22x11x17 INCHES (LxWxH)**

◆ **NET WEIGHT ABOUT 90LB.**

**IT CAN BE EQUIPPED  
WITH LARGER HOPPERS  
OF YOUR CHOICE**

## SETTING THE GRIND

THE CANYON GRINDERS HAVE WHAT WE CALL A FLOATING ADJUSTMENT KNOB. WHAT WE MEAN IS THE SETTINGS FROM 1-12 ARE GRINDING SETTINGS BUT THE START POINT WILL VARY BASED ON THE SETUP OF THE BURRS IN GRINDER. THEREFORE YOU MUST DETERMINE THE START POINT BY CALIBRATING THE GRINDING KNOB WHEN YOU FIRST RECEIVE YOUR GRINDER. THEREAFTER YOU CAN DO A TEST RUN AT VARIOUS SETTINGS AND MICRO SETTINGS TO FIND THE PREFERRED GRINDS YOU CHOOSE.

SEE OUR VIDEO ON SETTING THE GRIND:

<https://youtu.be/ckH12UP3B4o>

# Super Fine Setting Controls

- ◆ 12 numbered settings with 10 micro-settings
- ◆ Allows range from Turkish to French Press with easy adjustments between Espresso, Single serve K style makers, pour-over, drip, cold brew & French Press as well as more course settings if needed
- ◆ Grinds much more than coffee beans
- ◆ affordable burr replacements
- ◆ Easy to clean
