

# PROJECT RECAP

100 Vertical Oyster Gardens Assembled and Installed

Recap Version 1.0 created 11.01.2022

Prepared by:  
**Oyster Boys Conservation**  
*Skyler Windmiller, Dom Marino*

# EXECUTIVE SUMMARY

---

## What we did:

- Assembled and installed 100 vertical oyster gardens in Blackburn Bay
- Partnered with MOTE Marine for YSI equipment and Stocking Savvy to collect meaningful research
- Gathered over 100 hours of volunteer efforts

## Why we did it:

- Blackburn Bay is a suffocating body of water suffering a cyanobacteria algae bloom
- Our founding members grew up on Blackburn Bay and wish to see it, and other Florida waterways, restored to great health

## Suncoast News Feature:

## Notable achievement:

- Awarded Florida Agricultural Department "Fresh From Florida" certification improving Florida waterways
