17/20 SEER2 Series

20 SEER2 Series

24/25 SEER2 Series

Up to 6 indoor units

Feature

- ① A entry-level product-cost effective.
- ② WiFi control

- ① **Comfort & Energy Saving:** gold ball dimple outlet and Coanda airflow design, AI smart chip and big data algorithm.
- ② **smart Health:** Wi-Fi, along with a health filter.
- ③ **Reliable & Convenient:** Fault-tolerant operation

- ① **Smart Health:** healthy filter
- ② **Convenience:** easy installation, disassembly, cleaning, maintenance, and assembly.
- ③ **Reliable Performance:** 30s rapid cooling, 60s rapid heating, excellent operating in ambient temperature

- ① **Flexible Configuration** to Meet Various Needs:
- ② **Simplified installation and Procurement:** No welding is required, The installation is as simple as connecting copper pipes and signal cable
- ③ **Efficient Operation:** With full Dc inverter technology

X-Pro Series

- ✓ 9K-24K models
- ✓ Cooling and Heating
- ✓ AI energy saving 2.0
- ✓ 6-level gen mode
- ✓ Anti-direct air flow
- ✓ Dehumidification
- ✓ 56°C high temp. Self-cleaning & sterilization
- ✓ B.I.G. Care+
- ✓ Reverse fan blow self-cleaning
- ✓ Wi-Fi group control
- ✓ OTA upgrade
- ✓ Compatible to BMS
- ✓ Hotel Menu

Product Positioning	Platform	Colling capacity	Refrigerator
Mid-high end	X-pro	9~24K	R32

4 Upgrades

Energy Saving

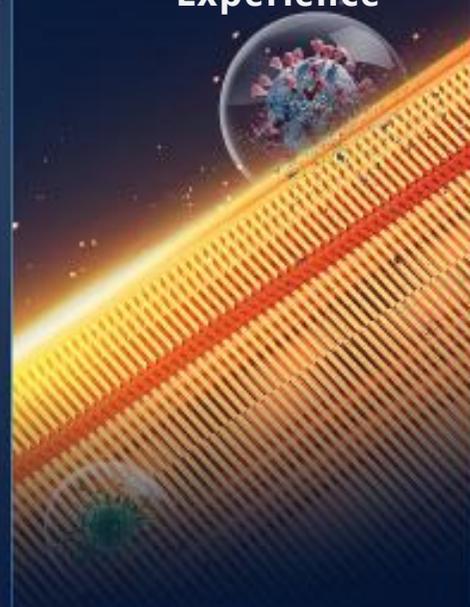

- AI energy saving 2.0
- 6-level gen mode

Comfortable

- Anti-direct air flow
- Dehumidification

Healthy Experience

- 56°C high temp. Self-cleaning & sterilization
- B.I.G. Care+
- Reverse fan blow self-cleaning

Smart

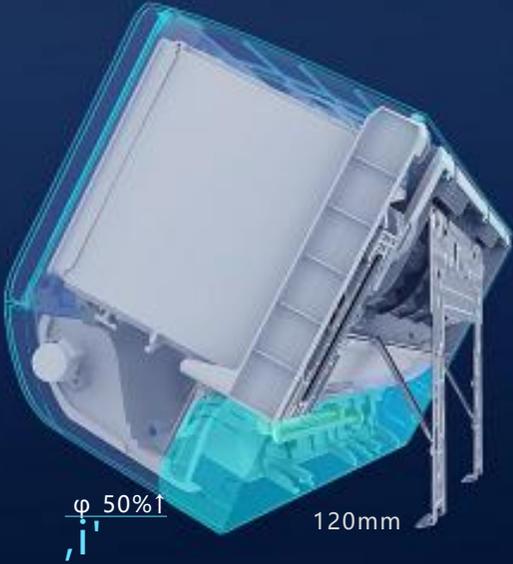

- Wi-Fi group control
- OTA upgrade
- Compatible to BMS
- Hotel Menu

3 Easy

Easy Assembly

Easy Installation

Easy Maintenance

T-pro Series

- ✓ 9K-24K Energy star & Neep models
- ✓ Detachable bottom plate for easy installation
- ✓ Quick replacement PCB for easy maintenance
- ✓ Comfortable gentle cool air flow
- ✓ Rapid cooling up to 30 seconds
- ✓ 131°F strong cooling in high ambient temp.
- ✓ Low ambient heating -13°F
- ✓ 133°F high temperature self cleaning and sterilization
- ✓ 4 way air flow
- ✓ Anti cold air
- ✓ Sleep mode
- ✓ Eco mode

