

## Full biography

### Alain Larochelle - Country manager - Canada, Enovacom

Mr. Larochelle is Country Manager - Canada at Enovacom, a company of the multinational telecommunications company, Orange. Graduated in engineering, Mr. Larochelle has worked since the beginning of his career in the health industry and in the information technology sector within companies such as Bell, Emergis, Telus, IMS Health (IQVIA) , Purkinje and now Orange.

Mr. Larochelle has contributed to the development and deployment of several innovations in the health sector, including the first provincial drug information system in Canada approved by Inforoute Santé Canada. In 2020 and in the midst of a pandemic, he worked with the CHUM to implement an innovative solution to significantly reduce the time spent by nurses in the Covid unit on non-valued tasks. Among other things, he actively participates in the activities of an innovation community on connected health objects. (IOMT).
