SUICIDE FACTS

September is **National Suicide Prevention Month**. Suicide is a serious issue that affects many individuals and communities, and it's crucial to raise awareness and promote prevention efforts. Suicide currently ranks as the **second leading cause of death for ages 15-24** and is the leading cause of preventable death in our nation.

FOUNDATION INFO

This event benefits the **Jordyn Clark Foundation**, a nonprofit organization dedicated to ending suicide by removing the stigmas associated with mental health and well-being. Stigma often prevents individuals from seeking help when they are struggling, which can lead to feelings of isolation and hopelessness. By promoting a culture of openness and understanding about mental health, we can encourage more individuals to seek the help they need.

Together, we can make a difference.
