About Spinway

Spinway provides a smart, simple, fully-automated bike station that's designed specifically for hotels and resorts. It's a fun, safe, bicycle rental amenity that enhances the guest experience - at no cost, liability risk or ongoing maintenance to hotels.

Our Mission

It's a headache running a manual bicycle program at hotels. It costs time, money and upkeep. Spinway's mission is to make hotel bike amenities smart and simple. We're transforming the way bicycles are offered and rented at hotels and resorts across North America, Australia, and the world.

Our advanced, self-service system is designed specifically to meet the needs of hotels and their guests. Spinway provides a custom bike amenity that's at no cost, liability or maintenance to the hotel and their staff, with Spinway owning and operating the stations – making it the easiest and most cost-effective option for hotel bike rentals.

The Spinway difference

Spinway is the smart, safe and simple alternative to hotels purchasing and operating their own bike rental program.

Simple

It's fast and easy for guests to rent a bike. For hotel staff, Spinway takes away the headache of manually running and maintaining bikes.

No cost

No ongoing costs to the hotel. Spinway owns and operates the station.

Smart

With Spinway's software, bike stations are self-automated, have a robust sleek design and advanced bike lock/unlock, tracking system.

No liability

We provide General Liability Insurance so you don't have to.

Safe

The bike and station are both designed with your guests in mind, plus providing excellent technical servicing on a regular basis.

No Maintenance

Our tech teams service the bikes on a regular basis.

Features

- No cost – Spinway owns the bike station.
- Spinway does the installation, maintenance & customer service.
- No insurance or liability risk – Spinway provides liability insurance for every rental.
- Robust design – Bikes and stations are theft, tamper and weatherproof.
- Sustainability – Stations are solar powered and reduce the need for taxis and cars.
- Enhanced guest experience – guests can explore the local area by bike directly from your hotel.
- Outdoor advertising: bicycles and station can be branded with hotel logo.

The bike design

The bicycles are designed by world-leading bicycle manufacturer Avanti Bikes (www.avantibikes.com). Avanti has shaped Spinway's sleek bicycles to be light, comfortable and durable. They're designed to match the style and aesthetic of a luxury hotel.

Features:

- RFID chip bracket
- Puncture-proof tires
- Thornproof tubes
- Chain protector
- Enclosed internal gears and brakes
- Internal cabling
- Comfortable & Adjustable seat
- Low step-thru frame for a wide range of riders
- Custom basket carrier
- Lightweight and easy to ride
- Easy to use 3-speed gears

The station design

The Spinway station was created by international industrial designer Marc Venendaal. It is sleek, secure and easy to use. Modular in design, it can house an unlimited number of bikes, single or doubled sided.

Features:

- Solar Powered – 20W solar panel
- Marine-grade 316 Stainless Steel structure
- Advertising panels
- Remote management
- Credit card payment
- Anti-theft locking mechanisms

Size of a four bike station: 10.71 ft length x 5.9ft width

How it works

How your guests rent a bike

Guests swipe their credit card & follow prompts on screen

Guests choose their bike and rental period.

The chosen bike is unlocked for the guest, and they're on their way..

How your guests return a bike

All bikes are to be returned to the original Spinway station

The clamshell (shown) easily locks the bike into the station

Guests can check bike is locked by pulling it backwards.
