This year's show will consist of ice breaker games, fitting demonstrations, a marketing competition, team judging competition, salesmanship competition, quiz, dinner, showmanship classes and conformation classes. For the showmanship and conformation classes every top two competitors in each class will have a chance to be grand champion. At the very end of the show there will be lots of sheep being sold.

Benefits of purebred sheep

"The goal of purebred sheep production is to provide superior genetics to the commercial sheep industry and to other purebred producers. Purebred sheep ensure a set type of characteristics typical for that breed, including: growth rate, fertility, mothering ability, carcass quality, flocking instinct and wool character."
