Preferred Skills

- TestIm automation tool
- K6 performance tool
- Performance testing
- Security testing

Core Competencies

Collaboration – Even though this may be an individual contributor role, success lies in ensuring that the individual is able to work collaboratively across levels and functions. The individual must communicate with peers and clients effectively and ensure timely closure of tasks

Outcome Oriented – Must ensure that the focus is not on hours of productivity but instead on outcomes delivered. The individual should constantly and consistently put effort to ensure goals are met in a timely fashion with high quality. Must use critical and logical thinking to solve problems and look beyond the roadblocks and drive team members to focus on solutions that deliver results

Ownership – The individual can be trusted and depended on to achieve goals. Should not be afraid to roll up

their sleeves to get the job done. Should hold themselves and others accountable to ensure all deadlines are met.
