

From the boardroom to the entire enterprise, Wisdom Intelligence strengthens the capabilities that matter most in an AI-enabled world: judgment, ethics, systems thinking, and purpose-centered culture.

For Leaders

- Executive wisdom coaching
- Leadership judgment development
- Ethical decision-making
- Reflective and values-centered leadership
- Leadership team workshops and retreats

For Organizations

- Wisdom-centered AI transformation
- AI governance and human oversight
- Organizational culture development
- Organizational Wisdom Repository
- Wisdom Intelligence dashboards and reporting

Business Wisdom Intelligence & Wisdom Legacy Planning

Wisdom applied to real business challenges—and preserved for generations to come. These two service areas bring Wisdom Intelligence to the most consequential decisions leaders will ever face: strategic direction and the transfer of hard-won human insight.

Business Wisdom Intelligence

Advisory services for strategic planning, innovation, AI adoption, organizational change, and stakeholder-centered growth. Practical wisdom applied to the decisions that shape competitive advantage and long-term resilience.

Wisdom Legacy Planning

Services for founders, families, and senior leaders that preserve and transfer wisdom—not merely financial assets. Includes Personal Wisdom Legacy Inventory, Founder Wisdom Legacy Report, Wisdom Transfer Plans, and Next-Generation Development programs.

Certification & Professional Licensing

The Wisdom Intelligence Certification program creates a growing community of credentialed professionals—coaches, consultants, facilitators, and advisors—equipped to deliver Wisdom Intelligence services with confidence, rigor, and impact.

01

Core Foundation Certification

The Certified Wisdom Intelligence Advisor credential, establishing mastery of core frameworks and principles

02

Specialized Practice Pathways

Deepened expertise in assessments, facilitation, leadership development and organizational wisdom

03

Licensed Assessments & Workshops

Access to participant workbooks, facilitator guides, and business-development tools for independent practice

04

Continuing Education & Community

Ongoing professional development within a peer network committed to advancing human wisdom

Speaking, Workshops & Group Programs

Wisdom Intelligence ideas come alive in rooms. Whether addressing a global conference, a leadership team, or a peer advisory group, The Wisdom Company delivers compelling, insight-rich experiences that move audiences from awareness to action.

Keynotes & Executive Briefings

Thought-provoking presentations tailored for conferences, association events, and leadership summits

Half-Day & Full-Day Workshops

Hands-on, facilitated learning experiences for leadership teams, cohorts, and organizational groups

Peer Groups & Retreats

Custom modules for peer-group meetings, leadership retreats, and multi-session organizational programs

The Wisdom Company: A Complete Ecosystem

Wisdom Intelligence is not a single product—it is a fully integrated ecosystem of services designed to meet clients wherever they are on their wisdom journey. From a first assessment to a multi-year organizational transformation, The Wisdom Company provides the frameworks, tools, and trusted relationships that help people and organizations make better decisions, lead with greater integrity, and build a future worth living in.

Diagnose

Assessments that reveal current wisdom capabilities

Develop

Coaching, workshops, and personalized growth programs

Embed

Organizational systems that make wisdom structural

Certify

Professional credentials that extend the mission

Preserve

Legacy planning that transfers wisdom across generations

The human development company for the Age of AI.
