

Robert Badal Teaching Experience:

Secondary School

<https://blseducation.com>

info@blseducation.com

From 2002 to 2004, Robert taught students on study abroad programs for Osaka Sangyo University Los Angeles. The students were mostly from Japan, with a smaller number from China, Taiwan, Korea, and South America.

At OSULA, Robert helped to design a curriculum for students coming to study in the US, preparing them with the core knowledge they would need to succeed in American schools (see both Experience: Drama & Public Speaking and Experience: Test Preparation and Study Abroad).

In 2004, Robert was honored to be chosen out of 45,473 Los Angeles Unified School District teachers to be a full time, licensed public high school teacher at Meito High School in Nagoya Japan, a high level public school specializing in English.

This two-year assignment was part of a special Sister City program under the auspices of LANSKA, the Los Angeles Nagoya Sister City Association. Robert also acted as a Spokesperson at events for the 2005 EXPO held in Nagoya. To see his personal website, go to www.robertbadal.com.

As a full-time public high school teacher at Meito, Robert taught all levels of English. He was also the Speech Coach for contests on and off campus and helped students with both writing and presentation.

Robert Badal understands the students well and is assiduous in teaching.

Suzuki Kazuhiro, Vice Principal Meito High School

During his 2 year appointment at Meito High School, Robert was one of the most popular and acclaimed teachers, serving on exam committees and participating in many extra curricular programs, including the PTA (Parent Teacher Association) and after school student guidance, counseling, and tutoring. Additionally, Robert taught special writing workshops and coached students who were seeking to go abroad for their university education in the TOEFL test. (see Teaching Experience: Test Preparation and Study Abroad).
