**EXCLUSIVE INTERVIEW**

LC: Hey guys, how are you doing today?  
P: I'm doing pretty well and I'm so grateful to be here today with the "George Clooney".  
LC: I'm good actually dealing with the cold weather.  
P: We are so excited to have you on the cover. It's especially cool since Anfisa is famous as a fashion DJ. So my first question is just a mixture of feeling and emotion as an artist. Always try my best to recreate myself and my taste. I grew up in any type of new trending styles back in a day. But now is another side I have learned to listen to myself, my energy and my feelings.  
LC: Do you mix brands in your clothing same as tracks? What are your favourite designers?  
P: That's interesting! Anfisa and I are working to develop a clothing line so we don't really think about other brands. We just do it according to the mood!  
LC: What is so cool? We are looking forward to this launch.  
A: Exactly!  
LC: We're in Chinese fashion different from European and US one?  
P: Chinese fashion is almost 5000 years of history and the fashion scene is totally something intense and unique just as food and other sectors. But reverence Chinese youth are getting day by day close to Western fashion as they also riding according to the influence of social media. But I still appreciate some pure traditional Chinese fashion designers.  
A: According to me, there is a huge difference. In China tradition and culture will always be the front door of any fashion creation even if the modern society is taking over.  
LC: What's your favorite city you performed in China?  
P: Shanghai is always the lyrics.  
A: Especially the lantern festival.  
LC: How did you guys come up together as a duo?  
P: We were both just in it to all the process together.  
LC: How did you guys come up together as a duo?  
P: Anfisa is a real inspiration for me. We knew each other even before I got into music industry. She was already a resident MC and international DJ with a lot of experience. She's my inspiration and kind of mentor. So I remember when I was playing at the phone in Guangzhou at Hepburn Club we were always on the phone.  
A: Yeah then suddenly we were talking about music and suddenly PhinoVA has an idea to get our career to another level and I was like "Yes is a good idea, let's create something bigger than ourselves".  
P: A month later I left my residency at Hepburn to join her in Shenyang. We started to build what we call PHINOVA&ANFISA today!

LC: To be honest we are really doing what we love that's why we never felt like we were working.  
LC: Your first release "With You" had tremendous success. It never felt like we were working.  
P: As I said previously, the time we decided to go through this on MTVrock official. How long did it take to create it?  
A: The meaning behind it is just a mirror of our lives.  
P: If you have a family member or a friend who you can share the road with then we suggest you to go for it. We took 2 months with fresh with the whole process and it was our first baby.  
LC: Did you guys expect that "With you" will be so popular?  
P: Honestly, no. This project was just our first meeting with the music industry and as performers we were so nervous about the idea and how fans will react.  
A: The funny part was that we are living in China and Chinese can't really get access directly to our music so we decided to change our strategy and get to a different audience at the same time. We wanted to make a tune that had some lyrical substance but people could still dance to. Any way we were so happy of this result.  
LC: In 2018 you got nominated as a young duo! What did you feel when you learned about the nomination?  
P: Wow, really happy moment! This was one of the very first accomplishment as an EDM artist Asia is our base and China is our second home so this nomination came at the right time.  
A: A crazy moment, I was at the airport going to join PhinoVA in another show and got a message from him telling me that we made it to a nomination. I felt so special and humbly happy!  
LC: Your track "Dedication" is about those who never give up to achieve the goal. Did we get it right?  
P: Exactly! "Dedication" is really like a work out a motivation line. No one should give up in his dream everyone has a right to dream and fight for that!  
A: As we all know, dream without focus and dedication is just a dream. To make it happen you should push hard and that is exactly the energy we sharing in.  
LC: Is "Dedication" an autobiographical story?  
P: This is an honor to collaborate with the New York famous mega model and an honor to collaborate with the American sport brand Nike. So Rudy bundini who is the new image of the American sport brand Nike. So our collaboration with different great people always help us to improve the quality of our production.  
A: So amazing to work with talented people like Rudy Bundini he has another view when it comes to music because he is mostly a model and actor but he was so helpful and committed for the EVOLUTION release process.  
LC: You also have unofficial tracks for free downloads at Soundcloud, right? What is the difference between official and unofficial for you?  
A: Yeah Tony is a real motivation for people who gonna listen the track because we used his vocal to motivate the world!  
LC: You recently released an "EVOLUTION" and well, guys, it's a bomb! How do you manage to consistently maintain great quality of your productions?  
P: This is another banger of our project. It was a great pleasure and an honor to collaborate with the New York famous mega model Rudy bundini who is the new image of the American sport brand Nike. So our collaboration with different great people always help us to improve the quality of our production.  
A: So amazing to work with talented people like Rudy Bundini he has another view when it comes to music because he is mostly a model and actor but he was so helpful and committed for the EVOLUTION release process.