Product line - Light Commercial Indoor Unit

New SEER Inverter Casste

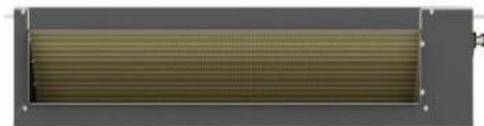

Cassette

9K-24K

- 360° Air Supply Panel & Display
- Two Wired Controllers
- AI Energy Saving
- WiFi Control
- Self-cleaning
- Reserve fresh air vent

New SEER Inverter Duct

Duct

9K-24K

- 104° Wide Range of Airflow
- Seven-gear Wind Speed
- Stable Operation in 60°C
- Fresh Air and low noise
- WiFi Control
- Self-cleaning
- Reserve fresh air vent

New SEER Inverter Ceiling

Ceiling

18K-24K

- Compact Design of 245mm
- High External Static Pressure
- Left or Right Drain Direction
- Seven-gear Wind Speed
- Self-Cleaning

60K	230V	55000	55000	18	9	54	57

New Improvement

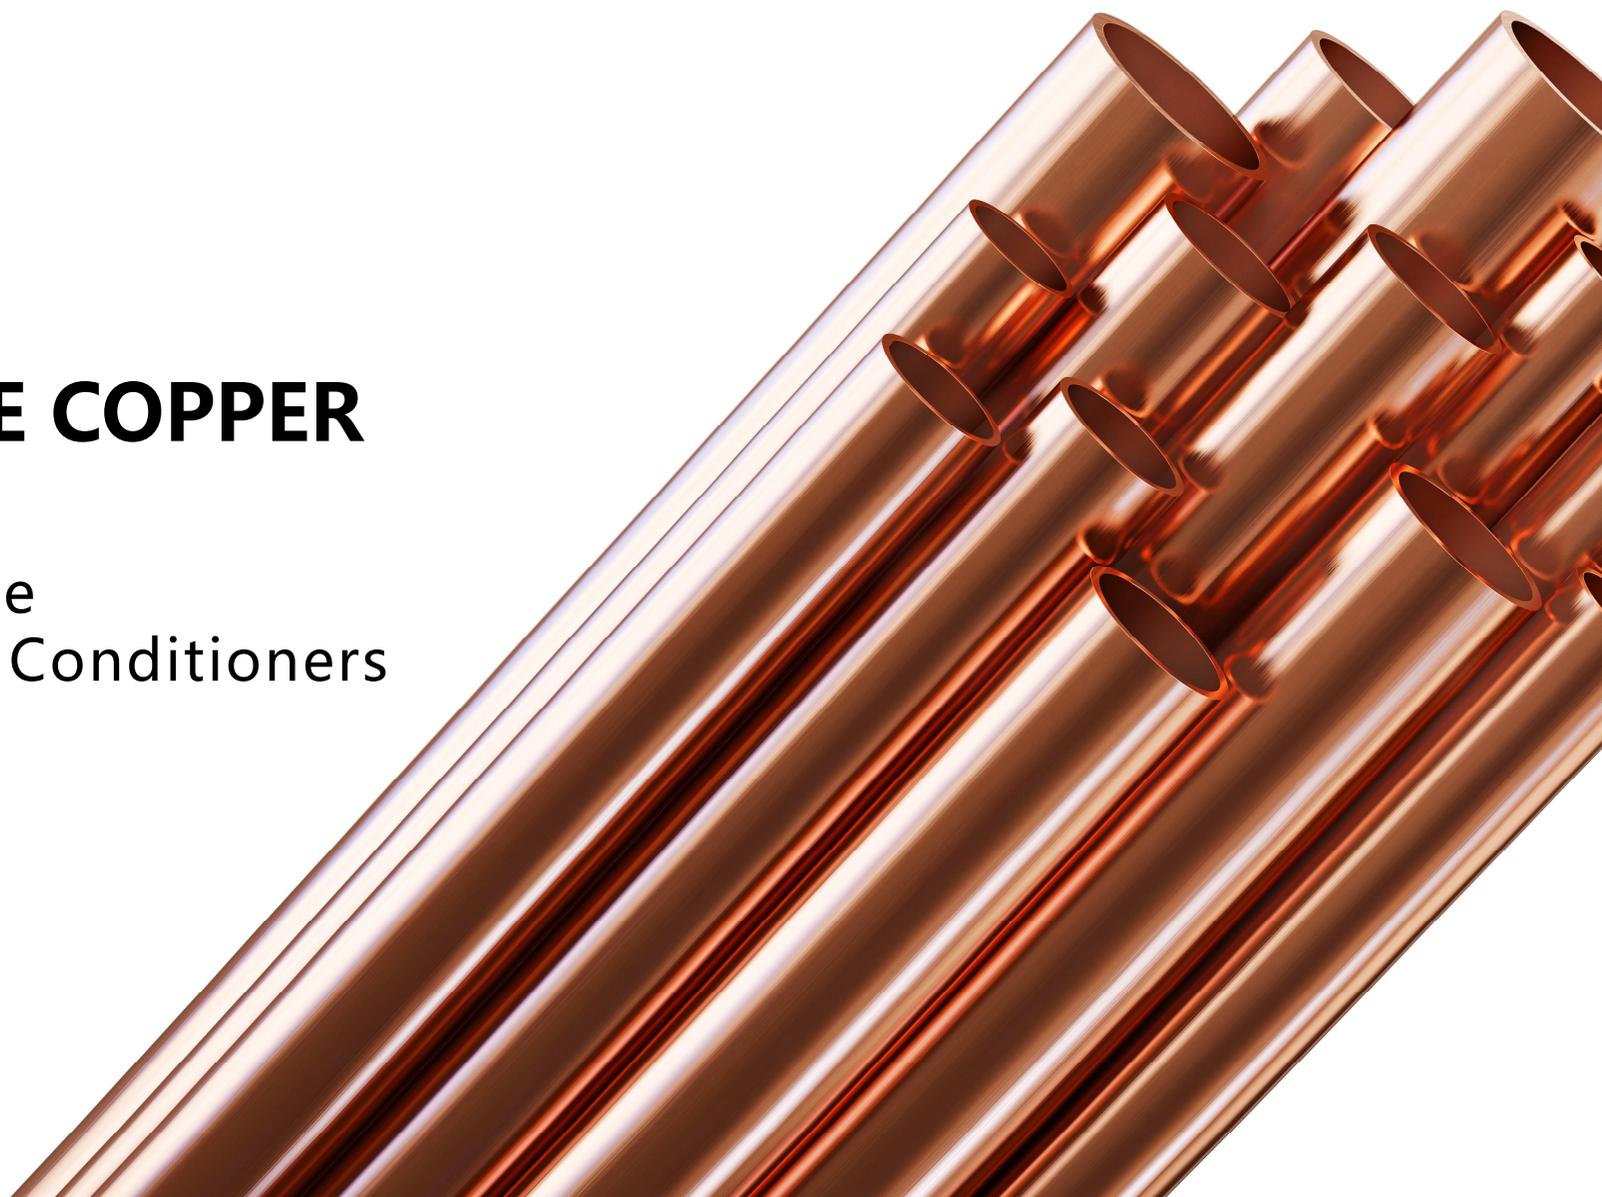

Worldwide Air Conditioner Partner

OXYGEN-FREE COPPER

Introduction to the
Application in Air Conditioners

Oxygen-Free Copper Trend

- It has high purity and strong anti-oxidation, which keeps good heat transfer and strength even in humid environments.
- Finer grain structure improves corrosion resistance.

99.95%+
Ultra-high
Copper Purity

Compared to Normal Copper Pipe			
+10%	10-20 Times Less	3 Times Less	Denser
Copper Purity	Impurity P	Other Impurities	Grain Structure

Coastal Areas (High Salt)

Humid Areas (High Moisture)

