Instructions:

Free Space: Each player will write their own prayer in any one block they choose. This space will be marked as if it has already been called.

From the Master List: Each player will choose 4 sentences from each letter in P.R.A.Y. Cut and paste them in their proper column on your own sheet.

As the statements are called out, the leader marks it in his/her master list, and the players circle it on their board. The first person to get a completed straight row down, across or diagonally calls out "I Pray". The leader checks it with the master list, and if all is correct, that person is the winner.

The Winner: Can choose the next pattern to be played, for example "black out", or "L" shaped, etc.
