Jenny was amazing. She made astonishing progress with my father in a few short months. We continue to have her come in weekly.

Thank Jenny

Response from the owner 2 months ago

Thank you, we are always pleased to hear when we have helped someone!

We feel like we won the Physio lottery with Jenny! After my dads stroke left him with severe weakness on his right side we needed to find a place for him after the Glenrose. We found a great place in Sherwood Park, Laurier House, however there is not enough Physio available for the residents to access. So we searched and found Jenny. My 81 year old dads words "She sure knows what she's doing". Jenny comes to my dads room and works with him bedside, standing and sitting exercises and the increase in his strength is encouraging. She is positive, yet realistic, communicates well with the family and involves us in treatment sessions as well. I'd happily be a reference for anyone looking for more info

Jenny was great! My elderly father suffers from sciatic issues, and after only a couple treatments, he noticed a big improvement! She makes my dad feel very comfortable throughout the sessions. We still continue to use her. Highly recommend Jenny!

Jenny treated my husband for his lower back pain. She was excellent in her treatment. Her skills are incredible and I would recommend her to everyone who seeks home physio and all treatments she is offering.

My husband is now pain free and he does his exercises what Jenny thought him regularly.