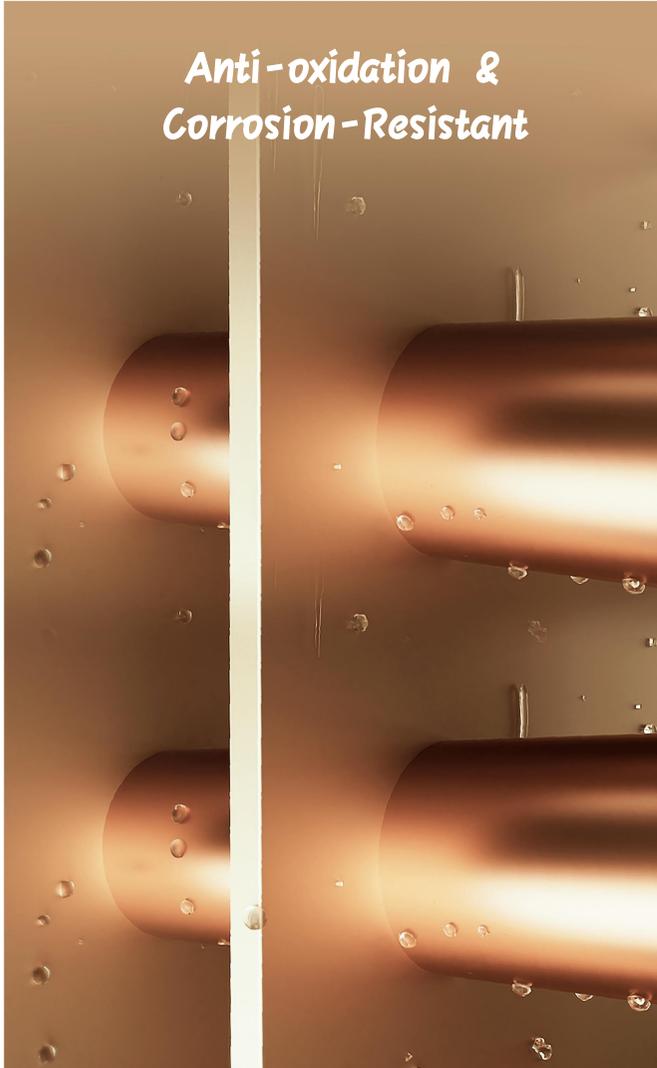

Hot & Polluted Areas

Three Key Benefits of Application in AC

*Anti-oxidation &
Corrosion-Resistant*

*Easy Maintenance
& Reliable Use*

Eco-friendly

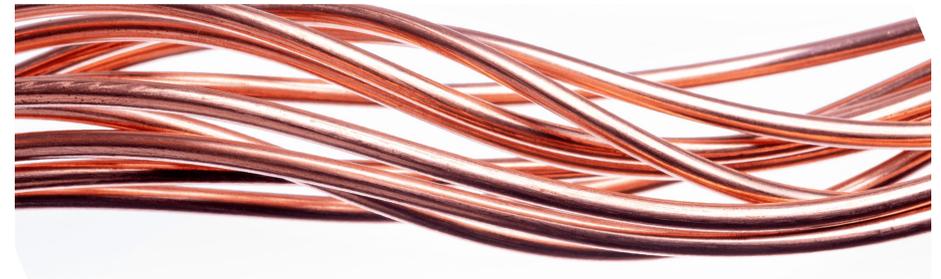

Easier Maintenance & Better Durability

High Flexibility

17%↑

Elongation

Fine and uniform structure, better formability, less breakage, ideal for complex piping.

Easy Welding Better Heat Transfer

Low oxygen, high thermal conductivity and ensures good welding results.

Lower Repair Cost Longer Life

Better corrosion resistance, less damage, longer life, lower maintenance cost.

Introduction for Anti-rust evaporator

Introduction for Anti-rust evaporator

【Advantages】

- * Improve corrosion resistance
- * Greatly extend the service life of the AC
- * It avoids the potential risk of corrosion and refrigerant leakage in the short term due to the harsh environment

【Applicable environment】

- * It is suitable for high temperature, high humidity and high salt fog environments such as coastal areas, chemical plants, farms, kitchens, etc.
- * At present ,Indonesia, Vietnam, Taiwan, Thailand, the Philippines, UAE, etc market may have great demand.

【Comparison】 With VS Without

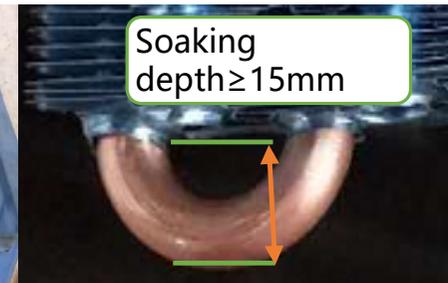

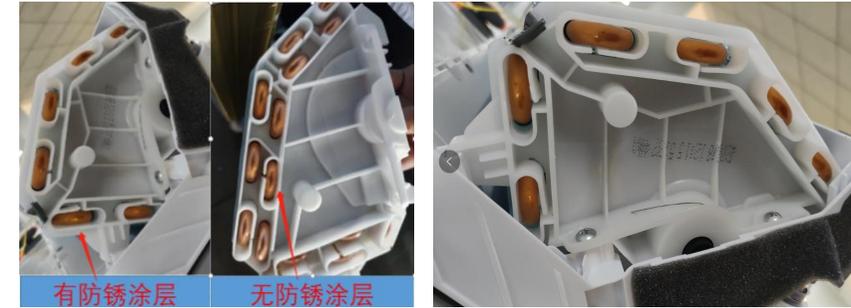

*Anti-rust specially treated with waterborne epoxy coating on the welding side of the evaporator and the bottom of the U tube.

