

PROJECT PROPOSAL

Ocala Fruit Farm

Proposal Version 1.1 created 11.17.2022

Prepared by:
Oyster Boys Conservation
Skyler Windmiller, Dom Marino

EXECUTIVE SUMMARY

What we will do:

- Utilize .35 acres of undeveloped soil via a partnership with Florida Dragonfruit Urban Farmer
- 25 avocado trees
- 25 mango trees
- 25 dragonfruit trees
- 25 mangrove seedlings

Why we will do it:

- To practice sustainable growth of native Florida fruit trees
- To provide a fresh, high quality food source
- To represent our "Fresh From Florida"

Project needs:

- Cultivation equipment
- Regular attention to our plants and trees
- Distribution partner
- Clean water source such as a well
- Land evaluation

Desired outcome:

- Gather a better understanding of improving food security in the state of Florida
 - Provide healthy mangroves
 - Obtain carbon credits
-
