

# Node JS + React JS Developer

<b>Position</b>	Node JS + React JS – MERN Developer
<b>Location</b>	India, Remote (Work from Anywhere in India)
<b>Experience</b>	5+ Years
<b>Salary</b>	Best in the Industry

## General Description

We are looking for the Node JS + React JS – MERN Developer to join Agilité to with relevant experience in developing large scale enterprise applications using React.js for front-end, Node.js for API's & Mongo DB for backend.

## Work Experience Required

- Understand proposed features and quickly design and build scalable API's and SQL schema & queries
- Develop reusable user interface components and front-end libraries in React.js
- Proactively analyse website performance and implement solutions for improvement
- Collaborate with architects, developers, business analysts, and QA analysts to design, develop, and test cloud based complex web applications with component based development on the client side
- Code secure Rest API's in Node.js, JSON, XML
- Experience working with Mongo DB designing Non-SQL schemas
- Experience in developing in React.js and Redux.
- Prior experience in coding in JavaScript, HTML, CSS
- Integrating systems using Rest APIs and single sign-on

## Educational Qualification

- Bachelor of Technology or Master's degree in Computer science or IT

## Required Competencies

- Must have experience with automated unit, integration and end-to-end testing
- Experience with continuous integration / continuous deployment using AWS Code Pipeline and Cloud Formation templates
- Experience with AWS infrastructure (API Gateway, S3, Lambda, Aurora, EC2)
- Experience with Analytics integration
- Deep knowledge to create standards-compliant, cross-browser, mobile compatible front-end code with responsive design
- Deep knowledge of server-side and front-end performance optimization
- Must have excellent written and verbal communication skills
- Should manage own time and work well both independently and as part of a team
- Experience in developing data frameworks with Graph.QL would be an added advantage.

## Core Competencies

**Collaboration** – Even though this may be an individual contributor role, success lies in ensuring that the individual is able to work collaboratively across levels and functions. The individual must communicate with peers and clients effectively and ensure timely closure of tasks

**Outcome Oriented** – Must ensure that the focus is not on hours of productivity but instead on outcomes delivered. The individual should constantly and consistently put effort to ensure goals are met in a timely fashion with high quality. Must use critical and logical thinking to solve problems and look beyond the roadblocks and drive team members to focus on solutions that deliver results

**Ownership** – The individual can be trusted and depended on to achieve goals. Should not be afraid to roll up their sleeves to get the job done. Should hold themselves and others accountable to ensure all deadlines are met.