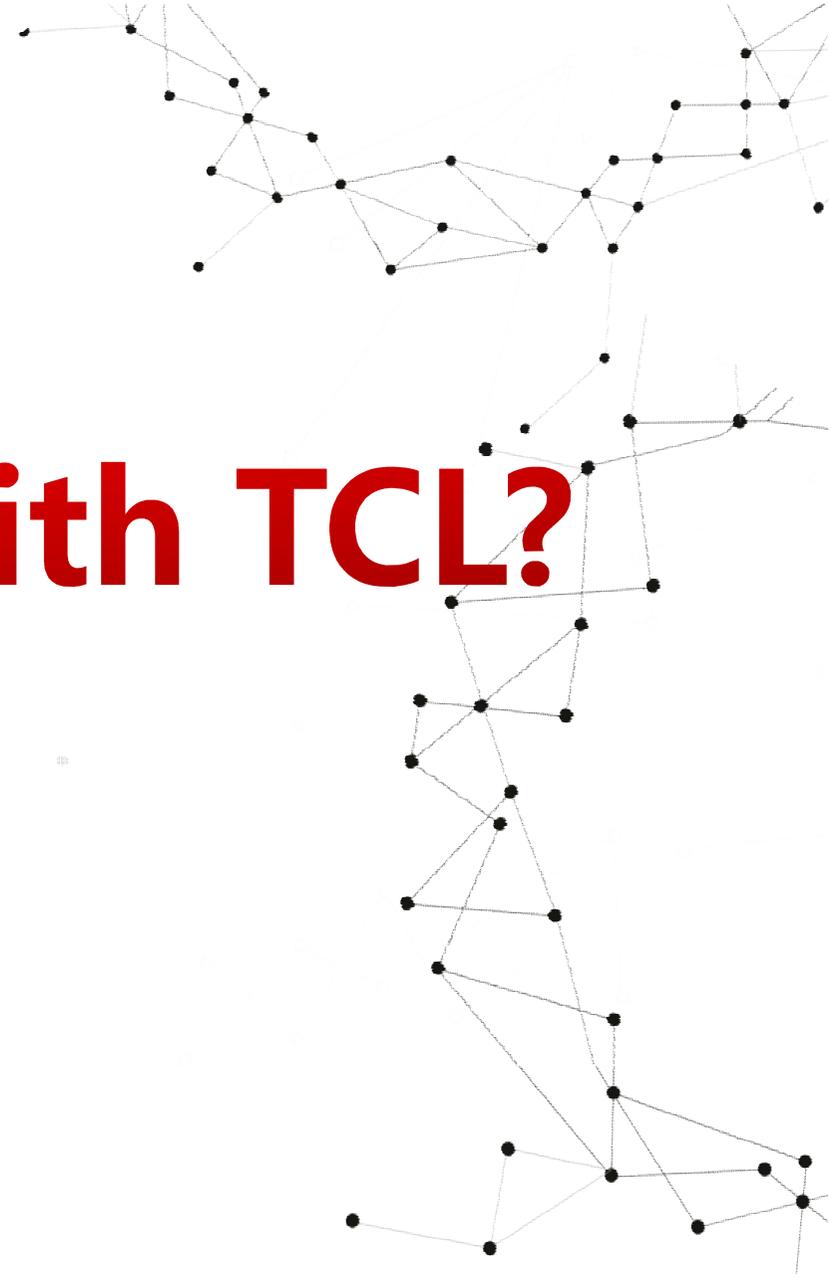

*Neutral salt spray test: 5% NaCl (pH6~pH7) + test temperature 35 °C

Result as below

Remark: Neutral salt spray test 24H≈ natural environment 0.5~1 year, the specific should be subject to the actual use of area

With	Without
648 Hours	72 Hours
No rust, no patina	Rust & patina

Why Partner with TCL?

The First Choice of ODM Supplier

TCL & U → Partner for Mutual Success

— Hard Power —

- ✓ 11 Manufacturing centers and overseas factory capability
- ✓ 11 Global Leading technologies-R&D ability
- ✓ Total 5186 Patents
- ✓ Industry top level quality guarantee
- ✓ Competitive price-supply chain cost advantage

— Soft Power —

- ✓ Customer First
- ✓ Reliable
- ✓ Consistent
- ✓ Competitive
- ✓ Flexible
- ✓ Stable Team

— Strategy —

- ✓ Develop together, invest together
- ✓ Go to Market together
- ✓ Worry-free service

Thank You

TCL AC | SMART HEALTHY AIR WE ENJOY
