

# KEITHLEY

Funeral Homes - Crematory - Monuments

## Monuments Guide

*"Monuments tell the story of your loved one's life. We help tell that story."*

## What to Consider

### TYPES OF MONUMENTS

A granite, upright monument is the most common. Other types, shown on the inside of this brochure, include flush markers, horizontal, benches, and more. All monuments are custom including size, color, and design.

### SHAPE

Most monuments are able to be cut to a variety of shapes including a traditional rectangle, a heart, a cross, or something special to represent your loved one.

### INSCRIPTIONS & LETTERING

This is where you tell your loved one's story. Bible verses, poems, or song lyrics are often used. You will also be able to choose a font style and engraving option.

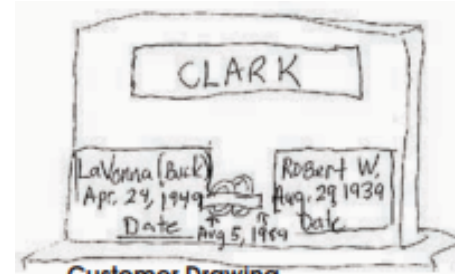

### PHOTOGRAPHS & SYMBOLS

Today's technology allows you to put photographs, outdoor scenes, or symbols of items on the monument with great clarity and quality. Many choose photos of their loved one's interests, such as farming, pets, sports, cars, or hobbies.

### COST & INSTALLATION

Budget is always a consideration, and because you'll purchase directly from us, we are able to remove third-party fees that increase costs. Our team will install monuments according to cemetery standards and more timely than other providers.

## The Process

Customer Drawing

Digital Rendering

Completed Monument

*Our experienced team will work with you every step of the way - from concept to installation - to create a monument that honors your loved one's life.*
